Gate of Entry

I could hardly open my eyes. I felt that I had come to a strange place that had never been visited by me.

As time goes on, I could see the surroundings and I could see myself lying on the ground. Nobody was around me except the cool and green environment. A fresh breeze of air embraced me to welcome myself to the new place.

I started discovering about the new place and the very reason as to why I arrived here. Unfortunately, I couldn't recollect any valid reason behind my arrival to this place.

Time was running. I could open my eyes and started looking around. It was a strange place, indeed. It almost became dark. I could feel I was stranded. I couldn't walk as I barely had control over my legs. Panic struck me strongly.

I tried to recollect the ways and means through which I reached this place desperately but in vain. I was clueless. I started getting frustrated. I attempted to shout to seek help from anyone surviving there. But I was unable to shout, rather I was able to cry.

A few minutes later, I could see a man and a woman walking from a farther distance. As I could neither wave my hands nor shout nor run towards them, I became critically anxious to wish them to take care of me.

Wow...I was fortunate. I could see them coming towards me.

AWARENESS

They started talking to me. "Hi...New Face... Welcome to our glorious town. We had come earlier to receive you. But you were asleep. Now we have seen you awake and hence we can guide you to reach your home. Can we take you with us?"

I immediately got a mixed feeling that contained both shock and surprise together. With much anxiety, I decided to enquire about them. "Where are you taking me? Who are you both? Why am I left stranded here?"

They responded. "Don't worry dear. We are here to help all the newcomers who are left stranded here. We know our role is to retrieve the stranded people and guide them to their allocated homes"

I got confused. "Home? Which home?"

They patiently answered. "Don't worry my child. All people who arrive here are being allocated to an exclusive home in which they will find their guardians of life"

I got surprised again and asked them. "Guardians of life? Why should they become my guardians? "

"Don't worry, child. All such guardians were formerly left stranded like you and subsequently they were also guided to their home allocated to them. They also found their guardians of life in that allocated homes"

I got anxious and inquired. "Are many people arriving in this place like me and are they getting allocated to their guardians of life and their respective homes?"

AWARENESS

The man and woman casually replied to me. "Yes, dear. Many people are arriving at this place every day and we guide them to their exclusive guardians and their homes"

"Why should I be taken to those specific guardians and not to other guardians?"

"No dear... Your guardians are exclusive for you. Because they requested for a newly arrived child. Based on the 'Book of Destiny', you have been allocated to your exclusive guardians"

I was not happy with their explanation. "Why should my guardians have requested for me? Who are they for me?"

"In fact, your guardians hadn't requested 'you'. Rather they requested just for a newly arrived child. As per the 'Book of Destiny', you have got allocated to these guardians."

"You mean to say it is just an accident through which I get attached to my guardians of life?" I asked them.

"Yes. It seems to be an accident for those people who arrive and subsequently start living here in this town. But for the 'Spirits of Elite', it seems to be a well-planned activity."

I exclaimed at them. "Who are these 'Spirits of Elite'?"

They smiled at me and then took me on their shoulders. When I stared at them, they pacified me to accompany them. As I kept mum, they started walking swiftly.

I could see that they were nearing a Gate. I could see a rustic signboard hanging on the right side of the gate and it was written as 'Entry Gate: Town Of Maya'.

Chapter 2

Guardians of Life

The man was taking me on his shoulder and walking through the Entry Gate of the Town Of Maya after seeking permission from the security guards by showing a few papers.

The man, woman, and I were passing through the long streets of the town. Few people rushed out of their homes just to witness me being carried by the man. They whispered to each other looking at me. I fail to understand the reason as to why they were giving that much importance to me.

After witnessing many people en route to my destination, it gave me little relief towards security.

After walking for half an hour, we reached a home marked with the number 17881.

Ohhh...A couple was running out of the gate of the house towards me. The couple was very excited to see me and they sought permission from the Man who was carrying me to hand over me.

The man told the couple, "Wait for a minute to sign the documents and then receive the newcomer. Don't worry... He won't run away from you people. He is allocated for you only. So please complete the formalities to receive him"

The couple shook their heads in affirmation and started signing the documents. I could see that the couple were in a great hurry to sign the documents to receive me as early as possible.

AWARENESS

The formalities were carried out within few minutes and I was handed over to the couple successfully. The man and the woman who carried me into the town smiled at me and waved their hands as a token of gesture before parting with me.

I was reluctant to see myself being handed over to a new couple. After seeing my reluctance, the man encouraged me saying "Don't worry man... This couple is your 'Guardians of Life' and they will take care of you fully. We have just completed the job of handing over you to the right couple and hence we are going to leave you now. You are in safe hands now. Don't worry at all"

Very reluctantly, I looked at the couple who had just received me. They were so happy to receive me and they took me inside their home in an extremely joyful mood.

Both the couple were pampering me continuously. The male member of the couple introduced himself as 'my father' and the female introduced herself as 'my mother'.

I was confused about the names of the relationships. But I was unable to express my confusion to them through conversation. I could only cry.

After seeing me crying, the newly designated lady as 'mother' hugged me and kissed me on my forehead. She started pacifying me, " Ohhh son... don't worry. I am your mom and I will take care of you. Please don't cry"

I could feel a wonderful comfort while the 'mother' hugged me. So I decided to stop crying.

AWARENESS

Although I could understand their conversation, I was unable to reciprocate it. I was just listening to them.

After some time, I started feeling sleepy. The 'mother' put me in a cradle and started oscillating me. While I was trying to sleep, I could hear the 'father' talking to the 'mother', "don't worry... He will start feeling comfortable here after a week. He will start conversing with us in a month or so. Then we all will be completely ok".

I felt happy to know that I would be able to 'speak' in a month or so. Wow.... I slept after a few minutes.

The so-called 'Guardians Of Life' continued to feed me, pamper me, and make me sleep. Time was running fast.

After a month, I could open my mouth and uttered the word "mmmaaa". The moment I uttered this word, 'mother' jumped in the air and called 'father' in a high-pitched voice to hear my first speech. Wow...I felt proud to have spoken my first word. I smiled at my 'Guardians of Life' to show my pride. They hugged me for a long time.

In the following month, I was able to speak a lot of words and I made my 'Guardians' understand my thoughts. We all started conversing within ourselves and I started understanding them much better.

In the fifth month, I came to know many things about our Life in the 'Town Of Maya'.

AWARENESS

The 'Guardians Of Life' briefed me about many things. The 'father' started the conversation, " Dear son, we are very happy to receive you and to become a happy family. We are very fortunate to have you as our son. We booked for an offspring one month before and we got allocated promptly."

I asked my 'father' about their relationship with 'mother', "When did you both get to know each other?"

'Father' replied: " Your mother and I met three months ago, and we fell in love. Then we decided to marry"

I continued to explore them. "Where were you born?"

'Mother' replied: "Not only the two of us. Every person living in this 'Town Of Maya' was brought to the place where you were found at the first instance. We all were brought here from 'Nowhere' "

I was astonished to know the fact that all the people were brought to this 'Town Of Maya' from 'Nowhere'.

I asked my 'parents' with much aggression: " How could this be possible at all? How can we all be brought from 'Nowhere'? It is impossible"

The 'Parents' pacified me saying: "No son... When we were brought here, we also got shocked to know this fact. But after we met our own 'Guardians of Life', we gradually accepted this fact and started living our life peacefully"

AWARENESS

I screamed at them: "How could you take such a mysterious appearance of us so easily 'Father' and 'Mother'? Why haven't you explored deeper till you discover the Truth?"

'Father' responded politely: " No son... It is not so easy to understand the Cause and Source that brought us all here to this town. Nobody had clear clues about our arrival here"

My 'Mother' continued to give me more shock: "My son... You have got shocked to know about our arrival here. But there is another big shock about our existence in this town as well. Please try to accept that fact without becoming anxious"

I turned at the face of my 'mother' and asked her anxiously: "What do you say? What is another fact about our existence here?"

My 'mother' pacified me: " Son... That's why I told you not to get shocked. Please listen to that fact without getting anxious. We all can't continue to Exist here permanently"

I literally got panicked. "What the heck are you sharing with me? Are you sure? Can't we live here in this town permanently?"

My 'father' explained the whole fact: "My son... don't panic... All people who have arrived in this 'Town of Maya' can't live here for more than 8 years. At the end of eight years of stay here, the 'Horse Man' called 'Yama' would come to the respective home to take us to the 'Exit Gate' "

AWARENESS

I was shocked to know about the 'Horse Man' and confronted my 'father', "Why can't the Mayor of the Administration Council stop the 'Horse Man' from entering our town and strictly prohibit him abducting people from here?"

My 'father' replied, "Son, it is impossible as the operation of the 'Horse Man' is well approved by the 'Lords of Divine' who control the Administration Council for the past many centuries."

I became angry and asked him, "Who are these 'Lords of Divine'? Who is controlling them?"

My 'father' replied, "To the best of my knowledge, nobody seems to control them. They are the most powerful Lords of our town. So, people who complete 8 years of living in this town are bound to be abducted by the 'Horse Man'. Nobody can escape from him"

After listening to this explanation, my brain got into a weird state and I lost my state of consciousness. I passed out.

Chapter 3

Strange Old Man

The Administration Council of the 'Town of Maya' was controlled by the Religious Council called 'Lords of Divine' which was constituted by 7 highly influential religious leaders.

'Lords of Divine' meticulously followed the 'Book of Divine' in which the 'Codes of Rules' were written by the ancestors of 'Lords of Divine'.

The Head of the Administration Council, the Mayor, had been elected through the election voted by the citizens of the town.

On that day, the Mayor convened a crucial meeting to discuss the current event related to a Strange Old Man.

The Mayor, Learnold, entered the meeting hall and requested all council members to take seats.

After all the members of the meeting settled down in their seats, Mayor requested the deputy Mayor to initiate the proceedings of the day.

Deputy Mayor: "Good morning to you all. I welcome you all to participate in the discussion and also to contribute your opinions without any reservations. Let us hear from the Speaker about the primary agenda of today's discussion. Mr Speaker, please apprise the participants about the primary agenda of the day"

Speaker stood up and took a paper that was written with some discreet details in his hand.

Then the Speaker started delivering his speech to the participants: "Dear Members, Good morning. I would like to bring a peculiar yet alarming issue to your notice. A couple of months back, an old man, an extremely strange stranger, who is not enlisted in our 'Book Of Divine'" appeared in the northeast corner of our town. I invite our Chief Vigilance Officer to narrate the rest of his inquiry and request to this council.

The Chief Vigilance Officer took the podium and started explaining his finding about the strange old man.

"We rushed to the spot immediately after we received the information about an anonymous appearance of a strange person. We found an old man with no identity documents. We understood that he just kept sitting in a single place for many days continuously. He didn't answer any of our questions rather he kept intermittently smiling at us throughout the inquiry session"

"After a couple of weeks, we understood that he moved to the central part of our town. Although he didn't confront nor disturb any citizen directly, at a later stage, we have come to know that all the places where he visited have been infected by a peculiar virus"

"In the last couple of days, we have come to understand that the strange virus is spreading to almost every person on the street where this old man was sitting and spending time. Since our medical team of the virology department couldn't establish any concrete evidence about the source of the virus, we started suspecting this old man as the cause of the spread of the virus"

"We need a directive from the council members as to how to deal with that old man". The Chief Vigilance Officer took his seat after completing his speech.

AWARENESS

The Mayor continued to address his concern. "Chief Vigilance Officer, Have you requested the old man to get out of our town?"

Chief Vigilance Officer stood up and answered the question. "Yes Sir. In fact, we ordered him to vacate our town immediately. But he didn't even look at us to respond to our instruction"

Mayor intervened to comment," You could have physically forced him to get out of our town. Why didn't you do that?"

Chief Vigilance Officer responded immediately: "Sir, we had physically lifted him and left him out of our Exit Gate four days back. Yet, he appeared again in the central part of our town within a few hours of our forceful eviction. His reappearance made us bring this issue to the notice of this council"

Based on the 'Codes Of Rules' enlisted in the 'Book Of Divine', the Administration Council of the 'Town Of Maya' was strictly forbidden to block the movement of Horse Man. The 'Lords Of Divine' were fully in the Support of the Service of the Horse Man as the same had been religiously 'Approved' since the beginning of the written history.

Mayor instructed the Chief Vigilance Officer to escalate this issue to 'Horse Man Yama' immediately and then revert back to him with the response of Yama.

The Chief Vigilance Officer replied, " Sir, as you are aware, Horse Man Yama doesn't speak to any of us. He has been doing his duty meticulously without talking or listening to the hue and cries of our people. As we are all aware, we can't physically force the Horse Man based on the 'Codes of Rules' enlisted in the 'Book Of Divine'. Under such a challenging situation, how can we get in touch with the Horse Man?"

Mayor responded, " CVO, please try to escalate this issue to the Horse Man Yama himself as we don't have any other options to deal with this strange old man. Please try to stand on the way through which the 'Horse Man' travels and starts pleading with him loudly to rescue us from the current disaster. Please let me know the response of Yama after your interaction"

The meeting came to an end pending the final decision about the issue of the strange old man.

Chapter 4

Rise of Elena

Elena's 'father' sat against her and started advising her: "Elena... Please listen to me. You can't just continue your relationship with Bakta without listening to our warning"

But Elena was not convinced. She started convincing her 'father', "Dad...I haven't done anything wrong as you think. I just keep meeting Bakta to discuss and try to understand the 'Book of Destiny'. That's all. Why do you worry dad?"

Dad confronted her saying, " Elena... People of this town are very observant and they have already started talking nonsense about you and him. I can't tolerate them imagining crazy things about you. I don't really understand any importance of 'Book Of Destiny'. Please don't waste your time by breaking your head into exploring a hypothetical concept and spoil your name and my name in the society"

Elena replied politely," Dad... What do you think about how many more years you can live in this 'Town of Maya'?"

Dad replied," Who knows? It is all left to that 'Horse Man Yama'. He can come anytime from now as I am already in the eighth year which is the last year allowed for any person to exist in this town"

Elena looked at her dad and smiled. She asked, "Dad...Do you have any idea about the place where you would proceed after leaving this 'Town Of Maya'?"

Dad said, "No Elena... Why do you ask such a question now? How is it relevant to my advice?"

Elena started explaining her version of approach in solving the mystery. "Dad... You don't know where you would leave after exiting this Town latest by this year. Yet, you don't bother to pay much attention to this burning issue. Nevertheless, you just keep giving importance to the gossip of the people. Can't you please use your rational mind and decide which is very crucial for you for the time being? Don't you want to meet me and mom after leaving this Town dad?"

Dad replied emotionally, " Why not? I want to meet you people again after leaving this Town and start living a life with you people. I can't afford to imagine a life without you both"

Elena bounced back saying," Dad... In such a case, aren't you really interested to know whether we are all surely going to meet after leaving this Town?"

Dad replied with a saddened face," But, how can I discover the truth whether we are all going to meet again or not? We are sure that we won't get any clue about our Life after leaving this Town. Then why should we waste our time and energy in decoding an unknown issue"

Elena replied," Dad, you are giving so much importance to the gossip of the people and you are wasting so much of your time and energy in adhering to the demands of the people. But you are not interested to spend little time and effort to discover the truth about our after-life beyond the life of 'Town Of Maya'. Why? You have even gone to that extreme step of blocking me from discovering the truth. Bakta and I strongly believe that the 'Book Of Destiny' has all the secrets about our after-life and hence we are seriously attempting to decode the truth. Why can't you please keep quiet if you can't support us in discovering the truth?"

Dad looked at Elena and inquired her," Are you that much confident in discovering the truth, Elena?"

Elena assured her dad," Yes dad. We are really confident. You should once come with me to meet Bakta to understand the vital clues available in the 'Book Of Destiny'"

Finally, Elena's dad gave consent to her to visit me. I hope Elena's dad would probably accompany her during the visit scheduled by her on the weekend.

Chapter 5

Tracking the Mystery Mountain

The Chief Vigilance Officer and his team were getting ready to meet the 'Horse Man Yama'. But they were aware of the truth that it was impossible to meet Yama. Yama was perceived as a rude, tough, aggressive, and very reserved personality. His role was to visit the particular house that was accommodated at the nick of time and to abduct the person who was supposed to leave the 'Town Of Maya' at the scheduled time. Yama used to issue an 'Exit Notice' one week in advance before the concerned people were taken to 'Exit Gate'.

Yama used to visit any house at lightning speed, swiftly take the particular person who was supposed to leave the 'Town Of Maya' on that particular day and leave the place without paying attention to anyone. He seemed to be merciless and very rough in attitude. After Yama crossed the Exit Gate, nobody could trace him out as he travelled much beyond the outer territory of 'Town Of Maya' where no one could pervade.

'Horse Man Yama' was so mighty and powerful, no one dared to confront him while he was executing his task. Since he was always wearing armour, nobody could see his identity. He had warned all the people of 'Town Of Maya' that he would not hesitate to hurt badly or take along with him whoever might intimidate him from carrying out his task.

Chief Vigilance Officer (CVO), Raven, started complaining to his team members: "All the members of the Town Council very well know that it is impossible to meet and discuss with Horse Man Yama. Nevertheless, they have forced us into this impossible task just to cover up their faces. It is atrocious"

AWARENESS

Raven's assistant asked: " Then you could have refused to undertake such an impossible task. Why did you take the task without arguing with them?"

Raven responded immediately, " I know the Mayor and his team. Had I refused, they would have instructed me to resign immediately. They are very arrogant and selfish people."

The assistant inquired, " You know very well that you can't meet Horse Man Yama. Then how would you tackle the Mayor and Council after your failed outcome? They would obviously demand you to resign from your job"

"I am ready to resign after sincerely attempting the task rather than becoming a coward at the first instance itself" -Raven replied.

The team shook their heads in affirmation with the notion of Raven.

The team was about to reach the 'Exit Gate'.

The assistant asked Raven, " What do you have in your mind to meet Yama? Are you seriously planning to meet him or you will just do an eye-wash to escape from the criticism from the Council"

Raven replied," We can't cheat the Council so easily. They would demand us to present all the proof that can substantiate our sincere efforts. To that extent, we have to put our sincere efforts to find Yama"

The assistant anxiously asked Raven, "Then how do you plan to meet Yama?"

Raven replied," We are going to cross our outer territory and reach the bottom of the 'Mystery Mountain' to look out for Yama"

AWARENESS

Assistant raised his voice with a shock, " 'Mystery Mountain'? No. It is impossible. Whoever attempted to reach that mountain never returned to our Town. They have all mysteriously disappeared. I strongly suggest that we would not commit such blunder"

Raven exhaled deeply and looked at his assistant. Raven replied, "You are absolutely right. We have many records confirming such disappearances of those people who went to the bottom of 'Mystery Mountain'. But they all went for their personal reasons like adventure, treasure hunting, procurement of herbs, tree trunk harvesting, etc. The purpose of our visit is totally different. We are planning to visit the mountain for the 'Social Cause'. Our town is under serious threat from an unknown virus and we are forced to find a way out to overcome this threat. This becomes our role and responsibility to rescue the people from this imminent threat. So let us go to the mountain tracking Yama or any Source that is prompting Yama to carry out his role of exiting people from our town"

All the team members stared at Raven and they couldn't say anything affirmative to Raven's explanation.

After a minute, one of the team members volunteered and gave consent to Raven's mission stating, "Yes... What Raven told is morally and ethically right. The current challenge falls under the purview of our role and responsibility. If Yama can take the people in an organized and scheduled way, then I think there must be a team working behind him to carry out such tasks. Why can't we go ahead and discover such a team? Since we don't track them for selfish reasons, they might help us provided they are truly interested in social justice."

It seemed the entire team got convinced with the above statement and they agreed to cross the outer territory of the town by the morning of the following day.

Chapter 6

The Truth

Elena never defaulted even once. She had been very prompt in keeping up her promise. This was reconfirmed even this time. I saw her opening the gate of my house looking inside of my home.

I saw a man accompanying her. I got surprised to see a man with her. I went outside to welcome her. After getting closer to her, I could see that the man was her dad.

I invited both of them into the home. I enquired whether they would like to have any drink. They consented to have black coffee.

Then I enquired Elena's dad about his welfare. He told me it was ok. After a little pause, he continued, "Please pardon me coming straight to the point. Elena kept mentioning about 'Book Of Destiny' frequently and she said you were too good at decoding it. What is big about that Book, Bakta ?"

"No uncle...I am not that good at decoding it. This Book has lots of details and I could understand only the outline of the book. Perhaps, Elena has exaggerated my little understanding." - I looked at Elena with a smile.

Elena's dad continued, " Whatever it may be... I just want to understand why you both keep visiting the Central Library repeatedly and keep discussing the same. The people of this town have already connected you two and started gossiping about your secretive relationship"

I smiled and replied, "Secretive? Uncle...there is no secret in our relationship. We don't hide our relationship from anyone. That's how you have got to know about our relationship."

Elena's dad exclaimed, " Isn't a secret relationship? Then why have you kept the relationship concealed within yourselves until I came to know about it?"

I replied with a smile, " Uncle... We thought it was a normal relationship just like two friends could have. That's why we haven't felt any importance to bring it to you. It is just a normal relationship uncle"

Dad couldn't believe my statement, "Bakta, How can it be a normal relationship? When you both keep meeting privately, how can someone think it is a normal relationship? It is quite weird"

This time Elena confronted her dad, " Dad... Just because two people meet privately, it doesn't mean they have an affair. Please don't follow the cheap perspective of this town."

Dad confronted her now, " Elena, then why are you two meeting privately?"

Elena replied, " Dad... I told you already... We have been discussing about the Survival Mysteries existing in this town and we are trying our level best to decode them"

Dad reverted back, " Let me hear Bakta's version as well. Bakta, is your relationship so plain? Please tell me frankly"

I replied to Dad, " Dad, it is very plain and pure. We have nothing to hide anything about it"

Dad immediately volunteered, " Then why can't you marry immediately?"

This time, both me and Elena laughed at the same time.

I continued to explain, " Uncle... What are we going to achieve by marrying?"

Dad replied, "Bakta... Why are you talking like a child? People get married to get children and to extend their generation. That's all"

I exclaimed and asked him, " Is it just to get children only?"

He added, " No... It is also to make love"

I asked him, "Do we really get married to make love?"

He just moved himself to the front end of the sofa and asked with anxiety, "Does it mean you both have already started making love without getting married?"

I wanted to make him understand, " Uncle... What do you mean by 'making love'?"

He replied, "Involving in romance"

"Uncle...for both of us, romance is totally different from being in love"

Dad was astonished, " How can you love each other without romance?"

I asked him a simple question, " Dad, don't you love Elena?"

AWARENESS

Dad was shocked. He couldn't reply for a moment.

Then he bounced back saying, " What do you mean? Do you compare my love with Elena and your love with her? Do you mean to say both are the same?"

I coolly replied, " Yes. It is one and the same"

He suddenly stood up from the sofa and responded, "You are now literally confusing me. I can realize now that either you are mad or I am mad"

Elena replied without any delay," Dad... You are mad"

Dad got angry and told Elena, "Both of you have gone mad. I am going home"

I pacified him by saying, "Uncle, please relax... You are not mad. You haven't yet understood the Truth... that's all. After you understand the Truth, you will become perfectly cool-minded. Please try to understand the Truth with open-minded uncle"

He turned back and stared at me. Then he shouted at me saying, " What the heck, you are talking now? Am I not talking Truth? Haven't I understood this Truth?"

"Pardon uncle... You have understood the majority of the Truth. Yet there is a crucial remainder left out unlearnt by you"

Dad started getting angry, "Do you mean to say, I am stupid. You are making me stupid now. Leave all of your nonsense and answer my question directly. Please don't lie to me.. please. Have you both already gotten into romance or not?"

AWARENESS

Both me and Elena raised our voice and replied to him unanimously, "We haven't gotten into any single activity of romance... we promise"

Dad became silent for a moment. Then he exhaled a long breath. Finally, he asked me, "Is it really a promise?"

We both said, " Yes. Very much a promise"

Then he sat down on the sofa and politely asked me, "Can you now explain about the real Truth meant by you people?"

I vouched for him, "Sure uncle...I will explain the whole Truth. Let us now go to the Central Library and have a glimpse at the 'Book of Destiny' to understand the whole Truth"

Dad agreed to our suggestion. Three of us started heading to the Central Library.

Chapter 7

Crossing the forest

Raven's phone started ringing. Raven woke up to attend the call.

The Deputy Mayor was on the other end.

Deputy Mayor started the conversation with much anxiety, "Raven, Things are going haywire here. Viral disease has started spreading in the whole southern part of the town. People are extremely nervous. We have also seen a strong connection between the old strange man and the spread of the virus. We chased him away several times. Without strong evidence, we can't implicate him legally. But we are seriously investigating for strong evidence. In the meantime, we hope that only the Horse Man Yama can rescue us much easier from the current challenge. Please put maximum effort into meeting him. We are all desperately waiting for a solution. Please hurry up."

Raven replied, " I can understand the situation over there. We are going to put maximum effort into meeting Yama and I will update you. But I don't know whether I will be able to make a call from the area of Mystery Mountain. Let me see."

After disconnecting the call, Raven understood the criticality of his mission and hence he started his journey along with his team towards Mystery Mountain. The team consisted of 6 active members and 8 supporting members who carried food, medical aids, security kits, etc.

AWARENESS

After travelling for 2 whole days, they finally reached the Outer territory of 'Town Of Maya'. Since they were aware of the fact that it was impossible to drive vehicles beyond the Outer territory, they parked their vehicles under the shade of a huge tree and got ready to cross the border of the Town.

As they were crossing the border, most of the team members got into a tense mood, and yet they couldn't express it orally.

As they walked farther from the border, the depth of the bush was becoming more and more. At one point, they could see a dense forest ahead at a distance of their eyesight.

It almost took 3 days for them to arrive at the beginning of the forest. They knew that they should cross the forest to reach the bottom of the Mystery Mountain.

As they entered the forest, the dense trees prevented sunlight from piercing into the ground. As there was no path, they ought to walk through the dense bush spread in between the huge trees.

The team witnessed snakes, strange insects amidst the chirping of different birds. They had to kill a couple of snakes that attacked them closely.

They walked for 3 days to cross half of the forest. During such a tough and endured walk through the forest, they always decided not to walk during night hours. They also decided to stay in the trees by tying a hammock in the branches of the trees. They thought that it was safer to sleep in the hammock to prevent them from any possible attack from snakes and poisonous insects.

AWARENESS

On the fourth night of their trip, all 6 team members managed to tie a hammock for them in a huge banyan tree and tried to sleep. They could see the streak of moonlight falling in different places in the vicinity of the forest.

Around midnight, Raven woke up due to a chattering noise around the place of camping. As he beamed the light of the torch towards the place from which he heard the chattering noise, he was shocked to see a herd of hyenas coming towards the tree at which they erected a hammock.

After the hyenas surrounded the tree, they started howling, staring at the team members.

Raven ordered the team members to shoot at the hyenas so that they could get rid of those hyenas. Based on Raven's order, the crew went on firing at the hyenas until they finally got rid of them. Nevertheless, they couldn't continue to sleep till 3 am.

After having a troublesome sleep and staying in the branch of a tree for many hours, they managed to wake up by 6 am. Then they started walking towards the direction in which the Mystery Mountain was situated.

The team saw many skeletons of the human body throughout their adventurous trip across the forest. Raven told the team that those people who died in the forest had entered the forest without being accompanied by a strong support team. A strong support team might be well-experienced in forest operations, they should carry adequate amounts of food and proper medicines as well as the right type of ammunition. He also explained the right proportion of the support team over the core team. He said the number of support team members should be at least 2 persons more than that of the core team failing which the core team couldn't afford to cross the forest as we managed.

After slogging through a total of 7 days of hectic walking, they managed to cross the forest and arrive at the plain surface.

They were found much relaxed as they managed to cross the forest overcoming severe hurdles.

They all laid down on the surface of the ground and started relaxing. While they were relaxing, they heard a footfall noise and they stood up to see the source of the noise. They saw a dwarf walking into a cave nearby. All the team members looked at Raven to decide the course of action. Raven told them to follow the dwarf. Immediately, they all started walking towards the cave.

Chapter 8

Understanding the Truth

We reached the Central Library as the first group of people immediately after the door was opened.

We approached the librarian to place the request form to issue the 'Book Of Destiny'. The librarian received our request and asked us to wait. She took a few minutes to issue the book. We received it with great excitement in our minds. We looked at each other and expressed a blissful smile with others.

We looked for a peaceful place and occupied it. We sat comfortably and opened the first page of the book.

It was written on the first page in bold letters, " "

You won't be able to see All the Colours of the World and hence you won't be able to see all the Objects of the World. To that extent, you won't be able to understand the Ultimate Truth

Elena's dad was disappointed and said, "Elena, you people brought me here to the library to understand the Truth. But this book clearly says that we can't understand the Truth. Then why should we start reading the book?"

I pacified Elena's dad by saying, " Uncle, there is a difference between Truth and Ultimate Truth. We are here to understand the Truth and not the ultimate truth."

Dad replied immediately, "Bakta, you are always very good at confusing me. This is how Elena has also got confused by your concept. What is the great difference between truth and ultimate truth? hughh..."

AWARENESS

I continued to explain to him, "Uncle...Truth is the one that we can discover, and the Ultimate Truth is the one that we won't be able to discover"

"This means we will never be able to understand the ultimate truth?"

I replied, "No... We can understand the Truth by understanding the 'Purpose of Life'. But we can understand the Ultimate Truth only after understanding the 'Nature of Existence' uncle"

Elena's dad responded, "Elena, see... He is confusing me to the second degree. Please clarify for me now... What should I do now?"

I replied, " Uncle... Don't worry. You need to understand the Truth first and then you can understand the Ultimate Truth later"

"Then please tell me what is all about this Truth what you have been talking"

"Uncle...Truth is nothing but the Right Perception about the Nature of People, their Intentions and their Attitudes. That's all"

Elena's dad exclaimed, saying, "So simple? Then let me understand the truth immediately"

"Uncle, I appreciate your interest. Understanding the truth is simple but it is not as simple as you think. We need to go through the 'Book of Destiny' completely to understand the truth"

"But this 'Book of Destiny' has discouraged us in the opening page itself stating that we won't be able to understand the Truth. Then why should I read it completely?"

"Uncle... This book mentions the Ultimate Truth. It says understanding the Ultimate Truth is impossible. But the 'Book of Destiny' teaches about the Truth."

"Ohh... sorry...I got confused. Now I understand. We are going to understand the Truth by going through this 'Book of Destiny' and not the Ultimate Truth. I got it. Let us turn over to the second page of the book"

I and Elena became happy after seeing the enthusiasm of her dad. We turned over to the second page.

We have seen a message printed in bold letters. It was, "***You can understand the Truth through the Imperfections of the People***"

Elena's dad became happy. He was excited to say, " Wow... This book has encouraged me now. I completely got discouraged after seeing the bold message on the opening page. Now I am happy. Let us go to the third page. What are those Imperfections this book describes?"

We turned over to the third page and we saw a paragraph stating, "***i) Ego, ii) Selfishness and iii) Lust are the Imperfections of the people***"

Elena's dad said, "Ohh. I can see these imperfections existing in the minds of people. But how can we understand the Truth through these imperfections?"

I interfered with him, "Uncle... We have just completed the third page and we still have many pages to read. Let us read it patiently. I know this book leads us to understand the Truth. Don't worry"

"Ohhh... This means you have already gone through this book?"

"Uncle... Not once uncle... Elena and I have gone through this book umpteen times."

Elena's dad turned his face to look at Elena's eyes with great surprise.

Then he asked, "I don't understand why the name of the book is kept as 'Book of Destiny'? It should have been 'Book of Truth', wouldn't it?"

Elena replied, "Initially, I also had the same doubt dad. But after going through this book many times, I can understand why it carries the name 'Book of Destiny'. This book describes the 'Whole Plan' called Destiny through which the Imperfections of the people are rectified. That's why it might have been named as 'Book of Destiny' "

He asked, "Can we also get to know as to why this town is affected by viral disease and it is killing many people?"

I explained to him " Uncle... Not only about the current viral disease. This book explains about all types of challenges, opportunities, and threats to be encountered by people. It also describes the nature of our body, mind, Intelligence, strengths, and weaknesses, life span, family details of people as well"

Elena's dad got much surprised and eagerly requested me to continue reading from the fourth page.

I told him, "Uncle... You need to go through this book slowly but deeply. You should not rush to complete it today itself"

"Why Bakta? I have now gained interest in reading the book. But you are blocking my interest"

I replied, "Uncle...I am very much aware of your interest. But believe me. You would gain more interest when you read it slowly. Let us now go to the place where the Strange Old Man is sitting to explore him. Uncle... This is also part of understanding the Truth. Please believe me. Let us now visit the Old Man uncle"

Uncle consented and agreed to visit the Old Man. They all left the Library to visit the Old Man.

Chapter 9

Sattan's Mind

A huge number of followers of Sattan assembled in the hall that can accommodate nearly 5000 people. They were expecting the arrival of Sattan who was the opposition leader of the city council. The crowd was patiently waiting from 8 am till Sattan's arrival by 9.30 am.

Sattan entered the hall along with his girlfriend Mindina and went straight to the central stage. Both of them started waving towards the followers and the latter, in turn, raised slogan as "Hail big brother Sattan...hail sister Mindina"

Sattan requested the crowd to stay quiet and then requested his party head to deliver the welcome speech

The Party head took over the podium and started delivering his speech. He emphasized the importance of the meeting on that day. During his speech, he explained to the cadres, "Brothers and sisters, Mayor Learnold has been winning the elections for the two consecutive terms and we can't afford to lose this time at all. The Election is just around the corner and we do not even have 4 months to campaign. We would like to request all the ward leaders of our party to come forward and explain both opportunities and challenges perceived by them currently"

All the ward leaders came forward to the podium one by one to deliver their perspectives to the leaders of their party.

Majority of the ward leaders mentioned that Mayor Learnold had started losing his charisma among the people of the town mainly due to his inability to contain the spread of the virus. Hence it was a golden opportunity for their party to win the forthcoming election using the incapability of containing virus by the ruling party.

After listening to all the individual speeches of all the members of the party, Mindina staged a concluding speech and assured the followers, "Don't worry my brothers and sisters, we have carefully listened to all of your views and concerns. I strongly assure you all that we won't let you down this time. We will plan all the strategies carefully to win the election without fail. Don't worry at all. Raise your hands with cheers."

The crowd waved their hands and shouted the winning slogan of the party to display their support to Sattan and Mindina.

After the meeting, Sattan called only the senior leaders who belong to the Governing Body of the Party and led them to a closed-door meeting that was heavily guarded by his security personnel.

In the closed-door meeting, Mindina started sharing her opinion, "Virus is supporting us in a very big way. But for this virus, we could have faced tough competition to win Learnold even in this election. Very fortunately, the Virus came from nowhere to support us. We are really fortunate."

Very senior leader and the general secretary of Sattan's party shared his idea to win the election. He gave an idea: "We all know that virus is favouring our win in a big way. To that extent, we need to look for the means and ways to expedite the spread of the virus to other areas of the town. Not only that, we need to ensure the Old Strange Man remains inside the town without being expelled by the Mayor."

All the members gave the consensus to the idea of the general secretary.

Sattan interfered to say, "Well. I also appreciate the general secretary's point of view. But I have received information that Learnold has sent Raven to Mystery Mountain seeking the solution to contain the virus. In case, Raven can bring any solution to contain the virus, then we should eliminate Raven and his team before entering the town. So we need to attract any close friend of Raven to our side at any cost and send that person to the border in order to get to know the success story of Raven. In case, we get to know that Raven has succeeded in getting any solution to contain the virus then we should send a team immediately to his place to take his life."

Mindina continued to say, "Well... I accept Sattan's proposal fully and I would like to hand over this task to the general secretary himself. Apart from handling Raven, we need to protect the strange old man from being expelled away. We should arrange a team that consists of third party members who will stage a protest as and when the old man is being expelled from the town"

Sattan interrupted to say, "I appreciate the suggestion of Mindina. I would like to suggest an alternate plan to handle the old man's issue. I would suggest that we should form a team which should not strictly consist of any of our party members and make this team behave like the ardent followers of the old man. This team should project this old man as an avatar of God and start praising him by conducting different programs that should reach the public. This team should carry out propaganda in support of the old man as if he has appeared in the town just to save people from the virus. This way, the public won't allow the old man to get expelled from the town and we can ensure the virus getting spread by the old man"

All the members of the highest body appreciated the idea of Sattan and agreed to form a team to worship the Strange Old Man.

Chapter 10

Ascension

Raven's team followed the dwarf man and entered the cave.

The cave was dark and silent. The team lit the guide lamp and started moving along the slightly visible path.

They walked for half an hour and came to a dead end. They didn't know how to proceed further. It seemed they were stranded.

Raven's assistant asked Raven, "Shall we return outside?"

Raven answered him, "No. We can't. Because getting a chance to see a human in this area is highly impossible. Fortunately, we had seen a man and we should not lose him at all. Let us wait and probe further."

Had waited for another hour, Raven decided to call the dwarf man by shouting a request.

Few of the team members kept shouting as, "please help"

Time was running out. After a couple of hours, they saw a light coming towards them from a passage that was closer to the roof of the cave. They focused on the person who was carrying the lamp.

It was the same dwarf man. He started coming closer.

He stopped for a moment and asked one of the team members as to who they were and why they followed him.

AWARENESS

Raven replied, "Mister...We are from the 'Town Of Maya' and we are sent by the Mayor of the town to meet Horse Man Yama."

The dwarf man smiled and said, "Do you think it is so easy to meet him? Even many of us haven't got a chance to meet him"

Raven was surprised. He inquired, "Many of you? What do you mean? Are many people living here?"

The dwarf man replied, "Yes. We are around 200 people surviving here in this cave"

"Why do you live here?" - Raven asked with anxiety.

The Dwarf man explained, "Our ancestors belonged to the 'Town Of Maya'. They all came here looking for Horse Man Yama as you people arrive here. Few of us managed to see Yama and the rest are still yearning for"

"Is it so difficult to see Yama?"

"Yes. He would speak only to those who are 'Ascended' "

Raven inquired, "Excuse me... Can I know what you mean by 'Ascended'?"

The dwarf man told Raven that his Guru could answer that question much better. So he would guide them to his Guru.

AWARENESS

The Dwarf man asked the team to climb on a tall rock and again climb on a rocky platform. From that point, the team could see a different path leading them somewhere. Raven's team started following the dwarf man in the new path.

The dwarf man was sharing information, "You people are very fortunate. No human can reach up to this territory without the approval of Great Yama. He would allow only those people who are Social Conscious or Soul Conscious to reach up to this cave. You people seem to be Social Conscious. That's how you all managed to reach here safe and secure"

Raven couldn't understand the meaning of 'Soul Conscious'. He wanted to decode the meaning from the Guru.

They walked for a while in the path and finally reached a place in which they could see the intensity of darkness was reduced considerably.

The dwarf man led them to a small cave within the big cave. The team saw a man wearing a minimum dress that covered just the crucial area.

The dwarf man introduced Raven and his team to the Guru and explained the incident as to how he found them. The dwarf man also explained the reason for the visit of Raven's team to Mystery Mountain. Raven wished the Guru and the latter reciprocated the same.

Guru started talking, "How are you all? Welcome to Reality. I understand your purpose for coming here. Would you like to take food now?"

Raven thanked the Guru and informed the latter that they had already taken food.

Then the Guru took the team outside of the cave through an exit that was on the eastern side just opposite to the entrance through which Raven's team entered the cave.

After some time, a group of around 200 people started gathering there. Raven and his team could see the group consisted of men and women. Surprisingly, they could not see any children in that group.

Guru introduced the group to Raven and his team and said, " This is my family. We are all staying here for the Purpose Of Ascension"

Raven couldn't control his aggression anymore. He asked the Guru, "What do you mean by the word Ascension?"

Guru smiled at Raven and asked Raven to explore the major differences between Guru's family and the families of the 'Town Of Maya'.

Raven was thinking for a while and then he started answering, " **Firstly**, I don't see any children despite men and women staying together. **Secondly**, you people seem to be living as a Single Family without divisions within yourselves. **Thirdly**, you all seem to be blissful and happy."

Guru appreciated Raven for discovering the crucial differences between the two types of families.

AWARENESS

Raven found himself much comfortable with the family of Guru and took courage to inquire Guru, "Guru...I would like to know the reason why your family doesn't have any children? Don't you people have romance and sex?"

Guru smiled and said, "Few of us have sex but without ejaculation"

Raven got surprised and asked, "Why? How?"

Guru told him, "You will get to know all the answers yourself after you find the reasons for the 3 crucial differences between the two types of families"

Raven exclaimed, " Are there valid reasons for the differences between the two types of families? "

Guru replied, "Discovering those reasons is called Ascension. I will give you a day to discover them and then we will discuss more about the Great Yama. See you later"

Raven accepted the suggestion of Guru and decided to brainstorm.

Chapter 11

Healing

Me, Elena, and her dad started our trip to see the Strange Old Man.

We received the information that he was then camping in the Wisdom Street of the southern part of the city.

We reached Wisdom Street and parked our car at the beginning of the street. Then we started walking along the street.

We could see a crowd thronging in a place that was covered by shamiana.

As we arrived at the place, we could see around 20 people holding big placards that were written with many slogans in praise of the Old Man. Those slogans literally described the old man as an Incarnation of God.

We just pierced into the crowd towards the platform in which the old man was sitting.

As we went nearer to him, he turned towards us and waved hands with a smile. The crowd that was sitting closer to him was surprised to see him waving his hands towards us. I could understand his gesture as an unusual one, probably not expressed to others.

We went near him and watched his face. He asked us to sit in front of him. We sat just in front of him.

AWARENESS

One person came closer to me and told me, "I don't know why I started looking after this old man. Currently, I am the caretaker of this old man. Since the day he came into our town, I have been caring for him and providing him food despite severe threats from the police. But I argued with the police that I couldn't see any evidence against the old man for spreading the virus. But I have a strong anticipation from the old man that he would talk to me sooner or later. Since the day he came to our town, he never talked to anyone."

When the caretaker was talking to me, the old man gave a glimpse at us.

We were sitting in front of the old man for a few minutes in silent mode. Elena's dad requested me, "Ok. Bakta... We have been sitting here for quite some time and we are told that the old man won't talk to anyone. So what is the point in sitting here and spending more time for nothing?"

Can we leave for home, Bakta?"

Nobody expected such a reaction from the old man. The Old man turned towards Elena's dad and asked him, "Is nothing happening?"

The entire crowd including me and Elena was astonished to see the old man 'talking'!

Elena's dad was literally shocked and sought pardon from the old man.

The old man looked at me and said, "This is how people perceived the world. They are unable to understand the Truth of Existence of anyone and anything. I am here for a specific purpose."

AWARENESS

I apologized to the old man and requested him, "please pardon him"

The Old man reverted back saying, "I am not at all affected or hurt by his statement. I just want to tell you and this girl how people understand the Truth. That's all"

Elena and I were surprised about the privilege given to us.

The Old man continued talking, "I wish people to have more patience and tolerance to explore the events much deeper and wider to understand the Truth."

I gained the courage to ask the old man, "If you don't mind, can you please share the Truth about you?"

The Old man smiled at me and said, "I am here to 'heal' those people who get infected and not to spread the virus. Unfortunately, people don't have the patience and tolerance to understand my true mission and they have just believed the rumour as 'their' truth"

Elena and I were totally surprised and inquired the old man, "Can you please explain the meaning of the word 'heal'?"

The Old man smiled and continued explaining, "Healing is nothing but 'making the physical as well as the mental health of the people attuned with the original' "

I pleaded with the old man, "Can you please explain the meaning of 'original'?"

AWARENESS

The old man asked us, "What happens to a human body when it is infected by a virus?"

I replied, "The body loses its stamina, potential, and immunity"

The Old man responded, "So the body loses something crucial to get 'distorted' into a degraded state from the 'original' state. Isn't it?"

"Yes"

The Old man continued, "So we can say that the 'original' state is the highest state of well-being a human can possess. This fact applies to both physical as well as mental states"

Elena reverted back immediately to ask, " We can understand such distortion in the physical body. But I fail to understand how such distortion can happen in the mental body of humans. Can you please explain the same?"

The Old man replied, "When humans are born as infants, their mental body, called mind, is very much in the 'original' state. As they grow older and older, the 'attitudes' of the mental body get distorted based on the environment. Very few people can retain their state of mind closer to the original"

Elena replied, "So you are here to 'heal' both the physical and mental bodies back to original. I can understand now. Then why do people say that you are spreading the virus here? "

AWARENESS

The Old man replied, "When I shift my camp to the recently affected area by the virus to control the spread of the virus by healing the people, the public understands me as a 'spreader' of the virus to the new area. They are unable to understand the Truth by exploring the inputs deeply and widely. This is how they deteriorate their mental health as well "

I grasped what the old man explained and then I wanted to ask my crucial question. I asked him, " Who are you? Where are you from? Why are you much interested in 'healing' people?"

The Old man looked at my eyes and said, " Why don't you ask these questions to Great Yama?" I asked the old man, "Do you want me to stop the Horse Man Yama who had been visiting different places in the town to abduct people during the time of their Exit? "

The Old man laughed at me and said, "The Horse Man who comes here to take the people is not Yama and the Horse Man is just the servant of Great Yama. Great Yama doesn't visit here. Secondly, it is not a single Horse Man visiting here. Many Horse Men visit here to execute their different roles from time to time. People, as usual, believed the 'word of mouth' of others and started calling the servant Yama. Great Yama need not visit here for carrying out such petty tasks. He has really many 'Great Tasks' to accomplish... Please don't underestimate him. He is really Great."

We remained dumbstruck for a minute and then we looked at the old man to listen to what was about to say.

The Old man said, " I have explained my role. After discovering my origin, you can get to me more about my role. Wish you all the best. "

We didn't have any other option than listening to him and hence we started leaving his place with many things lingering in our minds.

Chapter 12

Permanent Children

Raven brainstormed about the 3 questions and he couldn't derive the complete answers for them. So he decided to get back to the Guru explaining the difficulties in deriving the complete answers.

He reached the small cave of the Guru and gave a courteous voice just to hint the Guru about his arrival.

After few seconds, he heard a sound of Guru, "Please come on in"

Raven got inside and paid Guru the humble gesture by bending his head down. Guru asked him to take a seat.

Guru asked Raven, "Have you taken your breakfast?"

Raven replied, "Yes. I have taken it and it was nice"

Guru asked, "Did you sleep well?"

Raven replied, "Not slept deeply"

Raven responded, "Those 3 questions were intriguing me very much. I was trying to find complete answers. But I couldn't. I need to hurry up presenting the answers and start my main task of meeting Great Yama. I shouldn't delay the task"

Guru pacified him, "Don't worry. Depending on your wisdom, Great Yama would be able to decide to meet you. The answers for the 3 questions would evaluate your wisdom"

Raven became anxious and asked Guru, "If I fail to answer the questions improperly, then won't I be able to meet Great Yama?"

Guru replied, "Please don't pre-empt with your assumption until you answer the questions. Please start answering those questions first"

Guru commenced the session and he asked Raven to recall the questions. Raven recalled them as, "**First** is, I don't see any children despite men and women living intimately. Why don't they get children for them? **Second** is, all 200 people can live like a single family. Why should they decide to live like a single-family rather than living in segregated families? **Third** question is, how come all 200 can live together yet they are always happy.

Guru asked Raven, "Now tell me what have you arrived at about these questions"

Raven replied to Guru, "Let us deal with the questions one by one so that I will be able to completely understand the concept."

Guru nodded his head in affirmation.

Raven started to reply, " You should pardon me if I present a wrong answer. As far as the first question is concerned, I think you are not allowing them to get children."

Guru laughed loudly for a few seconds. Then he looked at Raven and replied, "So you mean to say that I am playing an important role in saving women from getting conceived. I appreciate your rational perspective. But it is too rational, I can't control my laughter."

Raven politely asked the Guru, "Sorry...Am I wrong? Isn't it you who is blocking them from having children? Then why don't they have children on their own? Please clarify"

Guru responded, "If anyone stands against the strong interest of any person, what would happen?"

Raven replied, "The affected person will evade from the offending person provided the former one is held in captivity"

Guru raised his eyebrows and asked Raven, "Do you think all these people are held in captivity?"

Raven replied, "I don't think so. They told me that they originally belonged to nearby towns. After they understand the philosophy of life, they have joined this family wilfully. They also told me that they were free to return to their native towns any time they wished to do so."

Guru continued, "This means...."

Raven concluded, "This means you are not blocking them. Then why are they not interested in getting their own children?"

AWARENESS

Guru looked at Raven with a smile. Then he asked Raven, "Why should anyone get their children?"

Raven replied, "It is natural. All humans will have a natural instinct to have offspring."

Guru asked Raven, "What is the gratification behind such an Instinct? In other words, what are the unconscious desires that act behind the natural instinct?"

Raven was dumbstruck and he couldn't answer for a minute. After a minute, he decided to answer based on the ideas that came into his mind.

Raven answered slowly, "Attachment"

Guru asked him, "Is it only Attachment? Think further"

Raven brainstormed and replied, "Security"

Guru encouraged him to explore more. "Good... One more factor"

Raven got much pressure in his head and finally derived an answer, "Isn't it Pride?"

Guru applauded the effort of Raven and continued to reply, "All the 3 factors that remain in the unconscious minds of the people, would automatically make them think that getting children is their 'Responsibility'. No human would think deeply about the 3 factors before concluding their responsibility. It comes to their minds so naturally"

AWARENESS

Raven eagerly asked, "This means, the people staying in your family won't get such thoughts of 'responsibility'?"

Guru smiled at Raven and continued to reply, "This is where we should explore more deeply about the 3 factors called Pride, Security and Attachment."

"How?" - Raven requested Guru.

Guru continued, "Pride is a natural instinct that makes the humans follow what others do and prove to others that they are not inferior to them in accomplishing any common act. Obviously, such instinct would force the humans to get children as all the members of the society get children as a routine and much required ritual"

"Then what about Security?"

Guru replied, "All humans would need offspring to take care of them as they grow older. Humans won't plan for an offspring with a calculative mind that is apprehensive about the future. This instinct also emanates from their unconscious mind naturally without thinking deeply about it"

"Ohhh... Finally, the Attachment. What do you say about Attachment?"

Guru replied, "Attachment is the one factor, all humans would consciously long for. Every human would be very interested to have their own child which is a minor form that evolved well within the parents. Humans need such minor forms of themselves to pamper and get clingy for fulfilling their feelings of gratification."

Raven was thinking deeply about these 3 factors and asked Guru, "Does it mean, the people who are in your family won't get influenced by these 3 factors?"

Guru smiled and replied, " Our family members act as per reality and they won't get influenced and carried away by these 3 factors. They have realized the Truth that no human can lead a life beyond 8 years. Even if they get their children, they also can't survive beyond 8 years. In this regard, our people have thought about the forthcoming 'grief ' in advance and they have realized that no relationship would remain permanent and all bondages are meant to be severed. Our family members are not inclined to invite such cruel grievances voluntarily. So they decide to stay away from grievances"

Raven was astonished and asked Guru, "Won't they regret their decision at a later stage?"

Guru replied, " Why should they? Imagine you are constructing a house through your great effort and hard-earned investment thinking that it would stay forever. In case, it gets decayed within a year, how would you feel?"

Raven replied sadly, "I would get much distressed and grieved"

Guru told him," This is what would happen when we get children as well. **We are not against having children.** *If we want to have children, we can have them very much provided we are NOT influenced by these factors: Pride, Security and Attachment. But we haven't come across such a requirement, because new people keep coming here to join our family."*

AWARENESS

Guru continued, "But we want those children to stay with us **permanently** and neither of us wants to leave each other **abruptly**. Losing any relationship would give us irreversible pain. Such pain would make us land in an unhealed trauma in our minds. Why should we invite such trauma like courting a disaster?"

Raven told Guru, "It is a totally different perspective. I think it would take some time to understand it. Let me now have a break and join you in the evening to discuss the second and third questions. I never thought that the first question would take this much time. Today's discussion is an eye-opener for me. Thank you very much for your time and effort to expand my consciousness. Will meet you later"

Raven started returning to his cave.

Chapter 13

Explore the East

I received a call from the Mayor's office. I was surprised. The secretary of the Mayor declined to share the reason as to why the Mayor called for a discussion.

I reached the Mayor's office and met the secretary. She asked me to wait for 5 minutes as the Mayor was busy.

After nearly 10 minutes, the Mayor called me inside his room.

Mayor was so courteous to inquire about my breakfast, health and family. I replied to all of his queries. I also caringly inquired about his health and workload.

Then the Mayor started asking me, "Did you know the strange old man even before he landed in our town?"

I replied to him, "No sir...I never met him before."

The Mayor continued, "The old man never talked to anyone since the first day he entered our town. Then how come the old man chose you to utter his first conversation?"

I replied, "Even I was surprised. But I am unable to discover the reason"

AWARENESS

The Mayor responded with wide open eyes, "It is truly surprising. What do you think about him? Our investigation has proved that he is the man behind spreading the virus to the entire southern part of the town. Unfortunately, we are unable to find the evidence. I want to shift him into the deep forest so that he won't return here. What do you think about my decision?"

"I personally suggest you hold on as he seems to be a bigger mystery for me."

The Mayor asked me, "Why do you say so? What is your educational qualification and what is your expertise to conclude this man is mysterious? He seems to be an evil man."

I answered him boldly, "As of now, I can't say whether he is truly a good man or a bad man. I have done post-graduation in Psychology and I have studied the minds of the people deeply and I successfully treated many people to get rid of their mental disorders"

The Mayor was concerned about my reply and he asked me, "Your answer is so inconclusive to make any proper decision. On what basis, you are suggesting that I hold on to the status quo?"

I replied to him, "I am unable to provide you with any concrete evidence to support my request. But I feel intuitively that he has some goodness"

The Mayor asked me, "What kind of goodness?"

I told the Mayor, "**No human, except mad people, would get involved in any activity without any motive or benefit.** I am sure that this old man is not mad and he won't have any motive or benefit by spreading the virus."

AWARENESS

The Mayor asked me, "Then what do you perceive as his motive?"

I replied him, "The hidden goodness"

The Mayor was astonished by my answer and got very anxious.

That was the time my phone started ringing. I asked permission to attend the phone. He asked me to go ahead.

It was the caretaker of the old man who was on the other end. He told me, "The old man wants to see you. Please come immediately"

I gave an affirmative reply to the caretaker and disconnected the phone.

Then I shared the fresh information to the Mayor, "It seems the old man wants to see me immediately"

The Mayor became much more anxious and asked me, "What is really going on? Are you hiding any truth from me?"

I replied to him, "Definitely not sir. I am very loyal to the town, people and you. I am seriously interrogating about the current situation as I want to rescue all of us from any disaster. I will share any outcome with you immediately. Please don't worry"

The Mayor exhaled to get a little relief and cautioned me, "Please beware of the old man. My Intelligence wing told me that the Horse Man Yama kept talking something to the old man whenever he visited our town to abduct those people whose life ended during the day"

AWARENESS

I clarified to the Mayor, "Sir, the Horse Man is not Yama. The Horse Man is just a servant to Yama. This is what the old man told me"

The Mayor looked at me and said, "Things are going haywire here. I am becoming restless. Please go ahead and start investigating the old man so that I can make the right decision at the earliest. Please update me at any time without any hesitation. I am waiting for your call"

I left the Mayor's office and rushed to see the old man.

As I reached the same street where I saw the old man last time, I could see the caretaker waiting for me. He told me, "Mzee has shifted this street and gone to the fifth street from here. Let us go there"

I took him in my car and went to see the old man.

The Old man waved his hand and asked me to come closer to him. Then he said, "You need to visit the 'Town Of Moksha' to understand what is really going on here. The Horse Man who is scheduled to come tomorrow will take you to the 'Town Of Moksha'. Will you be interested to go with him?"

I became reluctant to answer. After noticing my reluctance, the old man told me, "I am not forcing you to go. It is your free will. I am just suggesting that you go to that Town as you are anxious to understand the Truth. That's all. You can make your decision"

I rushed to answer the old man, "Where is this 'Town Of Moksha'?"

The old man replied, " It is just on the eastern side of the Mystery Mountain. This town is situated not far from the 'Town of Dharma' where Great Yama is ruling from"

I exclaimed a lot, "Wow... It should be very far from here. I don't mind going there as this 'Town of Moksha' is not very far from the 'Town of Dharma' wherefrom Great Yama is ruling"

The old man pacified me, "It would take a few hours only if you go with the Horse Man. He would take you through a secret path which is known only to Horse Men and the path is passing through the dense forest but concealed well from the visibility of common people"

I became quite happy about that explanation. I told the old man, "Mzee, I confirm my visit for tomorrow"

The Old man smiled and told me, "You will return as a man of wisdom. Wish you all the best"

I left the place and called the Mayor to update him about my trip to the 'Town Of Moksha'.

Chapter 14

I, My and Me

Raven returned to Guru's little cave to answer the two remaining questions.

"Welcome back Raven. How are you? Are you ready with the answers?" - Guru initiated the conversation.

Raven replied, "Yes. I think that I will be able to provide the answers to the remaining two questions about 'Single family' and 'Permanent Bliss'. I should complete this task and get ready to the next phase as time is running out for me "

Guru told me, " Good efforts always have good results. You can now try to answer those 2 questions: How can we live like a single family? How can we always lead a blissful life? "

Raven continued, "I think the clue is in the answer to the first question. Just because, you people are not influenced by Pride, Security and Attachment, you can remain as a single family"

Guru replied to Raven, " The simple answer behind this question is: I, My and Me. That's all."

Raven interfered, "I don't get you. Can you please explain further about I, My and Me?"

AWARENESS

Guru started explaining further, " Our Pride gets deteriorated into Egotistic Pride, when 'I' feeling gets bigger. 'I' is the cause of our Egotistic Pride. This 'I' would make us egotistic. Examples: I want to win, I know everything, I am always right, I am mighty as well, I would Own a spouse. The egotistic pride would force the people to **'own'** someone **'exclusively'** for them. This is how humans get an accomplished feeling of **'I'** own a spouse"

Raven exclaimed, "I understand that the factor 'I' gets deteriorated to have an egoistic pride. This egotistic pride would force us to 'own' a spouse 'exclusively' for them'

Guru continued, "Similarly, the feeling of 'Security' gets augmented and forces people to get **'accompanied' by** someone 'exclusively' as their **'guardian'**. The pressure of getting someone as their guardian would force the humans to get an 'exclusive companion' to quench their demand of **'My'** guardian "

Raven became interested in the root causes behind the 'Creation of a Family' and he requested Guru to explain the 'Me' factor as well.

Guru smiled and continued, " After 'owning' someone, humans want them to 'accompany' themselves as their spouse. Thirdly, humans want to get 'clingy' with an 'exclusive partner' just to quench their desire for 'attachment' and 'bodily pleasure'. Such pressure for 'clinging' would make humans 'attract' another person through a mode of expression: 'look at **'Me'** "

AWARENESS

Raven was happy to understand the 'root cause' behind the '*formation of a family*' and he started summarising his understanding to Guru: "You have explained to me about the 'great influence' of the minds of the humans that 'force' them to have 'an exclusive partner' in order to quench the pressure of i) 'owning a spouse', ii) 'getting accompanied by a guardian to take care of their welfare' and iii) 'getting clingy with an exclusive partner for gratifying their desire of attachment' "

Guru appreciated Raven for his understanding about the root cause behind the 'formation of family' and he told Raven, "Since we don't have all the aforesaid pressure from our minds, we don't seek for any 'exclusive companion' and consider all the members of our family as our companions. In simple words, **we love all** instead of **we bind with one**".

Raven was very happy to know the basic philosophy behind the 'formation of family' and described his notion to Guru, "Now I can understand as to why there are so many 'clusters of families' in our 'Town Of Maya'. They are unable to live in Peace, Harmony and Happiness as they all want their families to live a safe and secure life **by depriving other families**. Now I can understand the reason as to why our society can't live in Peace, Harmony and Happiness. The 'Concept of Families' is a huge threat to humanity"

Guru held the hands of Raven for understanding the root cause behind the Distress, Disharmony and Despair that prevail in society.

Guru informed Raven, "The answer for the second question itself can decode the answer for the third question. Since we are not influenced by the '**exclusive**' mind factors called I, My and Me, we are always able to lead a blissful life"

Raven thanked Guru for his wonderful explanation about the fundamentals of philosophy.

Then Raven inquired politely, "Have I performed well in your test? If yes, can you please guide me to the next step?"

Guru patted on the shoulder of Raven, "Yes. Now you are ready to proceed to the next level. You can now travel to a town called 'Town Of Moksha' to meet Master Indra. Best of luck for your further learning"

Raven thanked Guru and asked him, "Now I can conclude that Great Yama and people like you are striving hard towards reinstating Peace, Harmony and Happiness in the Society. I wish you all great success in accomplishing this noble goal. See you"

Raven's assistants requested him to brief the discussion held between him and the Guru. Raven replied, "I can't explain it now. But I will explain after we return to our town. As of now, you can remember these phrases: **I Own, My Companion and Look at Me.** Ok?"

Assistants looked at each other with pale faces. Raven and his team started to continue their journey towards the 'Town Of Moksha' which was in the eastern direction of the Mystery Mountain.

Chapter 15

Transition

I explained to my 'parents' about the reason behind my visit to the 'Town Of Moksha'. But they were not ready to allow me to go. It took nearly 5 hours to pacify them. Finally, they agreed on a trip that should be limited to 3 days. I nodded my head with a serious doubt swaying in my mind.

Then I called Elena to explain about my sudden trip. She was literally thrilled. She immediately shared the information with her dad. Subsequently, she politely inquired with me whether she could also join me on the trip. As she was inquiring about me, I could hear her dad shouting at her against her interest. She went aggressive to convince her dad. I disconnected the phone.

I took my luggage and started leaving for the place of the Old Man.

While I was going to the place of the Old Man, I received a call from Elena. She eagerly asked me, " My dad agreed to join you for the trip provided he was also allowed to join us. Can you please allow both of us to join you for this trip?"

I replied Elena, " Elena, please hold on. First of all, I don't know how I am going to travel. Secondly, the Old Man gave permission only to me. At this juncture, how can I allow you both to join me?"

Elena interfered and told me, " Anyway, we are coming to the place of Old Man to send you off. But we will come with our luggage prepared for this trip"

I was surprised about her great interest in the trip. Although I wanted to take her with me, I couldn't do it without the permission of the Old Man.

AWARENESS

I reached the place of the Old Man. I saw a horseman waiting there. I also saw a horse-cart parked.

I wished the Old Man and the caretaker. Both of them reciprocated the gesture.

Old Man asked me, "Hope you have come prepared for a wonderful journey. Where are they?"

I asked him, "Who?"

Old Man responded, "That girl and her dad"

I told the Old Man, "They are coming here soon to send me off"

The Old Man interfered and said, "Aren't they accompanying you for the journey?"

I got surprised. I asked the Old Man, "You never told me that they should also accompany me for the journey"

Old Man smiled and told me, "I thought you three people are strongly bonded and you won't leave each other to go anywhere"

I exclaimed and asked the Old Man, "How did you judge we three are bonded?"

Old Man replied, "No. I didn't judge. I felt that you two are bonded and obviously the third person will also forcefully get bonded with you. This comes to a total of three. The horse-cart parked there can easily accommodate three people. This is just my feeling. Please don't misunderstand"

I was just looking at the Old Man for a moment and asked him, "Mzee... Who are you really?"

The Old Man replied, "When you get to understand yourself through a process called 'Who Am I?'; you will understand about me as well. Now you can leave for the 'Town Of Moksha'. Wish you all the best"

As I left the place, I saw Elena and her dad landing there.

Elena said, "Very sorry. Sorry for the delay. I think you are going to leave now. Please take care. Have a safe journey. We will anxiously wait for your return"

Before even I replied to her, she and her dad started getting into the horse cart with their luggage.

I was shocked to see their act. I asked them, "Why are you getting in?"

Elena replied, "Come on my boy... We already knew about our trip with you. Old Man sent a messenger to accompany you on this trip"

I looked in the direction where the Old Man was sitting. I could see only his back and watch him reading a handout. But he waved his hand in my direction. I asked myself, "Who is he really?"

We all started our journey towards the 'Town of Moksha'.

AWARENESS

I saw the Horse Man guiding us ahead and he led us towards the eastern direction far beyond the border of the town. Then he took us in the northern direction through a path that didn't seem to have been used by people at all. The path was fully covered by fully grown grass and it was very difficult to see the track of the path.

The Horse Man suddenly stopped and also asked us to stop. He turned his horse towards the direction in which the 'Town of Maya' was situated. He observed the whole span of visible areas just to ensure nobody was following us.

After he was confident that nobody was following us, he asked us to follow him. We travelled for a couple of hours finally reaching the rim of the forest.

The moment we reached the rim of the forest, the Horse Man stopped his horse and got down. He walked towards the dense forest and started removing a structure made up of bamboo sticks which were spread and well covered by different dense and tall-grown plants. It was not easy for anyone to notice such a structure unless they were pinpointed and described it.

After removing the structure, we could see a path passing through the forest. After we got into the forest path, the Horse Man got down again to lift the structure and keep it back in the same position to conceal the path from the visibility of others.

We continued travelling for 7 hours before reaching the border of the 'Town Of Moksha'.

AWARENESS

After we entered the border, we saw a huge building that was spanned out for a distance of several thousand feet. We saw dark and dense smoke coming out from the roof of the building.

The Horse Man guided us further away towards another vast building and after reaching that building, we were asked to get down from the horse-cart. Then we were guided into the building to reach an office. On the top of the door, we saw a board that had the designation 'Transformation Officer'.

We waited for a few minutes outside the office and finally, we were asked to come inside the office room.

We met an official sitting at his desk and he extended his hand to shake our hands.

The officer started talking to us, "Welcome to the 'Town Of Moksha'. A few kilometres from here, you will get into the core town. But before entering the core town, you need to either wear a Special Protection Suit (SPS) over your body or remove your Physical Body and keep it in safe custody till you return. I would like to know which one you would prefer to do?"

We were astonished to hear his request.

Chapter 16

Entrance of the New World

Raven travelled towards the eastern side of the Mystery Mountain for 4 hours and managed to reach a place where the team could see a huge warehouse kind of building from which dense and dark smoke was coming from the tower of the roof.

Raven was eager to know about the cause behind the black smoke. So he asked the team to pause the travel till he discovered the reason behind the black smoke.

He walked towards the steel gate of the building and he saw two security guards standing at the gate. Raven told the guards, "Hi.. I am Raven. Chief Vigilance Officer of the 'Town of Maya'. I was guided by the Guru of Mystery Mountain to visit the 'Town Of Moksha'. I just want to know whether we have already arrived in the town. Secondly, I would like to know the reason behind the dark smoke coming from the top of this building. Perhaps, is it a manufacturing company?"

The guards responded, "Yes Mr Raven...We are very aware of your visit to our town. The core of the town is just a couple of kilometres away. We will send a person to guide you to reach the entrance of the 'Town Of Moksha'."

Raven inquired, "Then what about the smoke coming out from this building?"

The guards replied, "This building is a crematorium in which we cremate the Physical Bodies of the people who are brought by the Horsemen from different towns like your town after their Life Span is over"

Raven was shocked and he asked the guards, "Do you literally kill our people by cremating them in a glowing fire? Have you people gone nuts? Are you barbarians?"

Guards interfered with Raven and explained, "Please don't get angry. Almost all the people who are brought here become wild and rebellious after they hear the process of cremation. But after going through the counselling session, they get consoled about the same."

Raven got annoyed and asked, "What kind of mesmerizing counselling session would that be? You people are truly barbarians"

Security guards requested Raven, "We would like to request you just to come with us so that we will introduce you to the right person who, in turn, will explain the truth behind the process"

Raven became angry and shouted at the guards, "I want to meet the superior barbarian. Take me to that barbarian." Security guards took them to their boss. Raven rushed into the room of the boss and shouted at him, "What the hell is going on here? Which type of barbarians are you? Atrocious it is"

The boss started pacifying Raven, "Please don't come to any conclusion immediately. Please listen to me in order to understand the ultimate truth. Please..."

Raven reverted back saying, "What the hell can be behind such a barbarian act?"

AWARENESS

The boss pleaded with Raven to give him just half an hour so that he would be able to make Raven understand the whole process that was carried out in the building.

Raven was still staring at the boss by giving a stern look.

The boss continued to explain, "The truth is: The Physical Body of the people what you have been perceiving till date is not the real body of the people. Because the people can still exist even after losing their Physical Body"

Raven lost his patience, "Are you mad? How can it be possible? Let me countercheck with myself whether I am talking to a person who still has his senses intact"

The boss reiterated saying, " I will help you understand this concept with the help of a picture. Please come and see this picture"

The boss took Raven to a computer and browsed over a few pictures to finally choose the following picture.

AWARENESS

The boss continued to explain, "In the picture above, you can see two different entities. Firstly, a robot that keeps moving and secondly, a person operating it from inside. Even with humans, we can apply the same analogy. What we see as a Physical Body in the outlook of human beings is just the robot only. That robot or the Physical Body of humans is being controlled by an 'Intelligent Body' just like the person controls the robot"

Raven questioned the boss, "So what do you want to say?"

The boss explained, "In the above picture, which one do you think is vital and causal?"

Raven replied in a low-pitched voice, "The person operates from inside the robot"

AWARENESS

The boss was happy to have convinced Raven. He then continued, "Yes, you are right. The robot is just a structure designed for a specific purpose. But the person operating from inside can have a vast scope of knowledge and a wide range of ideas. Similarly, the Physical Body of humans is designed for a specific purpose like that of a robot while the Intelligent Body of humans would have vast knowledge and a wide range of perspectives."

Raven rushed back with a question, "Even if I agree with your concept, I fail to understand as to why the Physical Body should be destroyed"

The boss answered, "Look at the robot shown in the above picture. The person can keep using the robot as long as he or she wants to accomplish a specific goal that can be achieved only by using that robot. When the person changes the environment and starts undertaking another fresh assignment in a totally different environment in which the current robot can't survive or produce the expected result, then what is the use of continuing the fresh assignment with the incompetent robot?"

Raven asked the boss, "Do you mean to say that the Physical Body of humans will become incompetent after a particular stage of life?"

The boss replied, "Yes. Of course. The Physical Body of humans are ideally suitable and reliable to accomplish the objectives of human life in the current world that is fine-tuned and filled with Oxygen. The moment humans get out of such a fine-tuned environment that is ideally suitable for the Physical Body, they can't use their Physical Body anymore in a new environment that is neither filled with Oxygen nor supported with the food that can nurture the Physical Body. That's how the Physical Body of humans become incompetent outside the current world"

Raven became more curious and he asked, "Then how would the 'Intelligent Body' of the humans survive in any other environment after leaving the current world?"

The boss was relieved and continued, "This is what you are going to see and experience yourself. So I would suggest you not to bother anymore about the cremated Physical Bodies of humans and to start witnessing the 'New Bodies' that are acquired by humans. That's how humans will continue to survive in the new environment to continue accomplishing their objectives"

Raven seemed to have been relieved from his earlier anxiety and asked the boss, "Where can I see the humans of our town who are currently deprived of their Physical Bodies?"

The boss told Raven, "I appreciate your understanding of this concept. Now, I will take you to the 'Office Of Transformation' where you will start witnessing the new Body of humans and the new Life of humans in the new Environment. Come on. Let us go to the 'Office of Transformation.'" Raven and his team followed the boss until they reached the 'Office of Transformation'.

Chapter 17

Transformation

I was confused with regard to the query of the 'Transformation Officer' whether to opt for Special Protection Suit (SPS) or to leave the Physical Body in safe custody.

Elena suggested that we might settle down for a mixed option so that we can balance the drawbacks of both options.

Elena's dad was literally shocked. I could see that he started becoming pessimistic about visiting the 'Town Of Moksha'.

While we were discussing the option, the security guard of the 'Transformation Officer' (TO) knocked on the door. TO asked him to get in.

A security guard came inside the room and informed TO, "Chief Vigilance Officer of the 'Town Of Maya' has come with his team. He wants to meet you"

TO instructed the security guard, "Allow only the Chief Vigilance Officer to come inside the room and let his team wait in the waiting room"

We were surprised to hear that the Chief Vigilance Officer of our town had come to that place.

Within a minute, we saw a man opening the door and got inside the room.

He wished all of us and introduced himself as, "I am Raven, Chief Vigilance Officer from the 'Town Of Maya'. How are you all?"

AWARENESS

The 'Transformation Officer' returned the gesture to welcome and asked him to take a seat. He also introduced us to Raven.

Raven was taken into surprise and inquired of us, "Ahh. Really? Are you all three from the 'Town Of Maya'? How did you manage to come to this place? I presume that you might have taken nearly 20 days to reach here"

I replied to Raven, "Not really...We started today morning and reached here by late evening. What about you?"

Raven was literally astonished and asked me, "Please don't joke. Tell me the truth"

We three reiterated at the same time, "Yes. We left only by today morning from our town"

Raven asked us anxiously, "But how is it possible? It is not at all possible"

I told Raven, "I can understand your suspicion. But we were sent by the Strange Old Man through a special path. Anyway, we will discuss about this issue later."

Raven started lamenting, "Why should the Old Man choose you? What is your connection between him and you people? If the Mayor comes to know about your connection with him and your trip to this place, he would punish you severely"

I answered him politely, "Mayor knows both about our connection with the Old Man as well as our trip to this place"

AWARENESS

Raven got terribly confused, "What is happening in this world? So many mysterious things are happening in one go. How come the Mayor didn't share about your visit to me?"

I answered Raven, "I just met him a couple of days back only and discussed"

Raven let his breath out deeply and said, "Ohhh... Was it that way?"

The 'Transformation Officer' interfered and asked us, "Now all of you can discuss together and take a suitable decision about the option of your future Bodies"

Raven asked the TO, "Which Bodies? What are you talking about?"

I explained to Raven about the discussion held earlier between me and the TO.

Raven understood the different options and asked the TO to explain about the 'Special Protection Suit' (SPS).

The TO started explaining about SPS as, "Using your current Physical Bodies, you can't see the entire world. Your eyes can detect only wavelengths ranging from 380 to 700 nanometres. In other words, your eyes can see only those objects and people who can reflect the light within the aforesaid range of wavelengths. You can't see those objects that don't reflect light at all"

Raven responded saying, "I have studied about this in my school. But I have understood the concept behind this theory only now. This means that there are many objects and perhaps people exist around us and yet we are unable to see them just because they don't reflect the light back to us. Is that right?"

AWARENESS

TO appreciated the understanding of Raven saying, "You have a good brain. You could have understood this concept while you were in school."

Raven smiled and replied, winking his eyes, "I couldn't conclude this theory while I was in school. Because I was busy researching only about the reflection of colours from specific people"

I asked TO, "Do you mean to say that we are going to see all the objects and people by wearing the Special Protection Suit (SPS)?"

TO replied, "Not only you are going to see all the objects and people. You are going to hear many sounds that are inaudible to you."

Elena asked the TO, "Then why do you give us two options? You could have asked us to wear SPS only?"

TO answered, "Good question. But when you opt for SPS, you need to carry an Oxygen cylinder with you as Oxygen won't be available in the 'Town Of Moksha'. To that extent, you won't be able to walk fast and feel free"

Raven asked TO, "If I opt for the removal of my Physical Body, how will you keep it safe till I return? Would the process of removal of the Physical Body be very tough and painful?"

The TO replied, "We have a heavily secured locker with a dual locking system to keep the removed Physical Body. The Physical Body will get removed within five minutes by the 'Dark Energy Experts' who have fantastic expertise in unlocking the 'lock' that entangles the Physical Body with the Intelligent Body."

AWARENESS

Elena asked the TO, "Does this mean, these 'Dark Energy Experts' are able to see all the objects and people existing in this Universe?"

The TO replied with a smile, "Yes. Not only these experts can see all the objects and people existing in the Universe but also we won't be able to see them"

I asked the TO, "Really?"

The TO replied, "Yes. A couple of such experts are sitting next to you and waiting for your decision so that they can get into the action of removing the Physical Body"

We were all surprised and we just turned and looked at the place next to my seat to 'see' nothing.

The TO told Raven, "Unfortunately, due to technical reasons, we are not in a position to allow the whole team of yours going to the 'Town Of Moksha'. Only you four are allowed to go to the 'Town Of Moksha' and hence you are expected to make a decision between the two suggested options regarding your 'Bodies' to visit the 'Town Of Moksha'"

Elena and I asked Elena's dad, "What is going to be your option?"

He replied, "I thought of staying back here till you return "

We interfered immediately and asked him not to miss a golden opportunity. We went on convincing him, "You are living your eighth year and this is going to be your last year of living in the 'Town Of Maya'. Obviously, sooner or later, you will be brought to this place for 'Transformation of Body'. Why don't you experience it now itself so that you won't have any fear or confusion during the time of your actual death?"

It seemed the last proposition struck his mind and he finally agreed to join us to visit the 'Town Of Moksha'.

As far as the 'Bodies' are concerned, Raven and I opted for the removal of our Physical Bodies while Elena and her dad opted for wearing the 'Special Protection Suit' (SPS).

Then we all were taken through a lengthy tunnel that ended with a hall that was lit by few dim lights.

Chapter 18

ESoul and RSoul

We all four were taken into the hall and then we were asked to get divided into two groups. I hugged Elena and her dad before parting and consoled them to be courageous. I could see tears coming out of her eyes.

Elena told me, "I am not bothered about us. But I am really concerned about you. Because we are just going to wear an additional Suit on us. But in your case, your body is going to be completely stripped off. That's why I am worrying a lot"

I consoled her saying, "Don't worry. Somehow, I have gathered confidence in these guys after seeing their infrastructure. They definitely won't go wrong. We will surely meet after the Transformation. Don't worry please"

With a grim-looking face, she was asked to move into another room along with her dad. We kept waving our hands till we disappeared from each other's sight.

Raven and I were taken by staff into a room that was completely pitch dark. We couldn't see anything at all. I couldn't see the trace of the staff after we entered the pitch dark room. The staff held my hand and grabbed me for a little distance and requested me to remain standstill by holding a steel rail.

I called Raven and counter-checked whether he was truly inside the room. Raven confirmed his presence with a low pitched voice.

The staff informed both of us that he was going to get out of the darkroom and shut the door. He asked us to remain in the standstill position for another 3 minutes. After his final conversation, we could hear the footfall for a few seconds and then we heard him shut the door.

AWARENESS

We remained in the pitch dark. After a couple of minutes, I could feel the floor start moving. Within a few seconds, I could feel it was not the floor, but it was just a moving walkway.

The walkway stopped after moving for a minute. I could feel someone touching the top of my head as well as the bottom of my back. I controlled my panic-stricken feeling and continued to stand intact.

The pressure of the touch was increasing gradually until it became very painful.

Suddenly, I started feeling giddy and I was unable to breathe normally. After a few seconds, I started losing my consciousness. As I was losing my consciousness, I felt a heavy pressure on my body as if it was about to break into halves. Subsequently, I felt as if I was flying away from my body.

When I was trying to open my eyes, I saw a couple of people saying, "Welcome to the 'Town Of Moksha' "

I tried to reply but I couldn't because I couldn't feel my mouth. I was shocked and started looking for my hands. I couldn't see my normal hands; rather I found my hands oscillating like a wave.

I found it highly difficult to stand on my own. The two guys supported me to stand erect. When I saw them, their bodies were continuously oscillating like a wave. They never stood like a solid.

AWARENESS

With great difficulty, I started communicating with them. I couldn't hear my regular voice. Rather it was a high pitched voice that was hardly audible. But the people standing in front of me could understand my communication and they responded with a similar high pitched voice.

Although it was not audible like my regular conversation, I could very well understand their response. I understood them saying "We are doing well. You will be completely ok after a few minutes. Please try to follow us slowly"

With much difficulty, I started following them. I couldn't say that I was following them. Rather I would say that I was flying behind them.

At one point, I saw Raven was also flying in space following two people.

We all flew to a place and then we were asked to wait. It was so strange for me to float in the space continuously and I saw many people floating like me.

I looked at Raven and inquired about his wellness in a high-pitched voice. He also responded to confirm that he was good.

Within a few minutes, we saw two people coming towards us wearing a Special Protection Suit (SPS) and floating in space.

We could recognize each other and I flew towards Elena. She also started floating towards me. I hugged her with great relief. But I saw Elena was very upset. I asked her the reason with my 'new normal' high pitched voice. She responded to me with a different pitch of the voice to share her inability, "I couldn't hug you Bakta. When I tried to hug you, I felt like hugging the air"

I pacified her not to worry. I told her, "We are in a different world and also in different Bodies. So obviously we would face such strange experiences and we need to bear with the same"

Elena's dad was dumbstruck all the time.

As the time was running, we saw a vehicle like a spacecraft flying near us and then stopped yet floating. We saw a 'wave kind' of person getting out of the spacecraft and informed us to get into the spacecraft. We couldn't identify the gender of the person as he or she was expanding, shrinking, oscillating and floating all the time.

Raven started talking to the person, "Excuse me... May I know you are a man or woman?"

That person replied, "In this world, there is no gender discrimination at all. There is no male and female in this world. There are only two types of 'Souls' existing here: Executor Souls (ESoul) and Replenisher Souls (RSoul). I am a Replenisher Soul"

Raven inquired the Replenisher Soul (RSoul), "If there is no male and female, then how will you get children of your own?"

RSoul replied, "We can't get children of our own. Because we are all Energy Bodies and Energy Bodies can't get conceived at all"

Raven was dumbstruck. He whispered to me, "Seems like, these Souls are leading a crazy life here."

AWARENESS

RSoul responded, "Since you have come from a crazy world, you will feel this world as crazy. You will gradually get to understand what is crazy."

Raven was shocked to know how his low voice was well heard by the RSoul.

RSoul replied again, "In this world, there is no secrecy. Everyone can hear Everyone's Voice."

Two people got very anxious after hearing the above statement. They were Raven and Elena's dad.

I asked the RSoul, "Where are we now going?"

RSoul responded saying, "To meet Master Indra: The Leader of the 'Town of Moksha' "

We could feel that each one of us was thinking deeply and irrationally about our forthcoming meeting with Master Indra.

Elena's dad was bemoaning, "It seems we all made a terrible mistake by coming here. I should have stayed in our town. By listening to you both, now I am in great trouble."

Elena replied to her dad, "Dad...I already told you that sooner or later, you are going to land without any doubt. By then you can neither refuse to come here nor to run away. Be happy for getting a great opportunity to preview your life in this world."

Elena's dad turned his head emotionally towards Elena and then nodded his head after seeing the serious outlook of Elena.

We continued to fly in the spacecraft with lots of thoughts running in our minds.

Chapter 19

Colonies of Transformation

While the spacecraft was flying, at a farther distance, we could see a few huts surrounded by a beautiful garden occupied by many tall and broad trees.

I was surprised to see those trees and huts not 'floating' like us.

So I asked RSoul, "How come we can see both solid objects as well as wave-like people together in this world?"

RSoul replied, "It all depends on the levels of energy. Those objects that have low levels of energy are seen as solid objects while the objects that have high levels of energy are seen as wave-like. We are all floating just because we have a higher level of energy than the solid objects"

Raven asked RSoul, "Does that mean we will be floating all the time in this world?"

RSoul responded, "Not necessarily... We can take any form as per wish. When we want to move faster or act swiftly, we can spend more energy so as to behave like waves. When we don't spend much energy, we can remain at the ground level as stationary objects."

All five of us looked at each other as we were trying to understand the concept.

I wanted to clarify a doubt with RSoul. I asked RSoul, "After getting out of this spacecraft, how can I reduce my energy level so that I can get stationed at ground level?"

RSoul replied, "The control is in our Soul only. When we are in the 'excited mode', we will spend more energy and start floating or acting aggressively. But when we are in the 'composed mode', we won't be spending much energy and hence we can remain stationary at the ground level."

Raven questioned RSoul, " How can we turn on the 'composed mode'?"

RSoul replied, "It might take some time for you. Until then, we can help you bring you to the 'composed mode' and keep you at the stationary level. When we are going to meet Master Indra, obviously we are ought to be in the stationary level only"

Within a few minutes of flying, the spacecraft landed in a place that was near to those huts seen from the sky.

After we got out of the spacecraft, RSoul came near us and touched us. Consequently, we felt a 'composed' state of mind that made us land on the ground. RSoul went to Elena and her dad and touched a keypad on their Special Protection Suit (SPS) to bring them to the stationary level.

Subsequently, RSoul guided us towards a hut that had a simple structure of having a maximum of three rooms only.

RSoul asked us to wait in the front room and went inside. In no time, we saw a 'Soul' (Person with Energy Body) coming out from the inner room to invite us.

As the Soul came towards us, the features of its Body started transforming much more visible and distinct.

AWARENESS

That Soul introduced itself, "I am Indra. Welcome to our 'Town Of Moksha' "

We were taken into a surprise to see a Leader Soul with a very simple outfit and also with a down to earth attitude.

We wished Master Indra saying, "Master, we are happy to see you"

Indra replied, "You need not address me as Master. You can just call me Indra"

We never expected a leader like Indra to be so humble and polite.

We could see the eyes of Indra to have become much distinct as a matter than earlier when they were seen by us as a wave-like feature.

Indra winked his eyes and asked us, "May I know the purpose of your visit to our town?"

Raven smiled and responded to Indra, "All we know is, we just started our journey with an aspiration. But the subsequent days were unfolded into a fantasy mission and we are finally brought here to meet you. We feel as if we are drowned in an uncontrolled river. Situations keep changing beyond our control. We are so confused and anxious. So you need to explain as to why we are finally brought here"

Indra replied with a smile, "Everything is happening for a Great reason. You will get to know the Ultimate Reason very soon. As an important phase during the process of unfolding the Ultimate Reason, you all should make a visit to the 'Colonies of Transformation'. After that visit, you would get to know the Ultimate Reason behind your visit to our town"

We got a major relief after listening to Indra's speech. We continued to spend some constructive time with Indra and then we were taken to the 'Colonies of Transformation'.

We were told that the 'Colonies Of Transformation' were divided into 3 huge colonies and each one of them would have a very distinct purpose and style of living.

RSoul was appointed as our guide to our tour of discovering the Ultimate Reason.

RSoul briefed as, "After our lunch, we will be visiting the first colony called as 'Me' colony. Subsequently, we would be visiting the 'I' and 'My' colonies on the consecutive days"

It seemed like Raven got a spark in his brain and asked RSoul, "Are these colonies having any relation and significance with the Concept explained by the Guru of Mystery Mountain?"

RSoul replied shortly, "Yes. They have"

Elena and I were baffled about Raven's question and the consequent response of RSoul.

We asked Raven, "You never told us about the Guru of Mystery Mountain and his Concept"

AWARENESS

Raven replied to us, "Hi mister and mistress, this is just our second day since our union. We didn't get time even to relax. How could I have shared about Guru and his Concept with you?"

We understood Raven's explanation and requested him, "Can you please now about the Guru and his Concept?"

Raven requested RSoul, "Can we just find a place to sit so that I can discuss these guys about Guru and his Concept?"

RSoul agreed to Raven's request and it took us to an isolated place.

We all sat comfortably and started listening to Raven's experience.

Raven started explaining, "Guys, you need to just remember the following phrase as an outline to Guru's Concept: **I Own, My Companion and Look at Me**"

We memorized that phrase and asked him to explain the whole concept behind the phrase. Raven explained the whole concept that he learnt from the Guru.

Raven explained the gist of the Concept what he learnt from the Guru. He narrated it as, "All humans are born with **Imperfections** that were outlined as 'I Own, My Companion and Look at Me'. These imperfections influence humans to Create the '**Discrete Clusters**' called '**Families**'. Such Discrete Families, in turn, strive hard to Survive individually at the **Cost of Depriving** other Discrete Families.

Such Deprivation makes the entire world suffer from **Disorder, Depression and Distress**. This is the gist of the Concept what I learnt from the Guru"

We three were completely influenced by the gist of the Concept and we recalled the first 3 pages of 'Book Of Destiny' with reference to the Concept of Guru as it just got explained.

Subsequently, we asked various doubts in the Concept and Raven tried his level best to clarify our doubts. We were somewhat satisfied with his clarifications and of course, few doubts could not be clarified by him up to the expected level of our satisfaction. However, we wound up the session of understanding the Concept of Guru and got ready to visit the first colony called 'Me' colony.

Chapter 20

Veena

As we entered the 'Me' colony, we saw many 'Souls' were going towards a particular destination. RSoul asked us to just follow them discreetly.

All Souls went towards a huge ground and assembled there in order. We watched them all from afar.

After they all assembled, a Soul who seemed to be the Master of other Souls appeared at the podium and started addressing them.

The Master Soul started its speech and it continued to lecture as, "Dear 'Me' Souls, We have just published the annual report through which you might have seen many of our fellow Soulmates were promoted to higher-level"

The Master Soul continued delivering its speech for a few minutes and then it requested a few Souls who were promoted to higher- levels to come to the podium to receive the rewards.

When one such promoted Soul came to the podium, Raven discreetly screamed, "Ohhh... this is my Veena. I am extremely delighted to see her here. RSoul... Please can you allow me to see her now?"

RSoul replied to Raven, "Don't worry... We are going to meet all the Souls after the assembly session is over."

I asked Raven, "Who is this Veena? Why are you so delighted to see her?"

Raven replied restlessly, "Bakta, Veena was my lover when I was studying in college. I loved her to the core of my soul. I went on pleading and pleasing her about my flawless love for many years. Unfortunately, my pleading went unheeded by her, as she fell in love with another guy. Her act broke my heart and stopped following her. After so many years, I am seeing her. Till this point in time, I couldn't forget her. That's why, after seeing her here, I have become much excited"

We can understand the reason behind Raven's excitement. We waited till the assembly session was over.

Raven requested RSoul again, "Can you please take me to Veena?"

RSoul smiled at Raven and told him, "Don't worry. We are now going to see Veena"

Raven asked RSoul, "How come Veena is here in this 'Town of Moksha'?"

RSoul replied to Raven, "What do you think about the 'Town Of Moksha'? All people who have ended their life term after living in many towns like your town are subsequently stripped off their Physical Bodies and brought here in their 'Original Form Of Souls'. They are all put in the residence schools like this school what you see for upgrading their Souls"

We were all thrilled to know that all people who ended their lives in our town were brought to the 'Town Of Moksha'.

We asked RSoul, "This means, can we see all the people departed from our town?"

RSoul replied, "Yes. You can see them all but not in this school alone. All departed people are put in different schools depending on their 'Nature Of Maturity' at the time of their departure"

Raven became excited to say, "In that case, I am so fortunate to see my Veena here in this school. How lucky am I?"

RSoul observed Raven's excitement and smiled at him.

RSoul guided us to meet Veena. When Raven saw Veena, he rushed to her and stood much closer to her.

Veena got surprised about Raven's aggressive behaviour and went aback by a yard. Raven, in turn, was surprised by the depressive behaviour of Veena and introduced him as, "Veena... Don't you remember me? I am Raven from the 'Town Of Maya'"

Veena looked at RSoul and got consent to communicate with Raven. Then Veena continued to talk, "Ohhh...Raven. Now I can remember you. How are you?"

Raven was much relieved to notice Veena's positive response and he continued to talk to her, "Veena...I am very fortunate to see you here. How are you? I have been thinking about you every day at least once. I couldn't throw you from my heart. Veena... I still love you to the core."

Veena responded with a smile and told Raven, "Yeah...I can recall how you were crazily following me. I feel pity for you now."

AWARENESS

Raven got instigated further by the positive response of Veena and continued to talk with her, "Veena...I am much relieved now after seeing you recognize my genuine love for you. I don't know. If I get another chance to live with you, I want to marry you. Will you please accept me as your husband, Veena?"

Veena smiled and continued to talk, "Raven... Please don't repeat the same blunder that I committed. You are so fortunate to witness the pathetic fate of people like me who wasted our life with a strong desire called 'Look at Me'. I wasted my whole life with such a crazy desire of 'Look at Me'. Now I deeply regret my blunder. Unfortunately, I can't get my life rewound and correct my blunder. Gone is gone"

Raven was baffled about the desperate speech. Hence he wanted to know the reason behind such desperation. He asked Veena, "What was your blunder Veena? Do you mean to say that genuine love can fall under the longing desire called 'Look at Me'?"

Veena replied, "Raven, I can understand your good question. There is a huge difference between Longing and Wish. Attachment falls under Longing and Love falls under 'Wish'. We can Love anyone as it is just our Wish only. But the moment this Wish turns out to be Longing, it is going to create havoc in our life. The crazy desire caused by Longing would definitely fall in the category of 'Look at Me' "

Raven replied with anxiety, "I love you Veena but I don't long for you"

Veena replied, "Raven, Love knows its 'limitations' whereas Longing won't. Longing would force humans to stalk the target whom they long for and make them ruin their peace of mind. In your case, you were stalking me for the whole of your life despite fully knowing that I was rejecting you. You continued to lose your peace of mind and continued to stalk me even in this world. Raven, tell me, isn't longing? "

Raven asked Veena, "What would Love do in a similar case of ours?"

Veena replied, "As I told you above, Love knows its 'limitations'. Moment, we get to know that the person whom we love doesn't reciprocate our love, we will stop 'longing' for them. Because Love is Spiritual and Eternal, and it is beyond Physical and Emotional"

Veena continued to explain, " Love would happily accept all types of reactions, including rejection, from our beloved person and it would still wish them to live happily wherever and however they are."

Raven asked Veena, "Thanks for clarifying the difference between Love and Longing. When did you learn this concept?"

Veena replied, "Had I learnt this concept when I was in the 'Town Of Maya', why should I end up coming to this 'Town Of Moksha'? I would have directly gone to the 'Town Of Dharma' instead. I wasted my whole life 'Longing' for a couple of lovers and I failed to realize the Purpose of my life while I was living in the 'Town Of Maya'. I made a great blunder. So I would request you not to repeat the same blunder and start loving me without longing for me. Please don't end up coming here rather go directly to the 'Town Of Dharma' "

AWARENESS

Raven asked Veena, "It seems you have realized your blunder now. Can't Indra send you now to the 'Town of Dharma'?"

Veena replied, "No. It is not possible. The system here doesn't work like this here. After I get promoted to the highest standard in this school, Great Yama and Master Indra would send me back to any mortal town and I need to prove to myself that I have got rid of my longing desires. Then only, I will be sent to the 'Town of Dharma' "

Raven and I said, "Ohh. The system here seems to be very strict, it seems"

Veena told, "Yes, it is really"

Raven asked Veena, "How many times have you been sent back to mortal town to get rid of the 'Longing Attitude' that is denoted by 'Look at Me'?"

Veena replied, " It is very sad on my part. I have been sent 7 times to the mortal world to get rid of 'Longing Attitude'. But during every birth, I could prove myself with little progress only. I hope in a couple of rebirths, I will get rid of my Imperfection."

Raven asked Veena surprisingly, " I fail to understand as to why it is taking so many births even for a learned Soul like you."

Veena replied, "Raven, Learning about our imperfections in this 'Town Of Moksha' is relatively simple. But, the moment we are sent back to the mortal world, unfortunately, our learnings will take a backseat. Rather, our yearning desires will keep growing stronger and stronger superseding our learnings. At one point in time, these yearning desires will completely eradicate our learnings and make us fall prey to them. Then we end up wasting the golden opportunity and return here with a guilty mind. It has been a terrible and disastrous feeling whenever I return here with such failures. It should never happen to anyone. I hope that I will make it to the 'Town Of Dharma' within a couple of attempts so that I need not take any more births in the mortal world "

Raven was surprised to know such successive failures of Veena. But he attempted to know as to why such failures were taken seriously in the immortal worlds. "Veena, please answer me. Why are these Masters of immortal worlds taking such failures seriously and not allowing you to go to the 'Town Of Dharma'?"

Veena replied, "Raven, you see... You have already forgotten the 'Fundamentals Of Life'. You might have already understood the 'Cause behind the Sufferings of the World'. When humans start giving utmost priority to their Self-centred desires based on 'I - My - Me' attitudes, they will become the sole Cause to deteriorate the **Peace, Harmony and Happiness** of the Society. Such deteriorated Society will get overwhelmed by a state of **Disorder, Depression and Distress**. In the aforesaid state, the world will become a place that can accommodate only the animals and not the humans. That's why the Masters of the immortal worlds are striving hard to educate the humans to get rid of their Self-centred desires and attitudes."

Raven nodded his head as a sign of affirmation towards the concept and mission explained by Veena.

Raven was still turbulent in his mind that couldn't accept the successive failures of Veena. So he asked Veena, "Veena... Please don't mistake me. I would like to know who makes you fail in all of your successive births. Please share the cause of your failure so that it would help us understand the evil that plays against our Soul"

Veena replied with a smile, "I am sharing this information just to help you identify your dirty minds that act against our Will. My mind falls prey to one guy called Aakash who makes my Soul completely blind in all of my births. I find it hard to overcome my Longing for him"

Raven got upset to hear the name Aakash as he was the very person who made Veena reject him during the last birth of Veena.

Raven asked Veena, " I know that guy. He is a hopeless man. He keeps spoiling you in all the births. I want to warn him about his dirty attitudes."

Veena replied to Raven, " No Raven... It is not him. I keep failing because of my weakness. In all of my births, during the time of death, I close my eyes yearning for Aakash. Then obviously, I am being sent back to the mortal world to live another life with him so as to get rid of my Longingness for him. This is how I keep living in the vicious circle. I want to break this circle this time"

Raven became speechless. He told Veena, "It seems you are much crazier towards Aakash than myself towards you. I would like to see Aakash when I return to our town"

Veena replied to Raven, "Aakash is not in your town. He is here in 'I' Colony only"

Raven was taken by surprise. He requested RSoul to take us to the 'I' Colony so that we would get an opportunity to study the personality of Aakash.

Veena requested us, "I am also willing to join you people to study about Aakash"

We all were looking at Veena without knowing how to express ourselves.

Then we started leaving for 'I' Colony.

Chapter 21

Ghosts

We have seen the Soul of Aakash. After seeing us, he unfolded his Soul to bring his senses active.

Aakash saw Veena and asked her, "You told me that you won't come to see me. Then how come you are here? "

Veena told Aakash, "I am here just because of these people and not for you"

Aakash asked RSoul, "Who are these people? Why have they come to see me, especially with Veena?"

RSoul replied, "Aakash... These people have come here on a tour to witness the development of the Souls of this town"

Aakash responded with dissatisfaction and said, "What development? We all keep learning well here and understanding well about our weaknesses. But we keep failing when we are sent back to the mortal world to get rid of our weaknesses."

Elena inquired Aakash, "You seem to be determined in getting rid of your weaknesses. Then how come, you keep failing when you are sent back to the mortal world?"

Aakash replied, "I have introspected for the same answer many times. What I understood is, the moment I see Veena in the mortal world, I get a strong passion to 'Own' her for myself. I want her to become a slave for me and I play all tricks to mesmerize to keep her into my fold"

AWARENESS

Veena interfered to say, "I am much aware of his tricks. Having understood the very nature of his tricks to make me a slave of him, I used to hate him and stay away from him. But, very unfortunately, whenever I tried staying away from him, I used to get influenced by those thoughts centred around him. I used to recall his naughty acts, little mischiefs, style, structure, powerful expressions, manly domination, pointed aggression, his protection for me and so on. Then I used to long for him and decided to surrender back to him. This cycle of aversion and surrender would keep happening throughout my life. Having wasted my entire life towards his personality, I return here without getting rid of a great weakness called 'Longing' "

Elena's dad asked Veena a question, "What is wrong in such 'Longing' towards Aakash? It proves your strong Love for him"

Elena interfered and asked her dad, "Dad... Haven't you listened to what was explained by Veena and Raven for the last two days? Where were you? I will repeat it again. Please listen carefully. Our weaknesses should never become a threat to our goal. I know your love for my mom. But it never became a hindrance to your goal. When your attitudes become a **threat to your goal** and start **negatively affecting your routine role and responsibilities** as well as **others' welfare**, then your attitudes will be considered as your weaknesses. You need to get rid of such weaknesses, if you are really interested to get a permanent immortal life in the 'Town Of Dharma'. If you are not interested in living an immortal life, then you will keep shuttling between this 'Town Of Moksha' and the mortal world forever. You will never get settled down with Wisdom, Peace, Harmony and Happiness. Such Souls are called **Ghosts**. Do you want to be a Ghost?"

Elena's dad was startled and said, "No... no... I don't want to become a Ghost. I understand the difference between Emotions and Positive Attitudes. Please carry on your discussion"

I asked Aakash, "We listened to the version of Veena as to how she keeps losing her mind towards you. Can we please hear your version?"

Aakash replied, "When I am back in this 'Town Of Moksha', I can understand all of my blunders. But when I start living in the mortal world, I fail to understand the source of such blunders and I just get carried away with a thought that substantiates such blunders are very natural. Now I can understand that I always tried to make Veena my slave without considering her mental welfare. Through any ways and means, I wanted her to slog for me as a slave. I played all types of tricks to captivate her and I played the same game repeatedly to her throughout my mortal life. Here they name my personality as 'Toxic Narcissist'.

My mania of 'Conquering' her at any cost has been continued by me over the last few mortal births and they are termed as 'tortures' in this "Town Of Moksha'. I should get rid of them at least in the next birth. Somehow, I become crazy about Veena whenever I get to see her in my mortal life. Why am I becoming crazy for her?"

I told Aakash and Veena, "I literally feel pity for you both. I can see both of you talking with much sense while you are here in this 'Town Of Moksha'. But I can see that both of you tend to lose your wisdom while you are given a mortal birth. What makes you lose your wisdom? I really find it very difficult to evaluate the Cause behind the sudden disappearance of your wisdom. I request RSoul to explain the reason as to why they tend to lose their wisdom in the mortal world"

RSoul explained the cause, " I hope you are all aware that all of our thoughts have their own 'frequencies'. Similarly, a particular 'frequency' can stimulate thought of its own. Do you agree?"

We agreed to the proposition of RSoul.

RSoul continued to explain, "To that extent, any 'nasty' frequency is very much capable of suppressing our original thought and stimulate an alternate thought by killing the original thought. That's how people who start living in the mortal worlds tend to lose their original wisdom and get influenced by the negative desires stimulated by the 'local' frequencies existing there"

Elena asked a quick question, "At the first instance, I totally fail to understand as to why such negative frequencies do exist in the mortal world?"

RSoul smiled and told Elena, "It is a good question, Elena. Do you accept that the whole Universe is full of different types of matter and energy?"

Elena replied, "Yes"

RSoul continued, " This means all such different energies would simulate their own frequencies. Is that right?"

Elena gave an affirmation.

RSoul continued, "Can all such frequencies simulated would affect human minds and instigate different thoughts in their minds? Yes or no?"

We all answered, "Yes. These frequencies can instigate respective thoughts with respect to the type of frequency"

RSoul continued to explain, "Are all the Souls supposed to live in this Universe or nowhere?"

Although we stumbled with that question, we managed to answer, "All Souls are supposed to live in this Universe only"

RSoul explained further, "This means all Souls are susceptible to get affected by those different types of frequencies and hence by the respective thoughts. Isn't it?"

"Yes"

RSoul continued, "That's why the Masters of the immortal worlds have decided to put these Souls under the exposure of different frequencies simulated in the mortal worlds and get them stimulated with different and respective thoughts in line with those exposed frequencies. During mortal life, these Souls are expected to differentiate the destructive thoughts from the constructive thoughts stimulated under different frequencies and to organize an ideal life based on the constructive thoughts alone. This is the basic reason behind the Creation of the Mortal World. Can you understand it?"

Raven responded, "This means, the Mortal World is a 'Simulated small universe' within the 'Big Universe' just created to 'train' the Souls for coping up against the deadly frequencies. Is it right RSoul?"

RSoul smiled and appreciated all of us for understanding the Purpose Of Creation of the Mortal Worlds.

She summarised her explanation as, "The Self-centred thoughts emanated in the Mortal World such as ' **I Own**, **My Guardian** and **Look at Me**' are thus formed in the human minds due to those 'lower-band frequencies' only. Through the golden opportunity given to Souls, they are expected to differentiate the 'lower-band frequencies' or 'Self-centred frequencies' from the Constructive or Good frequencies and ultimately to train their Souls so as to organize their ideal life.

Aakash and Veena appreciated us giving them a wonderful opportunity to evaluate the nature of their Self-centred minds.

Elena's dad asked, "We have got to understand the nature of desires based on the phrase 'I Own and Look at 'Me'. Can we get to know about 'My' guardian as well?"

Elena turned her head towards her dad and asked, "Dad... How come your Wisdom is rising suddenly beyond the allowed level?"

Elena's dad laughed and said, "This is all because of the Protected Environment prevailing in the 'Town Of Moksha' where only the good frequencies are allowed to go through. I should learn everything possible before I get affected by those nasty frequencies back in our town"

We smiled and appreciated the perspective of Elena's dad and started our tour to 'My' Colony.

Chapter 22

Nothing is Permanent

Elena's dad became much interested in learning about the Purpose Of Life. He started following RSoul much closer and asking many questions.

We entered 'My' Colony and we were witnessed by the resident Souls. As soon as they saw us, they started coming towards us. We saw a huge difference with them as the resident Souls of 'My' Colony showed much interest to welcome us. Such interest was not shown in the other two previously visited by us.

The residents of 'My' Colony found it difficult to see the faces of Elena and her dad, as they were wearing the Special Protection Suit (SPS). Both Elena and her dad found it a little difficult to sense the features of resident Souls as well.

As we were passing through the resident Souls, we were waving our hands to them as a gesture of reciprocation. After we walked for a few hundred yards, Elena noticed that her dad was not accompanying us. We got shocked and started searching for him.

We saw him conversing with a resident Soul inside a building. We rushed to that building to inquire why he was lagging.

Elena's dad was seen to have been excited. He introduced one of the resident Souls to Elena saying, "Elena, this Soul, sorry, this woman was my wife in my past birth. Her name in that birth was Vasanta. I never expected her to be in this world. It is so surprising to see our fellow Souls again in the huge Universe"

Elena was also surprised and asked, "Hello aunty, nice to meet you here. How do you do here?"

Vasanta became emotional and started hugging Elena's dad. They two were hugging for a minute without conversing with each other.

Gradually, Vasanta relieved Elena's dad from her fold and started talking to Elena. She asked Elena, "How are you related to John?"

Elena replied to Vasanta, "He is my dad"

Vasanta responded to Elena, "You are very lucky to have him as your dad. He is a nice man. But I couldn't understand his good nature while I was his wife. I did a big blunder. Now I really miss him"

Elena responded to Vasanta, "Yes. He is a loving father to me"

Vasanta replied with a sad voice, "Without knowing his genuine nature, I ditched him for my sons who in turn threw me in the street"

Elena pacified Vasanta, "Ohh... Don't worry. You have understood his good nature now."

Vasanta explained to Elena, "It is not as simple a mistake as you think. When we fail to recognise a good Soul during a particular birth, we will be given a much worse husband in the next birth. That's how I suffered in the last birth that I just completed. I had a terrible husband and two sons. It was literally a horrific life what I had"

Elena realised the true reason behind the sorrow of Vasanta and nodded her head.

Vasanta continued her story, "When I lived a life with John, I ditched him just because he lost his job and hence the income. Our sons threw him out of the home as they thought he became a burden to them. That was when my mind played a cruel game and I also ditched John to join my sons. I thought my sons would feed me the food for the rest of my life. John was literally shocked by the cruel act of myself and our sons and he migrated out of our town. After a few months, my sons listened to the words of their wives and they threw me as well to the street. Thereafter, I started searching for John and very unfortunately, I couldn't see John till I ended my life at that birth. I completed that birth by becoming a beggar in the local church. After I came to the 'Town Of Moksha', I was able to recall the memories of previous births and I literally broke my heart when I recalled my cruel act done to John. When I happened to see him today, I couldn't control myself and begged him to forgive my sin"

Elena convinced Vasanta, "Sorry to hear about your past births. It is really sad. I am confident that you won't repeat the same mistake in your future birth."

Vasanta continued, "I hope so. I am a nasty Selfish woman. In all of my past births, I was always after the 'Security' of my life. I would go behind the people like a dog who could offer me food and shelter. I never gave importance to the genuine relationship rather I had given importance to those people who could possibly become 'My' Guardian. That was how I lost John by replacing him with my sons as 'My' guardians. I don't know why I had so much importance to food and shelter instead of genuine relationships."

I also started pacifying Vasanta, "Don't worry Vasanta...Since you have realized your weakness, I am confident you won't repeat the blunder "

Vasanta interfered to mention, "I have been very good and honest whenever I returned to this 'Town Of Moksha'. But after I assumed the new life, I would start showing my true colour to others. It is so terrible to think about my true self"

I asked RSoul, "What is the solution for the Souls like Vasanta? They are just very good when they are here. But they behave highly selfish when they are given birth in the mortal world. How are the Masters planning to rescue these people from repeating their blunders?!"

RSoul started explaining, "These Souls have to realize two vital learnings while they are here. Firstly, they should realize that **every life of theirs would be very temporary**. Secondly, they should take a strong resolution that they would never **accept anyone as 'My' Guardian just because they offer them food and shelter**.

When they learn these two lessons and record them in their unconscious mind, they won't behave such neurotic in future births"

Elena and I asked Vasanta, "Have you listened to RSoul? Please record these two learnings much deeper into your unconscious mind so that you need not regret again"

Vasanta nodded her head and promised to keep the two learnings intact in her unconscious mind. Then she started hugging Elena's dad once again and pleaded with him to forgive her.

Elena's dad also requested Vasanta, "Don't worry about the past birth. All I want from you is to upgrade the two crucial learnings into your mind and start holding the Truth that nothing is permanent in this universe and no one can be a true guardian except the genuine souls."

Vasanta agreed to follow the two truths and hugged John again.

RSoul pacified Vasanta, "Don't worry. I could see that these two learnings have now gone deep into your unconscious mind and I am confident that you won't repeat the blunder. We all wish you the best in the forthcoming birth"

RSoul reminded us, "Since our tour has come to an end, it is high time to return to the office of Master Indra and discuss what you have learnt here in these three colonies"

We agreed to the suggestion of RSoul and bid farewell to Veena, Aakash and Vasanta.

We felt our hearts becoming heavy when we were about to part them. We really didn't know how to assure them about the possible outcome in their future births. Nevertheless, we wished them all the best during their next births.

All three of them sent us off with tears rolling out from their eyes nonstop till they disappeared from our vicinity.

We started to return to the office of Master Indra.

Chapter 23

The Game Plan

We were back in the office of Master Indra. After waiting for a few minutes, Master Indra asked us to come inside the office.

Indra initiated the conversation, "Welcome back. How was your tour?"

I replied, "The tour was an eye-opener. I learnt about many issues and I am now almost able to discover the Cause behind the Purpose Of Creation."

Indra asked Elena's dad, "Can you please explain to me what Bakta means by the phrase 'Purpose Of Creation'?"

Elena's dad was quite surprised to receive the question thrown at him. He, then, managed to get back to his normal state and started answering, "I understand that Bakta has meant the 'Process' of Sending the Souls to the Mortal World for the 'Purpose of Learning' about their Self-Centredness and to discover the Ways to get rid of the same."

Indra appreciated Elena's dad saying, "Wow...I just wanted to demonstrate the level of learning of you people. That's why I chose Elena's dad to answer a critical question. He was the person who was least interested in the current tour. When he was able to rightly answer my critical question, others might have well understood the same at different levels. Congratulations to all of you"

Raven requested Indra, "I would like to know as to why you have made me come all the way to this world and put efforts to make me understand about the 'Purpose Of Creation'?"

Indra answered, "There is a strong reason behind choosing all of you for the current tour. We are going to discuss about a **Game Plan** in which I am going to involve all of you"

I eagerly asked Indra, "May I know about the **Game Plan** please?"

Indra smiled and continued to answer, "Don't worry. We will end up knowing the **Game Plan** soon after our discussion. Let us first explore your understanding about the State of the Souls whom you met in the three different Colonies. You might have observed that these Souls are finding it very difficult to get rid of their Self-Centredness when they are sent to the Mortal World despite their clear understanding well exhibited in this world"

Elena replied, "Yes. We have noticed that all the Souls who have come to this world have well understood their weaknesses. They are determined to get rid of the same during their next birth in the mortal world. But somehow, they are pessimistic to attain the goal due to their repeated failures in their past births"

Indra asked us, "What do you people think about the reason behind the failures of these Souls in the mortal world to get rid of their Self-Centredness despite their determination?"

I answered to Indra, "Perhaps, the Nature of the Environment and the Pattern of Life provided to them in the mortal world are much challenging for them to get rid of their Self-Centredness"

Indra asked me, "Do you suggest that the Nature of Environment and the Pattern of Life should be modified to a much easier level so that all the Souls can get rid of their Self-Centredness easily? "

AWARENESS

I answered, "I don't think so. Because I am fully aware that you Masters might not have gone wrong and you might have designed the Nature of the Environment and the Pattern of Life in accordance with the various frequencies and challenges prevailing in the whole Universe so that all the Souls might learn to Survive in any corner of the Universe"

Indra gave an affirmation to my observation.

Then Indra continued to inquire, "Then how do you plan to help these Souls to get rid of their Self-Centredness under the prevailing Nature of the Environment and the Pattern of Life?"

Raven replied, "I am truly helpless to find the ways and means to help these Souls in the mortal world under the challenging conditions of enticing Environment and seducing Life. I don't think there is a way out there to hit hard on the heads of the Souls and to awaken them from the deep dreaming state"

I was also under the opinion that all the Souls were getting into a 'Great Illusion' from the moment they took birth in the mortal world.

I shared my perspective, "**Firstly**, all Souls are much aware of the undisputed Truth that their **life span** in the mortal world is **just 8 years only**. **Secondly**, they are completely aware of another important Truth that **neither the Wealth nor the Power nor the Relationship can be Transferred Out of the mortal world** after their Exit from the mortal world. I completely fail to understand as to why these Souls are falling crazy for the aforesaid factors despite their awareness."

AWARENESS

Indra smiled and told us, "This is where our true Challenge remains. These Souls are aware of important Truths yet they are finding it impossible to accept them. This is indeed a great challenge for us"

Raven asked Indra, "What are we going to do about it? "

Indra asked Raven, "We will soon discuss the Game Plan and discover the Way out to overcome the great challenge. These Souls are unable to accept and follow the Truths despite their awareness due to another important factor"

Elena asked, "What is that important factor?"

Indra replied, "All these Souls have their own 'Perceiving Mechanism' within their Mind to get an idea about all the Objects and People in the mortal world. These Perceiving Mechanisms can be called '**Traits**'. These Traits help the Souls perceive the Objects and People existing in the mortal world quite different from the way the Souls do. This is where exactly the '**Discrepancy**' between the 'Traits' and 'Conscience of the Soul' of the individuals originates."

I asked Indra, "Does it mean that every individual Soul perceives the World with a 'Discrepancy' due to the Potential Difference existing between the 'Conscience of the Soul' and the 'Traits'?"

Indra said, "Yes. Every individual Soul perceives the World in two different ways, one through the Conscience of the Soul and the second through their Traits. **This discrepancy somehow can be compared to the contradicting observations of two blind men who perceive an elephant from two different positions.** This discrepancy can be called Duality or Cognitive Dissonance"

AWARENESS

Elena asked Indra, "Can we just say that **every individual Soul** has **Two Distinct Personalities** within themselves?"

Indra replied with an affirmation, "Yes. Absolutely. One of the Two Personalities is headed by the Conscience of the Soul whereas the other Personality is headed by the Traits. This understanding would answer the puzzle that we discussed earlier as to why the Souls fail to accept the Truth despite their awareness."

I asked, "How?"

Indra replied, "The first personality headed by the **Conscience of the Soul** is fully aware of the **Truth** about **Very Temporary Life in the mortal world** as well as the **Non-Portability of Wealth, Power and Relationship out of the immortal world.**"

Raven asked, "What does the second personality headed by the Traits perceive about the world? "

Indra continued to explain, "The Second personality headed by the Traits perceive totally against the First personality. **Second personality** perceives that the **Life in the mortal world is very Permanent** and also the **Wealth, Power and Relationship can be possessed forever**. Unfortunately, **the Second personality is much more Influential than that of the First personality in the minds of almost all the Souls** and that's how these Souls lead an **'Illusionary Life' while they live in the mortal world**"

I asked Indra, "This means, should we support the First Personality headed by the Conscience of the Soul by defeating the Second Personality that submerges the Souls into Illusion?"

Indra replied, "Absolutely Yes. This is where we need to derive our Game Plan"

Raven asked Indra, "How?"

Indra replied, " We should Act against the Interests of the Illusionary or Second personality by creating havoc. While the Illusionary second personality deceives the first personality by making the latter Self-centred, we should destroy the plans of the second personality by posing huge challenges against the very Existence of the Souls itself in the mortal world. For instance, by creating a Virus in the mortal world"

We all got surprised and asked Indra, "Does it mean the current spread of Virus in the 'Town Of Maya' is planned by you?"

Indra replied, "It is planned by the Lord Sadha"

We asked, "Who is the Lord Sadha?"

Indra replied, "He is the Master of all masters like me"

Chapter 24

Action Plan

Indra told all of us that the Game Plan and the Cause behind it had been described and the Action Plan was to be presented.

Indra told us, "The Concept behind the Game Plan was a little deep and hence I want to hear from Elena's dad how far he has grasped it"

Indra asked Elena's dad, "Can you please brief what you have understood by the Game Plan described? "

Elena's dad, "It is very simple. **Humans or Souls have split personalities. One such split personality can understand the Truth** and **the other one can't understand the Truth rather it wants to be Self-Centred.**

Unfortunately, the second personality **supersedes** the first one and makes the Souls become **always Self-Centred**. Hence the Masters of the Universe have devised a **plan called Game Plan to rescue the Souls from the influence of the second personality thereby liberating them from Self-Centredness.** **Because the Self-Centredness of the Souls is the Sole Cause behind the Miseries of the Universe.** That's all"

Indra appreciated Elena's dad and said, "Fantastic. Elena's dad has described the whole Purpose of Creation just in a single paragraph. Well-done. Let us now proceed to discuss about the Action Plan"

Elena's dad got highly motivated and asked Indra, "What do you mean by Action Plan?"

Indra replied, "We are now well aware of the Game Plan. But we need to execute it without any flaws to accomplish its Mission. To that extent, we need to have a Practical Plan to execute the Mission of the Game Plan. That Practical Plan is called as Action Plan"

Raven exclaimed and requested Indra to explain the Action Plan.

Indra started explaining, " Can you please explain as to who will be the main hindrances against our Game Plan?"

I answered, " Obviously, the Hindrances would be the living Souls or humans only. Because they are 'Controlled' by their negative Traits called 'Self-Centeredness'."

Indra asked, "Then how can we overcome such hindrances to liberate the humans from the 'Control' of their negative Traits?"

I told Indra, "Just by educating the humans and making them 'realize' that they are '**possessed**' by their negative Traits "

Indra smiled and said, " Do you really think that we can make the humans 'realize' about their 'negative Traits' merely by educating them? **Shall we be able to make a thief 'realize' his or her mistake merely by preaching?**"

I thought for a while and answered, " If the thief understands his or her 'act of stealing ' is wrong, then we can make them 'realize' "

Indra continued, "Yes. This is an important point. Only when the thief understands his or her 'act of stealing' is wrong, then only we can make them 'realize' about their negative Traits that made them steal. So the big challenge is as to how to make the thief understand his or her 'wrongdoing'?"

I answered, " Yes. You are right, Indra. **Making the thief understand their 'act of stealing' itself is wrong should be the first step.** Similarly, **making the humans understand their 'Acts of Self-Centeredness' are wrong** would be the first step **before making them 'realize' about their negative Traits."**

Indra asked, "Now tell me as to how shall we make the humans understand their wrongdoing that is based on their 'Self-Centeredness'. It is almost impossible for humans to understand their blunders themselves. Then how can we make them understand about the blunders carried out in their everyday life?"

All of us were dumbstruck. We agreed with the point of view of Indra and said, "It is truly a challenging task. In case, we start explaining the wrongdoing of any human to them directly, they will either start arguing with us to substantiate their act or they will simply evade the scenario and avoid any discussion with us. Then how can we make them understand their wrongdoings? It is truly complicated. Please let us know the ways and means to solve this challenge"

Indra answered, "Under Pressure, the humans Understand their blunders."

I asked Indra, "Can you please explain it more?"

AWARENESS

Indra explained, " **Only when the humans are in a 'distress' of 'Fear' or 'Disappointment' or 'Loss' or 'Failure' or 'Threat', their first personality or the Conscience of Soul would get stimulated and start exploring the reason for the aforesaid distress.** That is when, the Conscience of Soul which had been '**completely passive**' till that point of time, would start '**Observing**' the 'wrongdoings' of the Self. Subsequently, the Conscience of Soul would understand the blunders committed by the Self. Are you now able to follow the sequence of processes through which humans can understand their blunders? "

I said, " Now I can understand the sequence of processes that start from '**distress**', then making the hitherto passive Conscience of Soul '**observe**' the wrongdoings and then start '**understanding**' the blunders committed. Then only, the humans would reach a stage to 'realize' their negative Traits. **The summary of the processes is: Distress to Observation to Understanding to Realization "**

Indra appreciated our Understanding and told, "Now, we are aware the whole sequence of processes should begin with a '**Distress**'. Such 'distress' should cause 'Fear' or 'Disappointment' or 'Loss' or 'Failure' or 'Threat' in the life of the humans to get them to the second step which is '**Observation**'. Then comes the last two phases of '**Understanding**' and '**Realization**'.

Raven asked, "Now we have got to know that the sequence of awareness of humans should commence with 'Distress'. To that extent, can you please explain more about the 'Distress'?"

Indra explained, " '**Distress**' can be of different types such as '**Mishap**' or '**Threat**' or '**Loss**'. Can you quote a few examples for these types? "

Elena replied, "**Malfunctions** can fall under '**Mishap**', **Serious Challenges against Survival** can fall under '**Threat**' and **Death** can fall under '**Loss**'."

Indra asked us, "Can you now tell me under which category any 'killer disease' like 'Pandemic Viral Disease' would fall?"

We answered unanimously, " 'Pandemic Viral Disease' would fall under all the three categories of '**Mishap**', '**Threat**' and '**Loss**' "

Indra replied, "I hope that you would now get to know as to why the 'Towns Of Maya' have got infected with a severe 'Pandemic Viral Disease'."

We replied, "Yes. We know. The 'Distress' created by this 'Pandemic Viral Disease' can initiate the sequence of 'Observation' - 'Understanding' - 'Realization' by multiple folds."

Indra continued, "The sincere Act of making the humans realize their negative Traits should not be considered as a Detrimental Act."

We told Indra, "Yes. We are aware of the Noble Goal behind such an Act."

We subsequently asked Indra, "Can we now get to know the very purpose as to why we are brought here to the 'Town Of Moksha'?" "

Indra replied, "Haven't you seriously got any clue of it?"

We replied, "We have got a clue. Perhaps, we are going to get an opportunity to play an important Role in Creating the Awareness to humans"

AWARENESS

Indra asked, "I can disclose the answer only after getting your interest in the Mission"

We all confirmed, "We are very much interested in this Mission. We don't want to lose a golden opportunity to serve the welfare of humanity. Please explain more about our Role."

Indra replied, "You people are going to play an important role in the Action Plan aimed at Creating Awareness to humans"

We all exclaimed and expressed ourselves, "Ohhh... Really? Can you please explain about our Roles? "

Indra explained, "Bakta and Raven would return to the 'Town Of Maya' without their Physical Bodies while Elena and her dad will return with their Physical Bodies. You people will be supported by the whole family members of Guru in the 'Town Of Maya'. You all will work together to Create the Awareness to humans"

We once again exclaimed, "Wow. The Action Plan seems to be exciting. But you haven't yet disclosed the specific Roles of ours."

Subsequently Raven and I asked, "Indra, Can you please explain as to what would happen to our Physical Bodies?"

Indra replied, "Don't worry. Your Physical Bodies will be sent to the Old Man and he will safeguard them for you. You will have to get into your Physical Bodies when the demand rises. So you will find them always at your convenience"

I and Raven got relieved and asked Indra, "You haven't yet explained about our specific Roles"

Indra replied, "You will get to know about your contemporary tasks from the Old Man who is currently camping in the 'Town Of Maya' "

We got excited once again, " Wow... From the Old Man? We can't believe it."

Then I asked Indra, "What would be our next plan? Are we going to meet Great Yama in the 'Town Of Dharma'?" "

Indra replied, "Not now. But you will have his support continuously even when you are in the 'Town Of Maya'. So don't worry"

We hugged Indra and exchanged our feelings. Indra wished us great success in the assigned Mission and we thanked for the same.

Finally, Indra bid a farewell to us before returning to our 'Town Of Maya'.

Chapter 25

Beginning of the Challenges

Sattan summoned his primary assistant, Authaar, to rush to his office by noon.

Mindina was following up with the members of the Governing Body of the Party and asked them as well to join the meeting by noon.

The meeting commenced. Sattan started briefing the members of the meeting, "The Virus has started killing the people. People are getting frustrated. We should ensure that the Mayor keeps failing continuously so that people will shift towards our side. Authaar, Any update on Raven?"

Authaar replied, "I have approached Raven's erstwhile girlfriend and inquired about the whereabouts of Raven. She is not aware of the same. But she vouched to get the information for us as she is vengeful against Raven. The moment she provides us with the information, we will send our team to the border to confront Raven. I will make sure Raven won't support the current Mayor by any means"

Sattan cautioned Authaar, "Don't be overconfident. In case, Raven manages to bring a real Solution or Cure to the Virus, it would be a huge loss for us all. You need to be highly vigilant about Raven's arrival."

Mindina continued to clarify, "I understand that the Old Man talked for the first time with a man called Bakta. I am surprised as to why the Old Man talked only to Bakta. Since the day the Old Man talked to Bakta, he is not to be seen in the town along with his girlfriend Elena. Moreover, I also understand that Bakta had visited the Mayor on the following day after his discussion with the Old Man. The whole scenario is so mysterious and hence we need to get the right information about Bakta and Elena. The current information about him is so insufficient and hence it is much intriguing. Authaar, you need to put another team to investigate about Bakta"

Authaar replied, "Sure mam...I have also got such intriguing information about Bakta. I got a slight tip that he has proceeded to the Mystery Mountain"

Sattan got shocked and reacted, "What the hell is going on here? So many clandestine moves are taking place. I am sure that the Mayor is very active in getting huge support from someone who is sitting in the Mystery Mountain. Can't we reach out there to see what is happening?"

Authaar replied, "Traveling to the Mystery Mountain involves great risks. We need not go all the way there to get information about Raven and Bakta. We can post our teams in the border to confront them as they are supposed to return only through the border"

Sattan asked Authaar, "Have you already posted our teams at the border?"

Authaar replied, "Yes. Two teams are already there in the border watching two different entry points."

Mindina asked Authaar, "What do you think about the Old Man? Is he really spreading the Virus?"

Authaar replied, "I think so. Based on the information received from the group that I posted to safeguard him, I get to know that wherever the Old Man visits, the Virus spreads there"

Mindina said, "Then continue to protect the Old Man from the continuous attempts of Mayor to get rid of him from the 'Town Of Maya' "

Authaar agreed to the instruction of Mindina.

That was when Authaar received a phone call from one of his teams deployed at the northern border. He sought permission from Sattan to attend the call. Sattan permitted him to go ahead

Authaar started attending the call, "Yes. Tell me..."

As he was talking on the phone, his face started changing.

Mindina asked Authaar, "What is the information?"

Authaar just signalled Mindina to wait and he went on to complete the conversation.

After he completed the conversation, Authaar replied, "Our team has just observed two people returning from the forest area and they are about to enter the northern border. What should I do with these people?"

Mindina asked Authaar to inquire about the details of the people who are about to enter the northern border.

Authaar called his team and instructed them to get the details of the people who are about to cross the border and revert back immediately.

After a few minutes, the border team called Authaar and briefed a few details.

Then Authaar, in turn, briefed the details to Sattan and Mindina, "One Elena and her dad are trying to enter the northern border. When our team questioned them as to where they were returning from, they replied that they were returning from the peripheral area of the forest to bring a few herbs to treat the Virus. They were carrying a few huge bunches of herbs in their horses"

Mindina told Authaar, "Please ask a couple of our people to follow Elena and her dad to get to understand what they are going to do with those herbs. We should ensure no person should get cured by them. Be careful about them"

After deputing a couple of people to follow Elena and her dad, Authaar was about to leave the meeting.

His phone rang again. When he answered the phone, his face totally changed to reddish.

Sattan noticed the tension acquired by Authaar and inquired as to why he became tense.

Authaar answered nervously, "Raven has just reached the Office of the Mayor"

All the members of the meeting became extremely tense immediately after hearing this information.

Chapter 26

Mission not Impossible

I, Elena and Elena's dad went to see the Old Man. I was in my Physical Body.

He invited us and inquired whether we liked the trip. Elena and I gave an immediate affirmation while Elena's dad told the Old Man that initially he was pessimistic and at a later stage, he started liking it.

I told the Old Man, "We thank you for sending us to the 'Town Of Moksha'. The trip was a great eye-opener for us. But for this trip, we would have remained as glorified animals within this Town without knowing what is really happening outside. Now we are not only aware of the Reality but also aware of our important Role in the Welfare of Society. You have done a great help indeed"

The Old Man replied, "No need to thank me as it is one of my Roles as well. I am happy to know that you have understood the Purpose of your Life. That gives me enormous happiness"

We told the Old Man, "Master Indra told us that you would guide us to 'Create the Awareness' for the people about the 'Purpose Of Life'. We are eagerly waiting for the same"

The Old Man smiled and said, "Do you think it is so easy to 'Create the Awareness' for the people? All of them are interested only in Power, Security and Attachment. You can't talk about anything beyond these three subjects to them at all. In this circumstance, how are you people going to 'Create the Awareness' about the 'Purpose Of Life' to them?"

I was surprised to know about the limitations of the perceptions of the people.

AWARENESS

I wanted a clarification from the Old Man, "Firstly, all people are very aware that their 'Stay' in this 'Town Of Maya' is limited to 8 years only beyond which they will be 'removed' from this Town. Secondly, they are also aware that they can't 'Transport' anything out of this Town. **This means they are 'Holed Up' in this Town for a span of 8 years and yet they can't 'Transport' anything of their 'Productivity' out of this Town. In other words, they are all literally Stranded in this 'Town Of Maya' like a Frog living in the deep well which won't know about the Ocean outside."**

I continued to share my concern about the people 'staying' in the mortal Towns **without understanding the 'serious repercussions'.**

The first such repercussion is: Under the current perceptions of these people, ***they are NOT going to meet their beloved family members, friends and relatives immediately Again, after either of them Exits these Towns.*** Why are they not bothered about such **crucial and permanent loss of relationships?**

The second such repercussion is: ***Neither themselves nor their heirs are going to carry all the wealth they earned during their 'Stay' in these Towns. All such hard-earned wealth is just going to 'remain' forever in the respective Towns only.***

Despite both the aforesaid serious repercussions for which these people 'slogged' restlessly during the whole 'stay' in these Towns, they all don't seem to be 'worried' about them at all. Can't I call such foolishness a 'Critical Ignorance'? I literally feel pity for these people for their 'Critical and Complete Ignorance' about the terrible 'fate' of their own life "

I exhaled deeply and continued, "Yet these people just don't bother about their **Life beyond their 'Stranded Stay'** in this Town and just keep 'fighting' for their 'local' Desires like 'Mentally Retarded People' playing 'Monopoly Game' as a 'True' game. Are these people really 'Mentally Retarded'?"

The Old Man replied, "Master Indra might have explained about this 'Mental Retardation'. These people are totally 'Controlled' by their 'Negative Traits' only. **Their 'Negative Traits' would only force them to behave 'Self-Centered'**. **They are NOT at all ready to use their 'Conscience of their Souls' to understand 'What is Really Going On in their Long-term Life'**. You can call such 'State of their Mind' as 'Mentally Retarded'."

Elena asked the Old Man, "What is running in their brain all the time? Why are they unable to think beyond their **'Temporary Stay'** in this Town as well as their **'Absolute Inability' to 'Transport'** even **an iota of anything out of this Town?**"

The Old Man replied, "It is a good question. Their Brain is totally 'Controlled' by their 'Negative Traits'. Hence, the **Brain of these people keeps 'continuously' processing the 'Self-Centered' inputs lined up by their 'Negative Traits'**. Their Brain is NOT at all free to think anything else"

I continued to explain the entanglement of their Brain through an analogy, "Can we say that their Brain is 'Strongly Entangled' with those lined-up inputs like the body of a person gets entangled with an electric current when the people accidentally touch a 'high power live electrical cable'?"

The Old Man nodded his head affirmatively and said, "Yes. You are right. **Their Brain is 'totally entangled' with a 'Continuous Inflow of Self-Centered Inputs' forwarded by their 'Negative Traits' like the human body gets entangled with an electric current when the people accidentally touch the live power cable.**"

I asked the Old Man, "In such a critical scenario, **how can we break** the 'Continuous Entanglement of their Brain' from the 'Continuous Inflow of Self-Centered Inputs'?"

The Old Man replied, "I am sure that Master Indra might have mentioned a factor called 'Distress'. Any 'Mishap' or 'Threat' or 'Loss' can be called 'Distress'. When such 'Distress' extremely 'affects' the 'Conscience of their Souls', the people will start looking for a Solution to get rid of those 'Distress'. **This is when the affected people would need our Support and Guidance to get rid of their 'Distress' "**

Elena's dad asked the Old Man, "What will happen if we start meeting the people door by door and start explaining the 'Purpose Of Life'?"

The Old Man replied, "They will show you the Exit Gate without much delay. Because **their Brain is NOT at all ready to accept and evaluate any new input from outside** other than those inputs emanated from their 'Negative Traits' that influence them with 'Self-Centered' thoughts. **People are NOT at all ready to listen to any input that doesn't carry a message about their 'Self-Centeredness'."**

I asked the Old Man, "What is the reason behind such '**Strong Resistance**' exhibited by these people to receive any new and non-self inputs?"

The Old Man replied, "Such 'Strong Resistance' exhibited by them is called as Negative Ego or Egotism. Such Ego is also seated in their 'Negative Traits' and it keeps boasting every human as Superior to anyone else in the Universe. **This Ego is the primary challenge manifested by the people that prevents them from listening and evaluating any new inputs.** "

Elena asked the Old Man, "Does this **Ego make the people possess the 'know-it-all' attitude?**"

The Old Man replied, "Absolutely Yes. That's why these people are **always under the opinion that they are much superior to everyone else** and they are least bothered to listen and evaluate what others convey to them"

I asked the Old Man, "Is this Ego preventing us from going from door to door explaining about the 'Negative Traits' of the people? "

The Old Man said, "Yes. You are right. No person will be ready to hear what we are saying as their Ego will block their Brain from listening. Their Ego will make them think that either we are complete idiots to propagate an illogical concept or we are eccentric to think about a hypothetical concept. Their Ego will show us the Exit Gate in the next possible moment. Thereafter, they would disconnect their relationship with us which would make us impossible to contact them even in future"

We all expressed our sad feelings and said, "Now we understand as to why should we wait for these people to approach us on their own rather than we visit them explaining about their 'Negative Traits' and also about the 'Purpose Of their Life'. It is better to wait rather than approaching them now"

I asked the Old Man, "I can see people are getting into 'Distress' because of the Virus affecting them negatively. But I don't see any of them coming towards us for a viable solution."

The Old Man replied, "The intensity of 'Distress' is not at all sufficient enough for the people to incite their 'Conscience Of Soul'. As the Virus becomes highly infectious, we will find 'very few' people coming to us. But before this happens, you people should get ready with a charitable organisation so as to keep the incoming people at peace and convenience."

The Old Man also cautioned, " You should also get ready to encounter widespread criticism from different people who are not convinced with our concept as well as to receive serious life threats from those people who don't like our mission just because of their selfish interests."

Elena's dad was shocked to hear such caution from the Old Man. We could see he became very upset.

The Old Man told us to motivate Elena's dad about the importance of our mission and to gain adequate courage to meet any type of Challenge.

We nodded our heads and left for our places. The Old Man asked me to go back to my home in the Physical Body itself.

Chapter 27

Emotions Vs Immunity

The Mayor was not able to believe the different experiences of Raven.

The Mayor asked Raven, "It is not possible for another Town to exist as an immortal world. Did you meet with an accident that would have caused damage to your brain?"

Raven explained to the Mayor patiently, "I know it is very difficult to believe my experience. But you can check with my team members who have almost accompanied me till the border of the immortal world."

The Mayor called the team members to his office and verified the statement of Raven. He also evaluated the experience of each member.

Raven's assistant told the Mayor, "It is impossible. But we have seen Raven riding his horse with his immortal body until he reached the place of Old Man. Raven got his Physical Body only from the Old Man"

The Mayor got tense.

He started blabbing, "How come all the 15 people can repeatedly talk the same lie? What has happened to them all?"

Raven told the Mayor, "Please forget our experiences. But start listening to my suggestion to save our people from this Virus."

The Mayor looked at Raven and started listening to him.

AWARENESS

Raven told the Mayor, "What I understood from the whole trip is the people can be saved from the Virus immediately through 'Vaccination' and permanently through a process called 'Healing' "

The Mayor asked Raven, "What the heck is this Healing? Should we start the process of developing a Vaccine? "

Raven told the Mayor, "We need to instruct our Department of Vaccinology immediately to start developing the Vaccine. But I understand that the Virus will keep mutating into different forms and we also need to keep developing the respective Vaccines."

The Mayor asked Raven, "Then what about the Healing, you mentioned?"

Raven explained, "Healing is the process that can provide permanent immunity to the people from viruses. Initially, Healing needs to be done by an expert. After the people gain the Awareness about the Purpose Of Life, they can do Healing for themselves."

The Mayor asked anxiously, "You are providing so much information that makes me inundated. Have you got any information about the Old Man?"

Raven replied, "This Old Man is the expert who can do Healing. He is not here not to spread the Virus but to Heal the people infected by the Virus"

The Mayor went into a deep silent mode. After a few moments, he became alert and asked Raven, " When will the Virus cease to exist?"

Raven answered, "I don't think this Virus will cease to exist in the near future. **The virus will continue to affect the people till they 'Activate' their 'Conscience Of Soul' "**

The Mayor became restless and said, " Raven... Please start talking in the language of humans. You are using so many complicated terms that can't be understood by me at all. What is that you just mentioned that 'Activating the Conscience of Soul'?"

Raven replied, "It is a long story to explain. I will explain when you are absolutely free. As of now, this term means 'Creating Good Humans' "

The Mayor shrunk his eyebrows and said, "You have become a very complicated person. Can you please come in the evening to my home to explain all that you've learned?"

Raven told, "I will come to your home. Right now, we need to augment the protection to the Old Man as he will become vulnerable to our enemies"

The Mayor asked Raven, "Why should the Old Man become vulnerable to our enemies?"

Raven replied, " I understand that Sattan has deployed his army to spy on what we are doing to control the Virus. He is under the opinion that the Virus is being spread by the Old Man. The moment he gets to know that the Old Man is not spreading the Virus but he is here to cure the people, then he might attack the Old Man. So we need to enhance the security around the Old Man"

The Mayor told Raven, "Hope you are not misleading into a false future. You should remember that the election is around the corner and we should drastically improve our image from the perspective of the public. However, I will be able to discover all about you and your concept in the evening. Till then, don't initiate any activity on your own"

Raven asked the Mayor, "Should we apprise the 'Lords Of Divine' about the latest developments?"

The Mayor told Raven, "Let me first fully understand your crazy concept and then I will go in person to meet the 'Lords Of Divine' and explain the concept provided it becomes no more a crazy concept. Let me decide after meeting you by evening. Now you can go and ask the person, by the name Bakta, waiting outside to meet me"

Raven asked the Mayor with a surprise, "Bakta? Is his visit here related to my assignment?"

The Mayor replied, "No. Don't bother about Bakta. He is here to discuss his personal problems. You can go to attend your job. See you in the evening"

When Raven came outside of the Mayor's room, he saw me waiting outside. Raven winked at me and told, "Mayor is calling you inside. Remember that I don't know you and you don't know me"

I became a little surprised initially and then I understood the meaning of Raven's message. Then I went inside the room of the Mayor.

The Mayor asked me, "Welcome back Bakta. How was your trip? Have you got any clue or solution from the Horse Man Yama to get rid of Virus menace?"

I replied, "Yes. He is not addressed as the Horse Man Yama. Rather he is called the Great Yama. Unfortunately, I couldn't meet the Great Yama. But I managed to meet another Master, called Indra. Indra guided me the ways to suppress the menace of Virus"

The Mayor asked me, "What is that he suggested?"

I told the Mayor, "Indra told me that the permanent Solution to get immune from the Virus is to improve the mental health of our people"

The Mayor got upset again. He looked at me and said, "I became mentally very tired after completing a mad meeting just before you entered. So please explain everything to me in a way you explain to a kid of 5 years old"

I told the Mayor, "Ok. Don't worry. People are much prone to the viral infection only when they become Emotional. Because immunity and physical health have a direct connection. So we need to improve the mental health of the people and prevent them from becoming Emotional. This is the simple message for you"

The Mayor suddenly leaned his back on his chair and started looking up at the roof. I couldn't understand the reason behind such a sudden act. I keep looking at him

After a minute, the Mayor sat up and asked me politely, "I pleaded with you to explain any damn concept to me in a way you can explain to a younger kid. Isn't it? Then why did you explain it to me in such a complicated way?"

He continued to ask me, "I totally fail to understand the link between mental health and immunity. How will you explain this link?"

I requested the Mayor, "Can you please call the Professor of Mental Health to come here. She might explain the connection to you much simpler"

The Mayor reverted back immediately by saying, "Please Bakta...I can't listen anymore to anyone who explains to me through Science. So I will accept your raw statement and try to move forward. Please tell me how we can improve the mental health of the people?"

I replied, "By opening a 'Mental Counselling Center' in our Town"

The Mayor closed his eyes halfway and asked, "What will you do so great in the 'Mental Counselling Center' to improve the immunity of the people?"

I replied, "We will try to help the people to 'Activate' the 'Conscience Of their Souls'"

The Mayor sat straight and asked me, "By any chance, have you met anyone who talks the same nonsense"

I replied, " Yes. I told you that I have met Master Indra"

The Mayor told me, "It is enough for today. Can you please go ahead to meet the Professor of Mental Health and convince her about the importance of the 'Mental Counselling Center'? In case she is convinced by your explanation, then we can go ahead with establishing the 'Mental Counselling Center'. See you"

Then the Mayor stopped me from leaving his room and asked me, "Have you got any genuine information about the Old Man?"

I replied, "Yes. Without the help of this Old Man, we can't 'heal' or improve immunity for our people"

The Mayor whispered, "I guess you have met that guy"

I asked the Mayor, "Who?"

The Mayor set himself corrected and said, "I meant Master Indra"

I told him, "Yes. You are right."

Then I said bye to the Mayor and walked out of his room. I could see he hasn't yet returned to his normal mood.

I then proceeded to meet the Professor of Mental Health.

Chapter 28

Court Of Divine

The Mayor and all the Town Council members were present in the Central Hall of the 'Divine Center'. They were waiting for the Seven 'Lords Of Divine' to join for an important discussion.

After waiting for nearly an hour, the Seven 'Lords Of Divine' entered the discussion hall. The Mayor stood up and paid their respect to the 'Lords Of Divine'.

After the 'Lords Of Divine' took their seats, the Mayor and the Council members started sitting in their seats.

The Senior Lord of Divine looked at the Mayor and then turned to the other Lords to comment, "The Mayor had called me yesterday and requested us to give him time to discuss an important issue. At the end of the discussion, he wanted our Approval to carry out a few crucial tasks. That's why I invited you people, to join this discussion. Thanks for joining me"

Other Lords reciprocated to the Senior Lord of Divine and conveyed their interest to join the discussion.

Then the Senior Lord of Divine requested the Mayor to initiate the discussion.

The Mayor accepted the invitation and got ready to deliver his speech. He brought the mic closer to his face.

Then the Mayor delivered his speech as, " As we are all aware, our Town is terribly affected by the severe Virus that was not experienced for the last one century. We have taken all essential measures to protect our people from the ongoing disaster. We have requested the Department of Virology' to produce the right Vaccine to protect the people. Secondly, we have received a strong recommendation from the 'Department of Mental Health' to establish a 'Mental Counselling Center' in order to make the people remain mentally balanced so that their Immunity can be improved. Thirdly, we have received a request from our 'Department of Security' to enhance the Security Cover for the Strange Old Man who has been camping in our town. I request the Holy and Honourable 'Lords Of Divine' to consider our request and approve them"

The second Lord of Divine replied, "Ok. We will definitely evaluate all three requests and then let you know. When do you want our approval?"

The Mayor stood up and answered, "My Lords, since more and more people are affected day by day, I humbly request you Lords to give your approval in today's discussion itself. I request you Lords not to take it as a forceful request from my end. I am desperate to find a solution to protect our people. That's why I request your approval by today itself. I beg your pardon in case I have offended your convenience, my Lords"

The second Lord of Divine started discussing with other Lords of Divine and such discussion went on for a few minutes. Finally, the second Lord spoke, "Mayor, we understood the critical situation encountered by you all. Hence we have accepted to deliver our approval by today itself. But we need to discuss these requests in depth before we deliver our approval. So let us meet after a couple of hours."

The Mayor and the Council members were anxious to hear about the outcome. They kept discussing several issues till the 'Lords Of Divine' returned to the discussion hall.

Roughly after 3 hours, the 'Lords Of Divine' returned to the discussion hall where the Mayor and the Council members were waiting.

The second Lord of Divine started to deliver his speech. He said, "We, the Lords Of Divine, have discussed all the three requests submitted to us. After a lengthy discussion, we can unanimously come to a conclusion to approve the first two requests while we are all against giving our approval to the third issue. We fail to understand as to why such a great importance is being given to the Strange Old Man. So we, the Lords Of Divine, regret to inform you all that except the third request, the remaining two requests are approved by us"

The Mayor replied, "Thank you very much Lords Of Divine. We sincerely appreciate and accept your approval for the first two requests. But I have a humble request to make"

The second Lord of Divine asked the Mayor to proceed.

The Mayor continued to speak, "May I know as to why the approval of the third request is rejected by the Lords?"

The second Lord replied, "We can't entertain any request related to the welfare of any illegal immigrant"

The Mayor continued to plead, "My Lords... Although the Old Man is an illegal immigrant, we have seen his sincere and genuine activities towards the Welfare of the Citizens of our Town. Moreover, he has been approved by the Master Indra of the 'Town Of Moksha' as well. Thirdly, all the Horse Men have been extremely respectful to this Old Man. So he can't be considered as an ordinary man"

The Senior Lord replied, "Mayor, all of your aforesaid observations are purely your subjective perceptions only. They are not Objective Truths. We can't depend on Subjective Perceptions while delivering approval for the welfare of society. Moreover, nobody has met Master Indra till today. We have seen His name only in the 'Book Of Divine'. So we can't discuss an issue which is not personally heard by us"

The Mayor responded saying, "My Lords, our Chief Vigilance Officer Raven, A man called Bakta, a lady called Elena and her dad have all met Master Indra in the 'Town Of Moksha' "

All the 'Lords Of Divine' have started laughing out loud. Then the third Lord replied, "What did you say? How can such normal humans be able to see those Masters of the Immortal Worlds? How can you believe such foolish statements from those fraudsters and use them in front of the 'Lords Of Divine', the genuine and only descendants of Divine? We can't be patient anymore. Just throw the Old Man in the forest and summon the four fraudsters to our court immediately"

The Mayor literally got startled and pleaded with the Lords to forgive him.

The Senior Lord of Divine continued to say, "We can forgive you once. If you bring such rubbish information to the forum in which the 'Lords Of Divine' are present, you will be thrown into the northern forest. But our two other orders are still valid and you need to execute them immediately"

The Mayor didn't know what to say. He finally agreed to send the Old Man off into the northern forest and to bring the four people, Raven, Myself, Elena and her dad to the 'Court Of Divine'.

Chapter 29

Smarter than Evil

The verdict reached me and I was shocked. I started rushing to the Old Man and I called Raven, Elena and her dad to come over to Old Man's place.

The Old Man saw me reaching his place. He just waved his hands as a gesture to invite me.

As I went near him, I saw him with a smiling face. I asked him, "Haven't you got the information about the Verdict delivered by the 'Lords Of Divine'?"

The Old Man replied, "Yes. I have got the information"

I asked him anxiously, "Then how come you can remain in a happy mood?"

The Old Man reverted back saying, "If the Lords can revoke the Verdict just because I decide to be in a grim mood then I will stop being happy."

I asked the Old Man, "They won't revoke the Verdict. I am worried about our Mission. What would happen to the same?"

The Old Man calmly replied, "Nothing will happen to our Mission. It will just go on"

I anxiously asked, "How is it possible without your presence? Why don't you return here as you were doing it in the past?"

AWARENESS

The Old Man replied, "It won't be possible anymore as the 'Lords Of Divine' have enacted the Verdict. Moreover, my presence here won't be necessary as you four have resumed the Mission. I will be supporting you people from the back through my immortal body which is invisible to others"

In the meantime, Raven, Elena and her dad came to our place.

I narrated the information that was shared by the Old Man. They also got shocked to know that the Old Man won't be returning to the Town.

Elena asked the Old Man, "We are still learners in the Mission of 'Creating Awareness' to the people. Without your guidance, how can we perform from time to time? We won't be able to see you at all"

The Old Man replied, "You will be able to communicate with me even without 'seeing' me. Humans whoever has their 'Agreeableness Trait' in their 'Conscious Body' will be able to see and communicate with the immortal bodies when the latter attempt to get in touch with"

I asked the Old Man, "Who among us has the 'Agreeableness Trait' in their 'Conscious Body'?"

The Old Man replied, "Elena has it. She will be able to see the immortal bodies and communicate with them. By converging with her 'Conscious Body', I will also be able to 'Untangle' the 'Hook' that 'Enmeshes' the Physical Body with the Immortal Body so that nobody will be able to 'see' Raven and Bakta"

Raven asked the Old Man, "What will happen if you return here after the Security guards of 'Lords Of Divine' abandon you in the forest?"

The Old Man replied, "The time has come for me to leave this Town. Because three important things should start to happen. Firstly, you people should be able to perform the noble Mission independently. This will get you more wisdom and great experience. Secondly, the inappropriate actions of the 'Lords Of Divine' should get 'documented' in the 'Book Of Karma'. Thirdly, I will be able to support you people more efficiently through my immortal body rather than performing from the Physical or Mortal Body. Can you understand them all?"

We all looked at him with gloomy faces.

The Old Man continued, "Don't worry. You will feel pessimistic at this point of time. But after a couple of months, you all will become alright to perform the Mission."

We asked the Old Man, "What will be your specific advice to us?"

The Old Man replied, "You need not be too Genuine and Straight Forward to the 'Lords Of Divine' as they can put you in serious problems just by using your own statements. **Be very clever enough to manipulate them.**

I will teach you the 'Physical Therapy' through my immortal body. Bakta can continue to provide Cure from the 'Mental Counselling and Therapy Center' (MCTC). Raven can Protect both Bakta and Elena as well as their performance. Elena's dad can preach Philosophy and Spirituality to the people who approach him during their 'Distress'. Have I been clear in making you understand your tasks?"

We gave an affirmation with a grim-looking face.

AWARENESS

We started hearing the noise of footsteps and when we looked in that direction, we saw the Security guards rushing towards the Old Man to arrest him.

When we all attempted to prevent the arrest, the Old Man told us, 'No, please. You should recall what I have just explained to you all. I assure you that I will always be with you. Because you are 'Chosen' by me based on the maturity of your Souls. You people are just great and you will get to know about it soon.'

The Security guards have taken the Old Man into a Horse-cart and started moving towards the forest situation in the northern direction.

Tears started rolling from our eyes and we were unable to talk anymore.

With much difficulty, I asked the Old Man, "Who are you really?"

He replied, "I am that person you wanted to see"

We looked at each other and murmured, "The Great Yama?"

The Old Man smiled and started moving away from our vicinity.

We took few minutes to get back to normalcy.

Soon after we returned to normalcy, we saw a group of Security guards approaching us to take us to the 'Court Of Divine'.

We could see that we were taken into the court and made to stand in front of the Judge.

The Judge started asking us, "Is it true that you people are claiming to have seen Master Indra?"

We all recalled the advice of the Old Man, '**Be very clever enough to manipulate them**'

I replied to the Judge, "We have seen a man who claims to be Master Indra and he was telling us so many unbelievable stories. How can the 'real' Master Indra bluff us with so many misleading stories?"

The Judge categorically asked me, "I don't understand. What is your final say?" I replied, "That man whom we saw can't be the 'real' Master Indra."

Elena, Raven and Elena's dad repeated the same version of my statement to the Judge. The judge was staring at us for a few moments and took some time to deliver his verdict.

The Judge read his verdict as, "I am forced to acquit these four persons based on their ambiguous statement about 'seeing' Master Indra"

We four got relieved physically as well as mentally. We talked to each other about the practical advice given by the Old Man to 'tackle' the people of the 'Lords Of Divine' using our Intelligence.

But when we started nearing our homes, an unknown pain was gripping our hearts that kept reminding us the fact that we were not going to see the Old Man anymore. That pain got extended up to the brain and pushed the tears to roll out of our eyes.

Chapter 30

Ego, Exclusivity and Privacy

We four had restless sleep and kept recalling our experience with the Old Man (The Great Yama?).

During the following day, the whole 'Town Of Maya' was startled to know that the Virus had killed 5 people and more people got affected by the Virus.

The Mayor and the Council members were also shocked to hear about the 5 deaths for the first time after the Virus invaded the Town. Very surprisingly, all the 5 deaths happened at the place of living unlike earlier. Earlier, the Horse Man used to abduct those people whose life terms had come to end. But those 5 deaths happened due to the collapse of breathing ability without the presence of the Horse Man. Such deaths were not at all witnessed by the people of the Town earlier and such a peculiar type of death made the people worry much.

All the media were repeatedly broadcasting about the 5 deaths and subsequent threats foreseen.

The Mayor summoned all the four of us to come to his office immediately. He seemed to be very tense.

The Mayor started sharing the pressure received. He said, "After the 5 deaths, I am under severe pressure from all directions. The 'Lords Of Divine' have called me to put all of my efforts to stop any further death due to the Virus. Many people started calling me directly under panic. Press people are chasing to know about the remedial measures taken by me to avert further death. I am in severe distress and hence I wanted support from you people. How can I stop further death? This is my first and foremost question"

I told the Mayor, "Don't worry. We will find the way out. We need to hurry up in four different avenues such as i) Vaccination ii) Counselling iii) Therapies and iv) Creating Awareness"

The Mayor replied, "Developing the right Vaccine would take time. Moreover, I understand that the Virus might mutate into different variants and we need to keep on developing Vaccines for the different Variants. So the process of Vaccination will continue forever. But I want the 'Peace Of Mind' of the people to remain stable so that they won't turn against me. In short, I am afraid about the forthcoming elections and the reaction of the 'Lords Of Divine' only"

Raven answered, "In that case, we need to segregate people into 3 different groups so that they all can be sent to 3 different functions handled by Bakta, Elena and her dad. This way, we can keep the people at ease and peace"

The Mayor responded, "Those people who get vaccinated might find themselves relieved. But they may vote in favour of me as they had already undergone severe hardship. So I need to pacify them all by 'offering' them with a 'Personal Care'. That's why I prefer approaching them using the 3 ways such as i) Counselling ii) Therapies and iii) Creating Awareness"

AWARENESS

All of us could understand the selfish motives of the Mayor and agreed to segregate the people into 3 different groups to 'offer' them all a 'Personal Care'"

The Mayor got a doubt. He wanted to clarify, "I can understand partly about the first two types of 'Personal Care'. But I am still confused about the third type of care which is 'Creating Awareness'. How will Elena's dad Create Awareness? I also want to know whether it is possible to Create a Positive Awareness about me and my great service to the people?"

Raven replied, "Let me and David explain the importance of the 'Process' of 'Creating Awareness' to the people to you so that you will get to know how best we can include the program of praising your service"

The Mayor asked, "Who is David?"

Raven replied, "Don't know? David is Elena's dad"

The Mayor said, "Ohhh...ok. He is David. Ok. Can you both explain what you really mean by the phrase 'Creating Awareness' to the people?"

David started to explain, "**The Great Yama told us that all the Mortal Worlds are in Chaos due to the Strong Self-centred Attitudes of people living there. Every individual of these Mortal worlds has become so Selfish to Survive even by suppressing or hurting others. These evil attitudes have caused these worlds completely to lose Peace, Harmony and Happiness. "**

David continued to explain, " **In order to reinstate Peace, Harmony and Happiness, the Great Yama has made the Virus spread in these Mortal worlds to make those people 'realize' their blunders and 'bring' them closer to each other.** The process of 'bringing' all people together is called 'Creating Awareness'. That's all"

The Mayor immediately retaliated, "David, you are confusing me. How can the Virus 'bring' the people 'Closer'? Virus, in fact, is making people get isolated more and more. Your goal and current reality don't go hand in gloves at all. So can I assume that you are already much confused and now you are trying to make me confused, is that right?"

Raven interfered, "No Mayor. You should understand this issue from the basics. Let me explain this issue from the basics"

The Mayor requested Raven, "Please don't explain anything. Whatever I have understood till this point of time is enough. I don't want to break my head with concepts. Please try to understand me"

Raven told the Mayor, "How can we arrive at the right slot, amidst the whole mission, to canvass about your great service to the people?"

The Mayor accepted Raven's explanation and asked him, "Then you should explain the whole concept of 'Creating Awareness' through very short and sweet sentences"

Raven asked, "Why do all people live in individual and discrete families rather than staying together as a 'Single Family'?"

The Mayor replied, "Very simple. If they live together, they will all fight until death"

Raven asked the Mayor, "Why should they fight when they are living together?"

The Mayor replied, "Because people can't tolerate each other"

David interferred at this stage and asked, "Now tell me which is the best option for living in Peace, Harmony and Happiness? By staying as a 'Single Family' or living as 'Discrete Families'?"

The Mayor wanted a few minutes to think and answer.

After few minutes, the Mayor answered, "If all members of the 'Single Family' can live together 'without fighting' with each other, then living as 'Single Family' is definitely good"

David questioned the Mayor, "In what way do you think that staying as a 'Single Family' would be advantageous to lead a life in Peace, Harmony and Happiness?"

The Mayor answered, "As I said earlier if all the members of the 'Single Family' do manage to live together 'without fighting', then obviously every individual member will be 'taken care of' by the rest of the whole family members. This means, if I fall sick, there will be thousands of people to take care of me. If I lose my job, there will be thousands of people to support me with money."

David asked the Mayor, "Is that all? Can't you add anything else?"

The Mayor replied, "Please wait. This subject gets more interesting. I need to brainstorm more to see whether I have missed anything"

AWARENESS

After a few minutes, the Mayor continued to explain, "Yeah... I missed a few points. If we all stay together, there won't be distress when we suffer like the rest of the family will take care of us. There won't be financial problems, as the rest of the family will help us. There will be no more Jealousy, Pride, Greed and Vengeance. Then why the hell are we not living together?"

David asked the Mayor to discover the reason for living as discrete families despite the aforesaid advantages.

The Mayor thought for some time and answered, "Perhaps, people want 'Privacy' for their 'Romantic Activities'?"

David appreciated the brainstorming of the Mayor and said, "Well-done Mayor. You are almost there in arriving at the 'Ultimate Reason' behind living as 'Discrete Families'. Can you please elaborate the term 'Privacy' more to discover the 'Ultimate Reason'?"

The Mayor replied, "Perhaps, due to the **'Self-Centered' Intentions and Desires** of the people such as **Ego, Exclusivity and Privacy** they are Unable to live as a 'Single Family'. Am I right?"

We all got excited and appreciated the Mayor, "We never expected you to arrive at the 'Ultimate Reason' behind the 'Formation of Discrete Families'. We appreciate your Intelligence to understand the Cause behind the lacking of Peace, Harmony and Happiness"

The Mayor asked a serious question, "Thanks for your appreciation. But I am still confused to understand the 'Connection' between the Current invasion of Virus and the 'Hindrance' against people 'getting closer'?"

I explained to the Mayor, "You have easily solved the puzzle behind the 'Formation Of the Discrete Families'. So understanding the 'Connection' between the Current invasions of viruses and the 'Hindrance' against people 'getting closer' will be easier for you. "

The Mayor said, "Can you explain that 'Connection' please?"

David explained, "It is simple. **Any 'Threat' encountered by the people would force them to explore the ways and means to get rid of the encountered 'Threat'. This is how 'Threats' pave the way to make people 'think' rationally**".

David continued to explain, "The currently invaded 'Virus' is also a strong 'Threat' and hence it has forced the people to explore all possible ways and means to 'protect' themselves against the 'infection' through the Virus. People are hoping that the 'Vaccination' would protect them. But based on the version of the 'Great Yama', the Virus will keep on mutating into many variants. To that extent, new vaccinations are to be developed to counter the mutating variants of the Virus and hence the Virus Factor would become a permanent factor to Create Threats to Humanity.

The mutating Variants of the Virus would affect different Organs of the Human Body and those Organs will consequently become vulnerable to provide adequate Immunity.

Such Threats would obviously 'trigger' Emotions in the minds of people. Unfortunately, every such Emotion has a Connection with an Organ of the human body and hence these Emotions would 'Negatively Affect' the respective Organs and Cause 'Diseases'.

So the different 'Threats; would 'trigger' 'Emotions' and the 'Emotions', in turn, would 'Negatively Affect' the 'related Organs' of the human body.

Those people affected by this Virus would develop permanent damage in their Organs depending on their Emotional Weaknesses. Such damage will get worsened as the people become more and more emotional, unable to withstand new Threats. This Virus would also dig a big hole in the Economy of the World and that hole would add new threats to the world.

So people would start looking for a permanent way to protect themselves against all types of Threats. All such Threats would start 'triggering' the Emotions that would cause 'Distress'. **These Emotions and 'Distress' would start affecting those Organs that are connected with their Emotional Weaknesses.**

Based on the Great Yama's suggestion, only the 'Peaceful Mind' or 'Emotions Free Mind' would help humanity protect against all Threats.

Obviously, the people of the society would rush to get rid of the 'Distress' caused by the 'Emotions' that were originally caused by different 'Threats'.

We have been enlightened by the Great Yama that the following 'Factors' would 'trigger' 'Emotions' and the 'Virus' would play a Crucial Role in 'triggering' such Emotions:

1)'Disappointments caused by Ego, Greed, Fear, Fury and Desires'; 2) 'Evil Nature Of People'; 3) 'Disappointing Relationships'; 4) 'Fraudulent Motives'; 5) 'Loss Of Money'; 6) 'Hurtful Intentions and Attitudes'; 7) 'Loss Of Time, Energy and Efficiency'; 8) 'Lack Of Discipline and Hygiene'; 9) 'Loss Of Health'; 10) 'Challenges of Survival'; 11) '**Inability to Make Decisions**'; and 12) '**Lack Of Companionship**'.

AWARENESS

All of the aforesaid factors would make the people finally Understand that their 'Negative Traits' are the 'True Cause' behind the 'Self-Centeredness' and the people will also start to understand that their 'Self-Centeredness' is the Main Cause behind the 'Distress'.

Hence the People would be forced to find a solution to get rid of their 'Distress'. Such a 'Search' to get rid of their 'Distress' would make them approach different people and gain Knowledge from them.

When the people Start Moving Closer to Other Viable People, they will create New Connections with potential people who can rescue them from the 'Distress' by enlightening Wisdom.

That is how People will get closer with each other to form a 'Single Family' or 'Oneness' by discarding their 'Negative Traits' which had been holding to the 'Self-Centeredness'. "

David completed his long explanation.

After the explanation provided by David about the Connection between the Virus and the Act of People getting Closer, The Mayor became proud to have understood the 'Connection' between the 'Current Invasion Of the Virus' and the 'Hindrance' against people 'getting closer'.

The Mayor said, "Now, I have understood the true Purpose Of My Life. **I should, hereafter, strive hard to 'Create' the 'Oneness' in the Humanity by helping the people get rid of their 'Emotions' and 'Distress' "**

Raven asked the Mayor to remember the very Cause of the 'Distress' by saying, "You need to just remember the following phrase as an outline to the Cause of any 'Distress': **I Own (Ego), My Companion (Exclusivity) and Look at Me (Privacy)**"

The Mayor was happy to note such an easy Phrase to remember the very Cause behind any 'Distress'. Then the Mayor was introspecting to search for any other doubts that remain in his mind.

After a few minutes, The Mayor said, "Yes. I have a simple as well as a silly doubt". He then asked David to clarify the same. He asked David, "I have understood the 'Concept Of Oneness'. **But when you say people should live as a 'Single Family', do you literally mean that all people should stay in a 'Single Home' as well?"**

David smiled and replied, "How it would be possible to accommodate the whole population in a 'Single Home'? **'Single Family' means that the Family that brings all of its members together and connects them 'mentally' for a long-term relationship.**

The Mayor became satisfied and said, "So you people are talking about a 'Single Family' connected 'mentally'. Ok. So you mean to say that if all the people are connected "mentally', will their Immunity level improve?"

I replied, "Yes". But 'Getting Connected' with each other is not an easy task. Because **Every Soul is Unique**. To that extent, **the Personality, Intentions, Attitudes and Expressions of each individual Soul would be Unique and Different**. In such a condition, **getting to know each other and understanding them mutually would require 'Great Awareness' about the Origin, Existence and Nature of Souls as well as the Challenges faced by all Souls**. That's the very reason why we are going to conduct the session on 'Creating Awareness'. If you attend the same, you will get to know many concepts about our Existence. You are invited to attend the same"

The Mayor told, "I would like to attend your session on 'Creating Awareness' when you guide people about the concept of 'Single Family'"

We invited the Mayor for the next immediate session scheduled on the third day in the 'Hall Of Awareness'. He accepted our invitation happily.

We all became extremely happy to have added another crucial member to our noble Mission of 'Creating Awareness'.

We discussed our scheme to publicize the scheduled first session of 'Creating Awareness' and we expected just less than one hundred people to attend our first session.

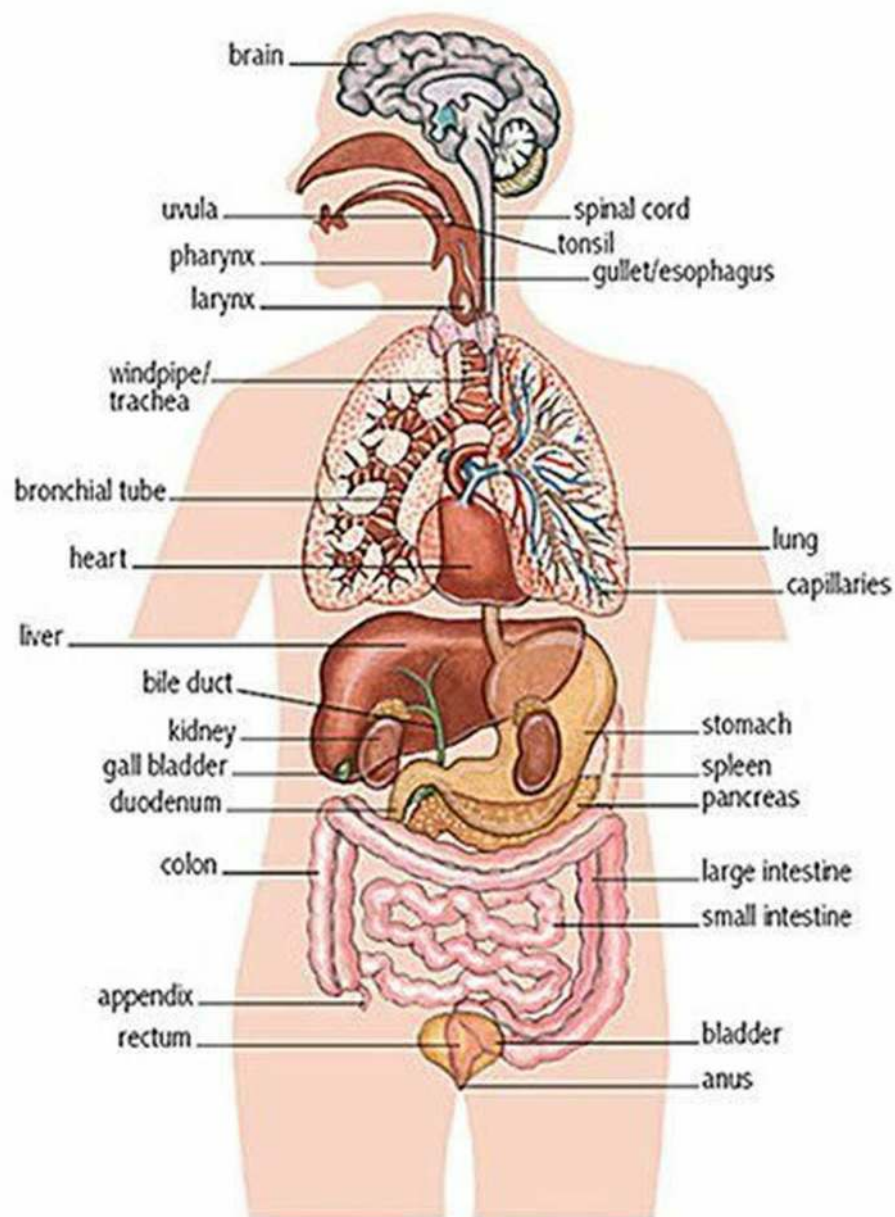

Chapter 31

Taste Of Awareness

David invited all the participants who had come to attend the first session of 'Creating Awareness' in the 'Hall Of Awareness'.

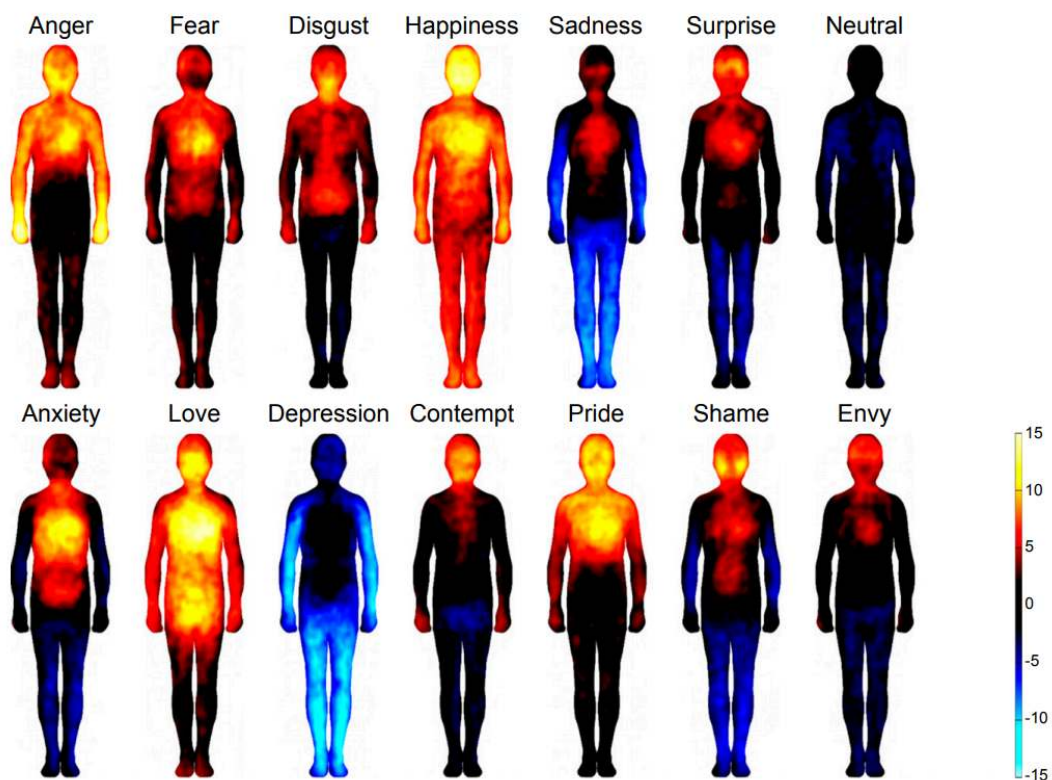

Then he started projecting the following image on the screen.

AWARENESS

Then David started explaining, "Today is an important day in the history of our Town. Because we have gathered here to understand the Crucial Way to counter the spread of the Virus. We four, Raven, Bakta, myself and my daughter Elena, have been lucky enough to get all the crucial information that is going to be shared here today"

He continued to explain, "The picture projected here is the image of human anatomy. I have projected this image here as I am trying to establish a strange connection between the Organs of the human body and the Emotions of humans. We have been told that certain Emotions negatively affect certain Organs of the body. I would like you to have a glimpse of the anatomical image of the human body. Then we can proceed to see a rare image in which you would see the Direct Connection between Certain Organs and Certain Emotions. I am now going to project that image for your observation. Here is the image"

David continued to explain, "The above picture is the outcome of great research done by our scientists and I have the relevant research paper for your perusal.

As you can see those Organs affected by the corresponding Emotions in this image, we get to know that Diseases related to those Organs are likely to ruin those people who continue to express such Emotions"

David continued to explain. "We, humans, express those Emotions that are caused by the 'Distress' originated from the 'Threats' perceived by us. The current invasion and spread of the Virus is causing us a severe 'Threat' to all of us and this Threat, in turn, gets converted into a 'Distress'. Finally, that 'Distress' will make us express Emotions which, in turn, negatively affect the related Organs and Diseases"

"Although the Vaccines are being developed, those alone can't solve the 'threats' being perceived by us. The Virus has caused a severe economic recession in our Town and consequently affected the livelihood of the people. When such disasters are continuously encountered by the people, they are obviously subjected to 'Continued Distress'. As we have discussed above, such 'Continued Distress' would affect different Organs depending on the type of Emotions expressed."

"So we should seriously attempt not only to escape from the infection of Virus but also from the 'influence' of deadly Emotions as well failing which we will end up suffering from severe 'Distress' that will ultimately ruin our Organs and our health permanently ."

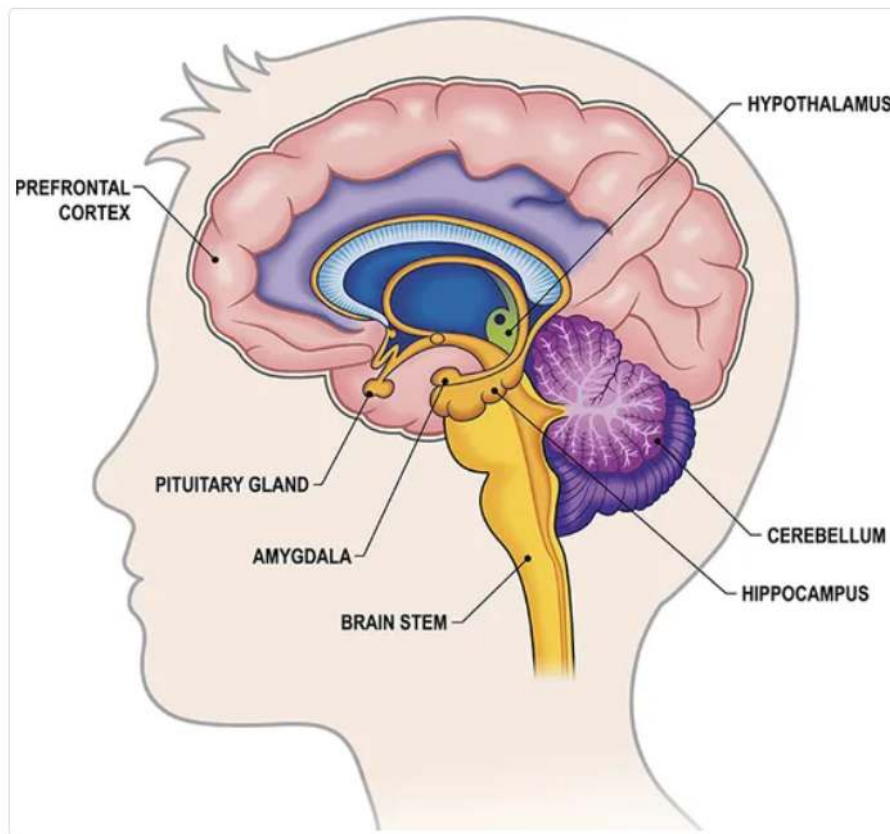

David continued to explain, "Apart from damaging our organs, Emotions will negatively affect our immunity as well. New research uncovers fresh evidence to suggest that **frequent exposure to negative emotions may have an important impact on the functioning of the immune system**. I have many research papers supporting this finding with me. I can provide them to you in case you are interested"

Link to readers: [Emotions negatively impact our Immune System](#)

David said, "Let us now discuss the Origin of the Emotions. Science has discovered that the Limbic System that is present in our Brain is the Cause for our Emotions. That's why the **Limbic System is also called 'Emotional Brain'** as well. The image below shows the Limbic System situated in our Brain. The different parts of the Limbic System are acting in different ways as below:

- **Hypothalamus.** In addition to controlling emotional responses, the **hypothalamus** is also involved in sexual responses, hormone release, and regulating body temperature.
- **Hippocampus.** The **hippocampus** helps preserve and retrieve memories. It also plays a role in how you understand the spatial dimensions of your environment.
- **Amygdala.** The **amygdala** helps coordinate responses to things in your environment, especially those that trigger an emotional response. This structure plays an important role in fear and anger.
- **Limbic cortex.** This part contains two structures, the cingulate gyrus and the parahippocampal gyrus. Together, they impact mood, motivation, and judgement.

ii)<https://www.simplypsychology.org/limbic-system.html>

iii)<https://www.nba.uth.tmc.edu/neuroscience/m/s4/chapter06.html>

David concluded his speech saying, "Thanks for your keen interest shown towards 'Creating Awareness'. Hope you would have understood the Source and Cause of Emotions as well as the Negative Impacts that can be created by the Emotions. I have many research papers supporting the concepts just explained by me. I can provide them to you all in case you are interested."

After the important phase of the speech was over, David asked the participants,

“Have we understood the strong Connection between the ‘Perceived Threats -> Emotions -> Distress -> Damage of Organs -> Diseases -> Permanent Loss of Health ?”

The majority of the Participants gave an affirmative response.

Then David continued to explain, “So we ought to find a Way to overcome such Emotions so that we can permanently get immune from all types of Threats. What is the way out?”

“ You will be astonished to know that we dig our own graves because Emotions do not attack us from outside. Rather we Create the Emotions ourselves. We have a few peculiar psyches and Traits that are very much present within our Mind and we Create Emotions using those peculiar Traits”

David paused the lecture and asked the audience, “Are you following my lecture without any confusion? In case you have any doubts, you can get those doubts clarified now. Please shoot your questions now”

One of the audiences raised his hands and asked, “Why can't we get those disturbing Traits 'dissected' from our brain and stay Emotion free?”

David responded saying, “Unfortunately, science hasn't discovered the ‘Map of our Mind’ which is supposed to have a combined effect of our Brain and unidentified Consciousness. So it is impossible to 'dissect' those disturbing Traits from us”

David asked the audience, “Any other questions?”

AWARENESS

Another person raised her hands and asked, "If we can't 'dissect' those disturbing Traits, then we can attempt to 'dissect' the part of the Brain that receives the input from those disturbing Traits. Isn't it?"

David replied, "Good question. But the answer is 'No'. Because there doesn't seem to be a single part of our Brain that receives the input from the disturbing Traits. It is the **combination of different areas of our Brain and our Consciousness called 'Conscience of Self' that receives those disturbing inputs**. So it is impossible to 'dissect' the receiving areas as well"

David continued to explain, "It means we have left with only one Option. We can 'Control' our 'Conscience Of Self' from 'receiving' or 'listening' to the 'disturbing' Inputs 'sent' from the 'Disturbing Traits' or 'Negative Traits' "

Another participant raised his hand to ask, "Wow...That is a great Option. Why can't we attempt to implement this Option immediately?"

David replied, "Yes. This is why we are here to understand how we can 'Control' our 'Conscience Of Self' from 'receiving' or 'listening' to the 'disturbing' Inputs 'sent' from the 'Disturbing Traits' or 'Negative Traits' "

Many participants stood up from their seats and raised their voices to say, "Let us learn that 'trick' today itself. David, please teach us the 'trick' today"

David smiled and replied, "I appreciate your great interest to learn that 'trick'. But unfortunately, that 'trick' can't be learned by today itself as it is slightly a 'long process' and you need to undergo such 'process' for few months continuously"

AWARENESS

Few participants confirmed to David that they were ready to undergo the 'process' and they asked him, "Can you please let us know the name of the 'process'?"

David replied to them saying, "The name of the 'process' is called as 'Creating Awareness' "

The Mayor smiled in a big way and looked at all four of us by nodding his head. He then told Raven who was sitting next to him. "Ohhh... Is this 'process' called 'Creating Awareness'? Then I am much interested to attend this 'process' without fail"

We all five became very happy to see the great interest among the participants and vowed ourselves to 'Create Awareness' to them.

Suddenly Elena called me to say, "The Great Yama wants to convey that He is also very happy after seeing the enthusiasm amongst the participants and He wishes us all the best"

I asked Elena, "Wow... He is in touch with us. It is great. Please convey our wishes and gratitude to him"

Chapter 32

Business As Service

Elena and I divided the people of the whole Town into three groups based on their intellectual potential. Those groups were: 1) Physical (Body) 2) Analytical (Mind) and 3) Conscious (Soul). We decided to choose either 'Counselling' or 'Therapy' based on the group they belong to.

I received the information from the newly opened 'Mental Counselling and Therapy Center' (MCTC) that few people were waiting to receive Counselling and Therapy.

So we went to the 'Mental Counselling and Therapy Center' (MCTC) to meet those people waiting for us.

As we entered MCTC, we saw a man crying aloud and came towards me. I consoled him saying, "Don't worry. We will find a way... Please relax"

That man couldn't stop crying and kept on crying. I and Elena were continuously consoling him. After around ten minutes, we could see the man started to cry.

I hugged the man and asked him, "I feel extremely sorry for your distress. Can you please explain the reason behind your distress?"

The man started crying again for some time. Subsequently, he managed to stop the cry and started to reply, "I have lost my son due to the Virus. He was such a loving boy to our family and we never thought that he would leave us much ahead of us. Why should he leave so early while old people like me still exist here for nothing?"

He continued to cry saying, "It is so cruel to make a young guy die so early. He was taking care of the entire family so nicely and we can't even imagine even a single moment without his presence. Why should I continue to exist? Let me also die"

I kept consoling him, "Yes. Your son seems to be a nice person. I can understand your distress after losing him. But his loss should not force you to leave this world. Rather you should try to accomplish his goals aspired by him. Such positive attitudes would not only pacify his soul but also your soul as well"

The man started to cry saying, "Yes. You are right. He wanted to get his sister married before the end of this year. He also wanted to get his brother admitted to the Medical College. But how can I continue such high ambitions without him? I am a retired person and I don't earn money for the family. How can I fulfil his ambitions? What will my daughter and son do now?"

I continued to pacify him saying, "It is not possible to replace your son with anyone. But I can try to play the role of your son in achieving those ambitions aspired by him. Don't worry. I will be with you to help you. You can call me anytime or come here to meet any time you are facing a challenge. I will surely help you to sort out the problem for you. Don't worry please"

We could see our consolation helped him stop crying. He was ready to hear our consolation. I and Elena discovered that this man belonged to a group of 'Physical: Emotional People' and hence we decided to offer him 'Therapy'.

Elena was trained by the Great Yama to practice **Reiki**, a 'Type of Therapy' that can 'Heal' both Mind and Body and the Reiki process could 'Stimulate' the 'Vagus Nerve' as well. Elena agreed to stimulate his 'Vagus Nerve' which would not only initiate 'Relaxation Response, but also elicit the output of many important neurotransmitters especially serotonin, GABA, norepinephrine, and acetylcholine.

I requested Elena, "Please 'Stimulate' his 'Vagus Nerve' so that that man will get out of the 'Depression' momentarily. In case, he agrees to visit 'Mental Counselling and Therapy Center' (MCTC) on regular basis, we can help him recover fast"

Elena agreed to stimulate the 'Vagus Nerve' to make him recover from the distress.

Links to readers: i) [Stimulation Of Vagus Nerve](#) , ii) [Stimulation of Vagus Nerve for Depression](#) , iii) [What is Vagus Nerve ?](#), iv) [Vagus Nerve Yoga](#), v) [Reiki has broad potential as a Complementary Therapy](#)

I called the second person to come forward for Cure. This was a woman and she seemed to have mentally upset due to distress.

I asked the woman about the reason for visiting MCTC. She explained, "I lost my husband yesterday due to a Viral infection. We have been loving each other for a long time and finally agreed to marry last month. Immediately after our marriage, he parted ways with me. I fail to understand why our fate was so terrible. He was surely my Soulmate and I don't know how I am going to lead a life without him. What do you think about our married life having remained so short? "

The Great Yama has told us that any person who would approach us with **exploring questions and remain inquisitive** would fall in the category of '**Analytical People**'. After gaining knowledge, these 'Analytical People' would be able to derive answers on their own.

After interacting with this woman for a few minutes, I could evaluate her belonging to the 'Analytical: Inquisitive'. Since she didn't become very emotional and wanted to know the reason behind the events, I couldn't put her in the 'Analytical: Emotional' rather I classified her into the 'Analytical: Inquisitive' group.

I asked her name. She said, "I am Mercy".

Then I started providing her with the answer, "Mercy, I have gained my own knowledge and experience in the concept of 'Destiny'. I strongly believe that there is an intellectual system acting behind our Birth and Death. No human has landed in this mortal world on their own. Similarly, no human has planned their Death on their own. We just call our 'Stay' in the Mortal World between the events of birth and death as 'Life'. Is it really 'Life' or is it just a 'Stay'?"

Mercy asked me, "**What is the difference between 'Life' and 'Stay'?**"

I answered her, " In my opinion, '**Life**' is '**Our Continuous Existence**' whereas the '**Stay**' is just a '**Demarcated Part Of Our Life**' "

Mercy asked me, "This means we all have come here to this Mortal World to 'Stay' ?"

I told her, "Yes. Because we are here for a 'demarcated period of time' only"

AWARENESS

Mercy asked me, " After the death of my husband, I saw his 'Body' lying in front of me without any response. This means his 'Body' was just a carrier to 'accommodate' his 'Life'. Where did that 'Life' go and how did it leave him?"

I replied to her, "Let us assume that the 'Body' of your husband is 'Physical Body' and his 'Life' as 'Intelligent Body'. After the event of death, the 'Intelligent Body' of any human leaves the 'Physical Body' permanently"

Mercy anxiously asked me, "How do you confidently say that there was an 'Intelligent Body' attached to his 'Physical Body'?"

I answered, "You just said that his 'Physical Body' was lying in front of you without any response. What does it mean? There was 'something' existing inside his 'Physical Body' and suddenly after his death, that 'something' stopped existing. What do you think about that 'something'?"

Mercy responded, "Perhaps, that 'something' was his 'breath.'"

I asked her, " 'Breath'? Do you think 'breath' is everything? What about 'Thoughts'? Aren't 'Thoughts' different from 'Breath'?"

Mercy asked me, "How do you say that 'Thoughts' are different from 'Breath'?"

I explained to her, "We, humans, are able to 'breathe' even when we don't 'think'. For instance, during our sleep, when we are in anaesthesia, when we have fainted, we continue to 'breathe' but we don't 'think' "

Mercy got convinced and said, " Ohhh... I understand that there is no direct connection between 'Breath' and 'Thoughts'. Now I could understand that **both 'Breath' and 'Thoughts' are coexisting in the human body** and so was in the body of my husband as well. Where do these 'Thoughts' reside in the body? Perhaps, in our brain?"

I replied, " I would say that 'Thoughts' don't originate or reside from our brain only. Because, as of today, scientists are unable to 'read' our 'thoughts' completely. **Our 'thoughts' remain dodgy and intangible to us. So I think that the 'thoughts' are originated from the 'Intelligent Body' and not from the 'PhysicalBody' "**

Mercy asked me, "Just because the 'thoughts' are dodgy and intangible to us, can we conclude that the 'thoughts' do **not** originate from the 'Physical Body'?"

I smiled and said to Mercy, "Good question. I think you might be aware of 'Matter' and 'Energy'. I am sure that you would agree that 'Matter' is 'visible' to us while 'Energy' is not. I am also under the opinion that **'Matter' is a 'Decayed Form Of Energy'**. In other words, **'Energy' can produce 'Matter' and 'Matter' cannot produce 'Energy'**. **Our 'Physical Body' is made up of 'Matter' while the 'Thoughts' are made up of 'Energy'.** "

Mercy clarified a doubt, "Do you mean our 'Physical Body' (Matter) won't be able to produce 'Thoughts' (Energy) ?"

I replied to her, "This is what the above mentioned analysis concludes. Isn't it?"

Mercy exhaled deeply and asked, "Does this mean that our 'Physical Body' (including the brain) is used by the 'Intelligent Body' till the time of death? At the time of death, when the 'Intelligent Body' decides to stop using the 'Physical Body', the former just switch off the 'Brain and Breath' of the 'Physical Body' and 'leaves' the latter. Is that right?"

I replied with satisfaction, "Yes. That's right. In other words, the 'Intelligent Body' of your husband is alive and will be alive forever, this being an Energy."

Mercy jumped with surprise and exclaimed, "Wow...I am happy to discover that the 'Intelligent Body' of my husband is very much alive. This means, when my 'Intelligent Body' decides to leave my 'Physical Body', I will be able to see my husband. I am very much thrilled. I haven't lost my husband permanently. It is just that I am not able to see him now just because I am still using my 'Physical Body'."

I replied to her, "Yes. You are right"

Mercy called Elena and told both of us, "Your noble service should continue here so that people like me would get out of their ignorance and stay in Peace. I am wishing you both from the bottom of my heart. Great job"

In the meantime, the man who had undergone 'Therapy' with Elena just came back to me and said, "After the 'therapy', I can now feel that I am much relieved from the 'distress' and I am now confident that I can face the future. I thank you both for the wonderful service offered to me. I wish you all the best. Please continue your noble service"

Both the man and Mercy thanked both of us and asked us, "How much is your fee? We want to pay"

Elena told them, "Service means helping others without burdening them. When we charge money for our service, then that will no longer be called service rather it will be termed as a business. In fact, we thank you both for giving us an opportunity to serve you. Thank you very much"

We called the third person who was waiting for us to come inside our consultation room.

Chapter 33

Desertion of Harmony

Sattan and Mindina were waiting to meet the 'Lords Of Divine' in the 'House Of Lords':

The 'Lords Of Divine' started arriving one by one. After all the Lords arrived, they called the Sattan couple to come inside their discussion hall.

The third Lord invited the Sattan couple and inquired the reason behind their visit.

Sattan started the briefing, "Respected Lords, Thanks for accepting my request and giving me an opportunity to meet you. You might be well aware of what is going on in the town. Nevertheless, I would brief the same from my perspective."

Sattan gave a pause to his speech to get permission from the Lords to continue his speech.

The Senior Lord asked Sattan to continue his speech.

Sattan continued, "My Lords...I have come to know that the Mayor has given approval for carrying out a few peculiar activities from the 'Hall Of Awareness' as well as from the 'Mental Counselling and Therapy Center' (MCTC). It seems all activities carried out from these places are totally against the 'Principles' and 'Codes' mentioned in the 'Book Of Divine'.

So I became panicked and came approaching the Lords to rescue this 'Town Of Maya'. I have seen few recordings of those activities and I vouch my Lords, those are going to corrupt our people away from the 'Book Of Divine'. So I humbly request the Lords kindly to initiate immediate action to stop the immoral activities"

The Senior Lord asked the other Lords, "Even I was told that the activities carried out by the four guys with the permission of the Mayor are very peculiar and they don't fall in line with our 'Codes Of Rules' and 'Book Of Divine'. Do you people have anything to add to my observation?"

The Second Lord continued his speech, "Yes our Senior Lord. I have also been told that these four guys are preaching very strange concepts and evil practices to corrupt the minds of our people. I think we should take immediate action to stop these immoral activities at once"

The Sixth Lord continued to raise his concern, "I am told that Bakta and Elena are having an illicit relationship. They can surely spoil the minds of youngsters if they are allowed to interact with the youngsters. In Particular, they are doing some activities related to the mind. Someone told me that those activities are all about 'Mind Control' "

The Seventh Lord raised his voice and said, " **Mind Control**!?' That's really bad. Only ancient Witches can do such practices of 'Controlling the Mind'. Senior Lord, these four people seem to be dangerous to our society"

Sattan continued to say, "The Mayor is extending his total support to the four guys. Without the support of the Mayor, these four guys can't perform those evil practices. So, my Lord, I humbly request you to announce a ban for the Mayor from contesting in the forthcoming election"

Mindina said, "Yes, my Lord, I have got information that Elena and her dad were seen carrying some strange plants from the northern forest and I was told that these plants might belong to the Intoxicant or psychoactive plants strictly banned by the 'Lords Of Divine'. I understand that the Mayor is aware of the movement of these people. Hence, I humbly request the Lords to implement a strict ban against the Mayor from contesting in the election as well as against Elena and her dad"

After listening to the different statements of the Lords, Sattan and Mindina, the Senior Lord commenced delivering his opinion. He said, "I am surprised to know so many serious complaints against the Mayor and the four guys. I want to take immediate and stern action against them even if one of the complaints alleged by you is proven with evidence. So you are all instructed to act fast and get us the proper evidence to substantiate your allegations. The 'Court Of Divine' will await the evidence that should be submitted at the earliest"

Sattan and Mindina returned to their office and summoned Authaar to join them for a crucial discussion.

After Authaar joined them, Sattan started explaining his plan. He said, "Listen Mindina and Authaar, I never expected this from the Senior crazy Lord. This guy is asking us to provide the evidence against the Mayor and four guys. It is almost impossible to get the right evidence against them. That's why I am proposing a plan that will create negative propaganda against these five guys."

Authaar started keenly looking at Sattan's eyes.

Sattan continued to explain his plan. He said, "The only way for us to exploit the currently available opportunity in favour of us is to create a 'disharmony' amidst the people. We should ensure that this 'disharmony' should turn against the Mayor and those four guys. When the 'disharmony' grows bigger and bigger, both the 'Lords Of Divine' and the people of the Town would turn deadly against the Mayor as well as the four guys"

Authaar asked Sattan, "Your plan looks interesting. But you need to guide me as to how to create the 'disharmony' all of a sudden."

Sattan continued to explain, "You told me yesterday that more and more people have started liking the programs conducted by David, Raven, Bakta and Elena. You also told me that around twenty people have decided to stay with these four guys in order to help their Service. Is that right? "

Authaar nodded his head affirmatively.

Sattan continued to say, "We should use these twenty people as our 'trump cards' to instigate negative propaganda against these five guys."

Authaar asked, "How can we use these twenty guys? These 20 people are the strong supporters of David, Raven, Bakta and Elena. They will never intend to listen to us"

Sattan told Authaar, "Authaar, you need to become a little smarter. How can we pull those strong supporters to our side? I know it won't be possible at all. So we need to use the family members of those twenty supporters"

Authaar asked again, "How?"

Sattan smiled and asked Authaar, "Haven't you still understood my plan? It is surprising. The family members of these twenty supporters might be very upset about the decision of the supporters. Their decision of staying with the four guys most of the time will be considered as 'an act of deserting' by the family members. To that extent, their family members might be very angry and vengeful against the Mayor and four guys. We should use such vengeful aggression in our favour to create 'disharmony' in the society "

Authaar appreciated the plan proposed by Sattan and sought the permission of the latter to start meeting the family members of the supporters.

Chapter 34

Ethical Responsibility

Sattan rushed to the 'Hall Of Divine' to appraise the 'Lords Of Divine' about the recent developments in society.

The 'Lords Of Divine' asked Sattan to explain the current situation.

Sattan started explaining, "My Lords, the situation in the Town is much dreadful. The majority of society has turned against the Mayor and his team of four guys. Society has started addressing these five guys as 'abductors'. The people want these 'abductors' to be arrested immediately and brought to 'eyes of the law'."

The Senior Lord asked Sattan, "Why do the people address these five guys as 'abductors'?"

Sattan replied, "My Lord, I explained to you last time that these five guys were practising 'Mind Control'. Gradually, these guys have started using the technique of 'Mind Control' on innocent people and started 'abducting' them into their control. After experiencing the family members deserting their own homes, other members of the respective families have started conducting many gatherings and processions against these 'abductors'. My Lord, you can see the whole Town is ' **burning** ' "

The Senior Lord asked Sattan, "You have brought a very serious matter to the 'Court Of Divine' and it should be dealt with urgently. Tell me as to why should the Mayor's team 'abduct' innocent people? What is the ulterior motive behind such 'abduction'?"

Sattan replied to the Lord, "In my opinion, the Mayor is behind such a cruel action. He wants to win the forthcoming election through any means. So he wants to 'brainwash' more and more people to join his party so that he can easily win the election"

The Senior Lord became uncomfortable and said, "Are you sure? If it is true, then all the five guys should be punished severely under the 'Laws Of Divine'. I want those people who are negatively affected by the Mayor and his team to come forward to the 'Court Of Divine' and to submit their grudges in the written form immediately. Lords, please issue the notice to the entire society through the media to come forward and submit their allegations immediately"

All the media started publicizing the notification given by the 'Lords Of Divine'.

After much publicity, around a hundred people started coming to the 'Court Of Divine' to submit their complaints about the 'abduction'.

After a couple of days, the officials of the 'Court Of Divine' started to open all the complaints and submitted a report to the 'Lords Of Divine'.

On the following day after the submission of the report, the 'Lords Of Divine' gathered in the 'Court Of Divine' to go through the report. The Senior Lord read the report loudly and asked the opinion of the fellow Lords. All the 'Lords Of Divine' shared their opinion to the Senior Lord saying, "The report clearly proves that the kith and kin of these 95 people have been abducted by the Mayor and his team and hence the 'Court Of Divine' should summon all the concerned people to the Court and start Trial against the accused"

AWARENESS

The Senior Lord agreed to the suggestion of the fellow Lords and ordered to initiate the Trial against the accused on the fourth day.

On the fourth day, the 'Lords Of Divine' were present in the 'Court Of Divine' and started calling the 'accused' to argue against the allegations.

David was the most upset person and he was expressing his concern to the other four, "I never expected such a noble Service of ours would end up in such a disaster. I fail to understand as to why the Masters of Immortal Worlds haven't rescued from this disaster"

Raven started convincing David, "Don't worry. There must be a reason behind the silence of the Masters of the immortal worlds. Let us wait and see. I hope that the 'Lords Of Divine' would listen to those twenty followers of ours and acquit us from the allegations. Don't worry"

The 'Court Of Divine' started the Trial against us. It started hearing the advocates of the complainants. The advocate of Sattan was also arguing aggressively to punish the 'abductors' vigorously. Subsequently, the 95 complainants were called to the Witness Box and cross-questioned by all the advocates of the complainants. Subsequently, the 20 followers of us were summoned to the Witness Box to provide their explanation against the allegations of the complainants.

The 20 followers were cross-questioned by the advocates of the complainants. The advocates asked the followers, " You need to confirm whether you have deserted your own families just to stay with these alleged 'abductors.'"

AWARENESS

The 20 followers expressed their responses in a similar context. They said, "It is true that we have started staying with the team of the Mayor. Our intention was not to desert our families rather it was to serve the deserving people"

Then the 'Lords Of Divine' summoned us to step into the Witness Box.

The advocates of the complainants started to cross-question us.

They asked me, "The Court just wants to know whether you people have permitted the 20 followers of yours to stay in your premises without the permission and consent of their family members"

I replied to the advocates, "The Court should hear our side of the story from the beginning. We wanted to rescue the 20 people from the mental distress that severely affected them negatively. We used our acquired knowledge to rescue these 20 people from the severe distress that perturbed them. All the 20 people recovered from the severe distress and found our Service highly helpful. They wanted to know more about our knowledge and experience so that they can help others to become normal from the distress. That was how they started staying in our premises"

The advocates interrogated further by asking, "Mr Bakta, you haven't answered our direct question yet. Have you sought permission from the respective families of your 20 followers or not?"

AWARENESS

I replied to them, "These 20 followers are major as per the legal age and they were the ones who can explain the importance of our Service to their families. We requested our followers to explain the mental relief that they attained to their families and to seek their permission to stay on our premises. All the 20 followers agreed to us that they had explained the importance and reason behind their stay to their respective families. Based on their confirmation we allowed them to continue staying with us"

Then the advocates questioned the 20 followers, "Is it true that Bakta and his team asked you to seek permission from your family to extend your stay with them?"

The 20 followers confirmed, "Yes. We explained the importance of the Process of Creating Awareness, Counselling and Therapy to our family and we requested them to allow us to learn the Noble Knowledge from Bakta and his team"

The advocates requested the family members of the 20 followers and questioned them, "Is it true that your estranged family members had sought your permission to stay in the premises of Bakta and his team?"

The complainants replied to the advocates, "They were sharing the importance of the process carried out in the premises of Bakta and his team. Initially, we allowed them to visit the premises to learn the process of healing. But gradually they stopped returning to our homes"

The 20 followers stood up and shouted, "No. We told them emphatically that we were going to stay in the premises of Bakta and his team in order to learn the Healing Process."

AWARENESS

The Senior Lord decided to interfere at that stage because of the arguments arisen between the followers and their families.

The Senior Lord started expressing his feelings, "I carefully listened to the versions of both sides. It seems that it is highly difficult to prove whether the 20 followers had really sought permission from their families as the entire conversations between them were not recorded. So I am forced to evaluate the Morality behind the entire process and not the Truth behind the conversations. I am going to read our Verdict based on the Morality"

We all were anxiously listening to the verdict of the Senior Lord.

The Senior Lord started reading the Verdict, "Based on the Morality behind the whole allegations, we are convinced that the respective families of the 20 followers have been in great distress due to the prolonged stay of their estranged family members."

The Senior Lord continued to read the verdict, "So we would like to seriously question the 'Ethical Responsibility' of the Mayor and his team of 4 people, who have self-declared as the guardians of mental health of the society? Why do these so-called guardians of the mental health of the society totally 'failed' to observe the great mental distress grieved by the families of the 20 followers? How did the 'Ethical Responsibility' of these so-called noble people vanish and remain one-sided? The 'Court Of Divine' severely condemns the utter Negligence of Duty and Responsibility of the Mayor. Based on the total failure and violation of the 'Ethical Responsibility' by the whole team of the Mayor, the 'Court Of Divine' orders the Mayor and his team to get deported out of this Town for a period of 6 months."

We were completely astonished by the Verdict. Tears were rolling out from the eyes of our team. We couldn't converse with each other as Destiny was pulling us in a totally unexpected direction.

As we were thinking about the sudden twist that happened in our lives, a horse cart came to deport us into the northern forest.

Chapter 35

Determination

The 'Security Guards Of Divine' brought all five of us to the northern border and instructed us to get down from the horse-cart. Then they asked us to cross the border and go to the forest side. They gave the 'Copy of the Verdict' to the Border Security Guards and told them not to allow us back into the Town for the next 6 months. Border Security Guards told us to move away from the Security Post and showed the way towards the forest.

The ex. Mayor Learnold was very upset about all adverse events that took place very fast. He was not interested in talking with any of us. We started walking towards the forest with grim faces.

I started convincing Learnold to start conversing with us. He didn't even look at my face and seemed not at all inclined to listen to my request.

After walking near the forest, I suggested that we all sit in a place. We all sat physically together but mentally much apart. Our minds were roaming into various memories of the past.

Elena and I started to converse with each other. Elena asked me, "What do you think about our future? Do you think we will ever be able to continue our service in the 'Town Of Maya' ?"

I replied to her, "I could see that people are not ready to accept any change. They are stuck with their old principles. I really don't know how to approach them."

Elena asked me, "Then why are the Masters of the immortal worlds not coming here to rescue us? Why have they abandoned us here in the forest?"

Suddenly, Learnold interfered and shouted at us saying, "You all four have psychological disorders. You are into an imaginary world seeing hallucinations. I believed you and now I got deceived. At the first instance itself, I should have ignored you all. I made the biggest blunder of my life"

David and Raven also started talking pessimistically. They said, "No Learnold. We have seen the immortal world and the Masters. We are sure that we hadn't seen any hallucinations. But we have started thinking about the 'Worthiness of the Service'. Do these people truly deserve our service? How can we make these people awake who just don't bother to listen to us? Every single thought of these people is revolving around their Selfish Desires. They just don't bother about the:

- 1. 'Temporary State of Survival in Any Place in the Universe'**
- 2. 'False Hope of Owning the Assets Forever'**
- 3. 'Longing for Attachments through Hallucinated Expectations'**
- 4. 'Disregard to Any Universal Input'**

All the aforesaid attitudes are expressed only by 'Lunatic People'. But these people living in this Town project an Outlook of normal people, but internally they are truly 'Lunatic' only. How are we supposed to work with these 'Egocentric Lunatics'?"

Learnold replied, "You people are now realizing your blunders after pulling me into this disaster. I made a great blunder by believing in you people. How did I slip out of my control?"

AWARENESS

I pacified Learnold saying, "Don't worry. We four have already seen the other side of Reality. Since you haven't experienced the other side of this world, you are so lamenting about our current situation. I am much optimistic about our resilience"

Learnold replied, "It is almost getting dark. We don't know how to spend our nights in the edge of the forest by safeguarding ourselves from animals, weather and hunger."

Raven replied to Learnold, "Don't worry about such threats. I am very experienced at tackling them. I saw a huge tree last time. That tree can accommodate all of us

from any type of threat. Fortunately, they have allowed us to carry canopy, hammock, dresses and utensils. Don't worry. We will survive"

Subsequently, we made arrangements to sleep in the huge tree using a hammock. I could see others didn't get sleep for a longer period of time.

We woke up from a night of disturbed sleep and started to explore the ways and means to survive for the day as well as for the months.

Elena was murmuring to me, "I know the technique to strip your Physical Body. Why can't you cross the forest and go to the 'Town Of Moksha' to meet Master Indra? He can guide us on how to lead the future?"

I replied to Elena, "Do you think that the Masters of Immortal Worlds are not aware of our current situation? I think they have purposefully let us undergo this challenge"

AWARENESS

Elena gave an affirmative response and said, "You are right. I also think that the Masters of the immortal Worlds want us to gain certain experiences by undergoing the current challenge. Let us wait till we attain such higher wisdom to understand their aim"

David said, "What is more for us to gain? We have gained everything. I think the Masters has nothing to do with us. They are going to abandon us here"

Elena told David, "I don't think we have gained all the essential wisdom to become a leader. In my opinion, a potential leader won't lament against any challenge."

Raven confirmed the same. He said, "The Masters of the immortal Worlds are prudent. Perhaps, they are stuck somewhere in making decisions"

Days were rolling into weeks. Me, Raven and Elena were able to survive without any turbulence in our minds. We were discussing a lot about life and people to learn more about them.

One fine day, we could see a Horse Man passing through the area where we were residing. After seeing us, he momentarily stopped his horse and inquired about us.

We told him, "We are managing to survive here without knowing our future. Where are you coming from?"

The Horse Man replied, "I am coming from the bottom of Mystery Mountain. Who are you, people? Why are you living here?"

I explained our history and experience to the Horse Man.

He felt compassionate about us.

I asked him, "Do you know about the current status of the 'Town Of Maya'?"

The Horse Man replied, "We, Horse Men, stopped going to the 'Town Of Maya' for the past three months after the Virus started causing Physical Death to the people. So I am not aware of the current situation over there"

Elena asked the Horse Man, "Why all of a sudden, the Virus started causing Physical Death? Earlier, you Horsemen only used to take away those people whose life term got over. What caused such a crucial change?"

The Horse Man told, "Are you much interested to know the reason behind such change in our protocol?"

I, Elena and Raven told the Horse Man, "Yes. Very much. What caused that change in your protocol?"

The Horse Man replied, "Let me show you people what really caused the change in our protocol. Are you ready to accompany me?"

We were surprised and asked him, "Are you sure? Do you know we are not allowed to cross the border and get into the 'Town Of Maya'?"

He replied, "Ohhh... really? Then why can't you leave your Physical Bodies here with these two guys and visit the Town with your 'Intelligent Bodies' only?"

I, Elena and Raven were looking at each other. David told us, "I think it is a good opportunity to go into the Town to see what is really happening there. Let me safeguard your Physical Bodies and wait for your return. If you want, you can go with this Horse Man"

Elena, Raven and I asked the Horse Man, "Would it be right to visit the 'Town Of Maya' without the permission of the Masters of Immortal Worlds? Secondly, who will remove the Physical Body of Elena?"

The Horse Man replied, "We, all Horse Men know the Art of Decoupling the Physical Body and hence I will remove the Physical Bodies of all three of you. Why should you bother about the Masters of the Immortal Worlds who haven't bothered about your survival? Hereafter, you should start planning your survival without looking for their rescue"

Elena and I were surprised by the statement of Horse Man. Then we talked with each other, "Let us now use the Horse Man to get to know what is really happening inside the Town. After our return, let us discuss our approach towards the Masters of the Immortal Worlds"

Our Physical Bodies were removed by the Horse Man and then he removed his Physical Body as well. Subsequently, we four Souls started leaving for the 'Town Of Maya'.

Chapter 36

Breaking the Chain

The Horse Man asked us to fly over the Town so that we can have a bird's eye view over the town.

While we were flying above the Town, we saw the whole Town become restless. We could see many ambulances plying between places and hospitals, many bodies being buried, few processions taking place etc.

Then the Horse Man asked us to land on a street in which Elena's house was situated. We started floating over the street watching each and every house. We could hear hue and cry in a few houses and the other houses were filled with calmness.

That was when we could see an incident taking place. In the third house from Elena's house, an old lady was shouting for help from the outside of her house. She shouted repeatedly in her high pitched voice, "Help...help...I want Ambulance". Unfortunately, no neighbours were bothered to come forward to help her fearing the infection. We went inside her house and saw her husband literally struggling to breathe. Elena knew that only the old couple were living in that house all alone.

We wanted to help the old lady, but we were not in our Physical Bodies. The old lady ran from house to house seeking help. But unfortunately, all the neighbours gave evasive answers to the old lady and nobody came forward to help her despite the hue and cry made by her over an hour. Finally, we watched the husband of the old man exhaling his last breath to leave his Physical Body. The old woman passed out after seeing no response in the body.

The Horse Man saw and asked us, "What did you get to know from this incident?"

Raven replied, "**People are not ready to perceive any input beyond their personal bondages.** They have very strongly limited their connections with the slogans of 'I Own, My Guardian and Look at Me'. They are finding it highly difficult to overcome their **Ego, Security and Bondages**"

The Horse Man asked us, "Do you think that these Self-Centered people will be really able to express their Love and Feelings beyond their Bondages?"

We unanimously said, "No. It is not possible"

The Horse Man asked again, "Do you really think these **Egocentric people** will be able to live as a '**Single Family**' by following the '**Concept Of Oneness**'? As long as 'Oneness' is not attained by all the people, the Society of any world won't be able to live in Peace, Harmony and Happiness. **Egocentric people will keep domineering, fighting, revenging, envying, harming, possessing, cheating, manipulating and hurting others continuously. How is it possible to live a life of Peace, Harmony and Happiness together with these people? "**

We replied, "Not at all possible."

Then the Horse Man asked, "Then why should the Masters of Immortal Worlds have brought these people to this Mortal World?"

We couldn't answer that question. We were looking at the Horse Man dumbstruck.

The Horse Man asked us to follow him. He took us to the 'Mental Counselling and Therapy Center' (MCTC). We were surprised to see around 500 people sitting in the lounge. When we approached the counselling hall, we were met with a surprise. The Guru of Mystery Mountain was giving Therapy Treatment to a man. As we got closer to the man who was being cured, we got much more surprised to see the Senior Lord of the 'Lords Of Divine'.

We couldn't believe it. We looked at the Horse Man with great surprise.

He responded to us, "Now you might have understood the long-term plan of the Masters of the Immortal Worlds. People would take numerous births in the mortal world to discover their weakness of 'Self-Centeredness'. We need to be highly patient and tolerant towards all of their Egocentric Activities and Reactions till all of them get rid of their **'Negative Traits'** that perceive **Egocentric thoughts** only. In fact, the Senior Lord has visited here just to experiment how far the Therapy is successful in curing the people"

We responded saying, "The Plan of the Masters is very encouraging. In fact, we are thrilled to understand the Master Plan of the Masters."

I asked the Horse Man, "I could see **hardly 1% of the population are able to Identify and Accept their 'Negative Traits' and their 'Self-Centeredness'** while they live in this mortal world. What happens to that 1% of people who have realized their 'Negative Traits' and the balance 99% of people who are not able to perceive beyond their Ego, Security and Bondages?"

The Horse Man replied, "You might have seen the 1% of the people or the people who have realized their 'Negative Traits' in the 'Town Of Moksha'. But you haven't seen another World called 'World Of Evolving Souls' which accommodates the balance of 99% of the people who are yet to realize their 'Negative Traits' and their 'Weaknesses'. This 99% of the people would have a continuous chain of thoughts related to their Ego, Security and Bondages only. These Souls are poor Souls and they keep taking rebirths numerous times.

- **Only when these Souls are able to break the continuous chain of Self-centred thoughts with the thoughts related to the Welfare Of Others, they will get promoted to the 'Town Of Moksha'.**
- **Only after they replace all the Self-Centred thoughts with the thoughts to Serve Others, they will get promoted to the 'Town Of Dharma'**

'Nature of Thoughts' is very crucial in determining the 'Nature of a Person'. For Egocentric or Neurotic People, all the thoughts would be based on 'Self-centered only'.

Each and every 'Frame of their Thoughts' would be continuously based on Ego, Security and Bondages on a non-stop basis.

The spread of viruses would push their 'Negative Traits' to think extremely and help to break their 'Non-stop and Continuous Chain Of Thoughts'.

Out of Fear, their 'Conscience Of Soul' would make them momentarily 'Discover' the Very Temporary State Of Life ' and also about Their False and Illusionary Bondages kept on their close People and Assets'

Such a momentary 'Discovery' would help them 'Break' the 'Continuous Chain Of Self-Centered Thoughts momentarily.

- Few people would use such a 'Discovery' and consequent 'Break' partly to **Understand the Reality** and get a Chance to get promoted to the 'Town Of Moksha'.
- But the majority of the people are unable to 'break' the continuous chain of their thoughts. If those **people are sent to any part of the Universe even for a few years**, they will associate with someone over there, start creating assets with them and finally get attached with them all, strongly hoping for 'permanent bondages' with each other and **'forever' "**

I asked the Horse Man, "Can we suggest any other Methods to 'break' the 'continuous chain of thoughts'?"

Horse Man replied, "Any 'Non-routine Activities' can help them 'break' the 'chain of thoughts' "

I asked, "What do you mean by 'Non-routine Activities' ?"

Horse Man replied, "Normal Souls who are 'caught' by the 'Negative Traits' won't be able to 'think' about any concept other than 'Self-Centered' thoughts. **Any Thought or Action that helps them to get out of their 'Chain of continuous Thoughts' is called 'Non-routine activities'**. For instance, Meditation, Visiting a place not visited, Hearing a song that is not heard, Executing an Act that is not carried out etc. are called 'Non-routine activities'.

We understood the Importance, Ways and Means of 'Breaking' the 'Continuous Chain Of Self-Centered Thoughts' and the **Crucial Role Of the current spread of viruses in 'Breaking' such 'Continuous Chain Of Thoughts'.**

Then the Horse Man took us to the place where the 'Dead Bodies' of the deceased people were buried.

That area of burial gave us a very shocking experience. We could see the Souls that had left the Physical Bodies of the deceased people but yet those Souls were unable to leave the burial site. They kept on shuttling between the burial ground and their homes to witness both their Physical Bodies being buried and their loved ones being parted ways. They were struggling to communicate with those people who were burying their Physical Bodies as well as to their loved ones.

The Horse Man told us, "This is how the 99% of the people would keep struggling to find their Peace. Their bondages with the mortal world is so intense, they refuse to return to the 'World Of Evolving Souls'. They need to wait for a certain number of years (that would vary from Soul to Soul depending on their realization) in the 'World Of Evolving Souls' before they take a fresh birth in the mortal world"

As the Horse Man was explaining to us, we saw a few departing Souls approach us. The departing Souls requested us, "Please help us get our Physical Body back. We want to stay only with our loved ones and we don't want to go anywhere. Please help us"

AWARENESS

We tried to pacify those departing Souls to believe the Masters of the Immortal Worlds and leave for the 'World Of Evolving Souls'. Unfortunately, none of the departing Souls was pacified by our explanation.

The Horse Man told us to move away from the burial ground as it would be a tedious job to convince the departing Souls to leave from the 'Town Of Maya'.

We started moving away from the burial ground and sat in a calm place to relax after our tiresome travel.

After a couple of minutes, Elena asked the Horse Man about our plan of returning to the northern forest.

She told the Horse Man, "I will find myself redundant after returning to the northern forest. When so many activities are going on in this Town, I fail to understand why the Masters Of the Immortal Worlds have kept us idle in the forest. We are still hoping there might be a reason behind their actions"

The Horse Man replied, "Yes. There must be a strong reason. The first reason might be to confirm your Zeal and Determination to work with us. The second reason is to verify your Power of Endurance to overcome the internal challenges posed by your mind. The third reason is to enact a visible change in the Town during your visit. The quick return to the Town wouldn't have reflected any significant change in terms of Spread of the Virus and Change in the Attitudes of people in the Town. That's why I made you wait there in the forest"

We were surprised and asked the Horse Man, "You made us wait there in the forest? Even a Horse Man has such power to make us wait in the forest for many months?"

AWARENESS

The Horse Man replied, "Perhaps, the normal Horse Man may not have the power to make you wait in the forest. But the Father of All Souls may have the power. Isn't it? My name is Sadha". We saw him winking his eyes.

We understood who the 'real Horse Man' was and we hugged Him with the tears of bliss rolling out from our eyes.
